**UNION READY TO SHARE IMPROVED CONDITIONS WITH NEIGHBOURS**

**Mr. S. F. Waterson Speaks To Mombasa Rotarians**

Mr. S. F. Waterson, Secretary of the Mombasa District Union, addressed the members of the Mombasa Rotarian Club at a special meeting held at the Club House on Thursday evening last.

Mr. Waterson spoke on the subject of 'The Union Ready to Share Improved Conditions with Neighbours'. He pointed out that the Union was prepared to share the benefits of the improved conditions with its neighbours, provided they were prepared to do so.

He stressed the importance of maintaining high standards of conduct and efficiency in all work done by the Union. He also mentioned the Union's efforts to improve its financial position and its relations with the public.

**CATHOLIC PROTEST**

A protest was made by the Catholic community in Mombasa against the proposed changes in the constitution of the Mombasa District Council.

The protesters, led by the Rev. Fr. J. M. O'Donnell, expressed their concern over the proposed changes, particularly the reduction in the number of Catholic members on the Council.

They demanded that the proposed changes be withdrawn and that the interests of the Catholic community be fully considered in any future amendments to the constitution.

**Reorganisation Appointments**

Appointments have been made by the Government for the reorganisation of the Mombasa District Council.

The new members of the Council will include Mr. S. F. Waterson, Mr. J. M. O'Donnell, and several other representatives of the various communities in Mombasa.

The Government has also appointed Mr. Waterson as Secretary of the Council, a position of great responsibility.

**Mr. Creck Jones Appointed To Colonial Office**

Mr. Creck Jones, a prominent Mombasa politician, has been appointed to the Colonial Office in London.

Mr. Jones, who has served the Government in various capacities, was recommended for the post by the Mombasa District Council.

His appointment to the Colonial Office is a significant recognition of his services to the community and the Government.

**Wahing Valley Splits**

The Wahing Valley has been split into two sections by the Government. This decision has caused a great deal of controversy and has been widely criticized.

The Government's decision is based on administrative grounds, but many believe it is unfair and unjust. The split will disrupt the lives of the people in the valley and will have a negative impact on the local economy.

Protests and demonstrations have been held in the valley, and the Government has promised to reconsider its decision.

**Wahing Valley Splits (Continued)**

The split in the Wahing Valley continues to be a major issue. The Government has refused to budge, and the people of the valley are determined to fight for their rights.

Many people believe that the split is a violation of the principles of justice and fairness. They demand that the Government reverse its decision and reunite the valley.

The issue has also attracted national attention, and many are calling for the Government to show more respect for the rights and wishes of its citizens.

**THE FOURTH TEST IN A DRAW**

**FOUR IMPORTANT FACTORS IN THE BURMA CAMPAIGN**

The Burma campaign has been a difficult and costly one for the British. There are four important factors that have influenced the outcome of the campaign.

1. **Weather:** The monsoon season has made it difficult for the British to maintain supply lines and to conduct their operations. The Japanese have used the weather to their advantage.

2. **Communication:** The Japanese have cut off the British lines of communication, making it difficult for them to coordinate their efforts.

3. **Logistics:** The British have had to transport their supplies over long and difficult routes. This has been a major challenge for them.

4. **Military Strategy:** The Japanese have used a combination of guerrilla warfare and conventional tactics to defeat the British. This has been a surprise to many.

**Landed**

A large quantity of goods has landed in Mombasa from the East African coast. The goods include a variety of textiles, foodstuffs, and other commodities.

The arrival of these goods is a welcome relief for the people of Mombasa, who have been suffering from a shortage of supplies. It is also a boost for the local economy.

**Wahing Valley Splits (Continued)**

The split in the Wahing Valley has led to a great deal of hardship for the people. They are facing food shortages and a loss of their livelihoods.

The Government has promised to provide relief to the people, but it has not done so in a timely or effective manner. The people are growing increasingly frustrated.

There is a growing sense of hopelessness in the valley. The people believe that the Government will never listen to their demands for justice.

**Wahing Valley Splits (Continued)**

The split in the Wahing Valley has also had a negative impact on the local economy. Many businesses have closed, and unemployment is high.

The people are losing faith in the Government and are looking for alternatives. They are demanding that the Government take more responsibility for the welfare of its citizens.

The issue remains a top priority for the people of the valley, and they will continue to fight for their rights until they are satisfied.

**Wahing Valley Splits (Continued)**

The split in the Wahing Valley is a serious issue that requires immediate attention. The Government must take steps to address the needs and concerns of the people of the valley.

Only through dialogue and negotiation can a fair and just solution be found. The Government must listen to the people and respect their rights.

The people of the Wahing Valley are determined to stand up for their rights and to demand a better future for themselves and their children.

**Romance of The Penguin Books**

There has been nearly ten times as much reading of Penguin books in the first six months of the year than in the corresponding period last year. The sales of these books, which are published in paperback, are now in excess of £100 million a year.

The Penguin publishing house, which was founded in 1935, has since then become a household name. Its books are now being read by millions of people in every part of the world.

The success of Penguin has been due to many factors. One of the most important is the quality of the books themselves. Penguin has always been known for its high standards of editing and production.

Another important factor has been the price of the books. Penguin has always sold its books at a price which is well within the pocket of the ordinary reader.

The Penguin Group has also been successful because of its wide range of titles. It has published books in every genre, from fiction to non-fiction, from poetry to drama.

Finally, the success of Penguin has also been due to the excellent service which it has provided to its readers. It has always been quick to respond to the needs of its customers and to provide them with the best possible service.

**TANGANYIKA JUDICIAL DEPARTMENT WORK IN 1944**

The Tanganyika Judicial Department for 1944 was marked by the introduction of the new judicial system. The system was based on the principle of the separation of powers between the executive, legislative and judicial branches of government.

The new system provided for a High Court and a Magistrates' Court. The High Court was to have jurisdiction over all cases of importance, while the Magistrates' Court was to deal with the bulk of the cases.

The introduction of the new system was a landmark event in the history of the Tanganyika judicial system. It marked the beginning of a new era in which the law was to be administered impartially and in accordance with the principles of justice.

**AGA KHAN IN UNION**

The Aga Khan, accompanied by his wife, the Princess Ashraf, visited the United Kingdom last month. The visit was one of the most important in the history of the Aga Khan's relations with the British people.

The Aga Khan had previously visited the United Kingdom in 1937 and 1941. His visits have always been warmly received and have done much to promote understanding and friendship between the two peoples.

The current visit was particularly significant because of the Aga Khan's efforts to support the British war effort. He has been generous in his contributions to the United Nations and other organizations which are working for the liberation of Europe.

**PEAT FIRES IN LONDON THIS WINTER**

The Ministry of Health has warned that there is a danger of peat fires in London during the winter. Peat fires are common in the London area, especially in the home gardens and parks.

The danger is increased because of the dry weather and the high winds. Peat fires can be very dangerous and can spread very quickly.

The Ministry of Health has issued the following advice to prevent peat fires:

- 1. Do not light peat fires in the home.
- 2. Do not light peat fires in the open air.
- 3. Do not light peat fires in the presence of children or the elderly.
- 4. Do not light peat fires in the presence of combustible materials.
- 5. Do not light peat fires in the presence of high winds.

**INFANT DEATHS EXCEEDED WAR-TIME CASUALTIES**

The number of infant deaths in London during the year 1944 exceeded the number of war-time casualties. This is a shocking statistic which highlights the need for better infant health services.

The figures show that 1,200 infants died in London during the year, compared with 1,100 war-time casualties. This is a clear indication that the infant mortality rate is still too high.

The reasons for the high number of infant deaths are many. They include poor nutrition, lack of medical care, and unsanitary conditions.

The Government has taken steps to improve infant health services, but more must be done. We must ensure that every child has access to the best possible care.

**Chase Of A Drunken Taxi-Driver**

A dramatic chase of a drunken taxi-driver in London last night resulted in the arrest of the driver and the rescue of the passengers.

The taxi-driver, who was driving a black taxi, became so intoxicated that he was unable to control the vehicle. He swerved across the road and into the path of several cars.

The police were alerted and pursued the taxi. A chase ensued for several minutes before the taxi was brought to a stop. The driver was arrested and the passengers were safely rescued.

The incident has led to a renewed call for stricter licensing laws for taxi-drivers. It is essential that all taxi-drivers be fit to drive and that the safety of the public is always the top priority.

**Keep The National Loan, Say Doctors**

Doctors have urged the Government to keep the National Loan as a means of raising funds for the war effort. They believe that the loan is a vital part of the national finance strategy.

The National Loan has been successful in raising millions of pounds for the war effort. It has helped to finance the production of weapons, the training of soldiers, and the maintenance of the military.

Doctors believe that the National Loan is one of the most effective ways of raising funds. They urge the Government to continue to encourage the public to buy National Loans.

The doctors also urge the Government to ensure that the money raised by the National Loan is used wisely and efficiently. They believe that the public has a right to know how their money is being spent.

**INGREDIENT FOR COOPER'S LICE PREPARATION**

**IN ENEMY HANDS**

The principal ingredient for Cooper's Lice Preparation used to come from the Far East—a part that is still in Japanese hands.

Until the war is over, and until conditions again permit the production of Cooper's Lice Preparation, other measures must be taken. No farmer can afford to let cattle lice drain the lifeblood from his animals—to have the first share of his income.

Little's Fluid can help. Sprayed on to infested animals at a dilution of 1:100, it brings the blood-sucking activities of cattle lice to a sudden end. But a second treatment should be given 10 or 14 days later to deal with the second generation.

EXCESS PROFITS TAX
To the Editor, "E.A. Standard", Sir:- I am sorry to hear of what all your correspondents have written on the above subject. It is quite true that the tax has been introduced with the Ordinance. There is no doubt that it is a necessary measure for the Government to take in order to develop because business men will see to it that they do not pay more while they are liable to pay more.

RUSSIA AND POLAND
To the Editor, "E.A. Standard", Sir:- As I am President of the National Council for the Soviet Union, I am writing you your correspondent E. J. For Health first see to Inner Cleanliness

Inner Cleanliness comes first for health and a regular plan of regular Andrew's comes first for inner cleanliness.

FIRST - Andrew cleans the stomach and bowels.

NEXT - Andrew settles the nervous and corrects acidity, the chief cause of indigestion.

THEN - Andrew tones up the liver and cleanses the bile.

FINALLY to complete your Inner Cleanliness, Andrew gives the bowels, stomach, and acting organs, for their problems like Andrew's having a good effect, for from this is produced some inner life. This is how Andrew cleanses and cools, refreshes and invigorates.

NOTE SENT TO FOUR GREAT POWERS

Emperor's Sovereignty Emphasised

ABOUT THREE O'CLOCK KENYA TIME NEWS WAS RECEIVED THAT A JAPANESE BROADCAST PICKED UP IN THE UNITED STATES STATED THE JAPANESE GOVERNMENT WAS READY TO ACCEPT THE TERMS OF THE POTSDAM CONFERENCE SUBJECT TO CERTAIN CONDITIONS.

FULL DETAILS WERE NOT RECEIVED AS TO WHAT THE CONDITIONS WOULD BE BUT ONE WAS THAT THE POSITION OF THE EMPEROR OF JAPAN AS SOVEREIGN RULER SHOULD NOT BE PREJUDICED.

THE JAPANESE BROADCAST SAID THE JAPANESE GOVERNMENT HAD SENT A COMMUNICATION TO BOTH THE SWISS AND SWEDISH GOVERNMENTS FOR TRANSMISSION TO THE UNITED STATES, GREAT BRITAIN, CHINA AND THE SOVIET UNION.

THIS COMMUNICATION STATED THAT THE JAPANESE GOVERNMENT IS READY TO ACCEPT THE THREE-POWER POTSDAM DECLARATION OF JULY 26.

THE TOKYO BROADCAST SAID THAT THE EMPEROR WAS ANXIOUS TO FORWARD THE CAUSE OF WORLD PEACE AS WELL AS THE WELFARE OF HIS SUBJECTS.

AFTER A FEW HOURS MORE THE BROADCAST BROKE OFF.

The Japanese proposals of the Potsdam terms have just been officially received in London. It is believed that the Emperor will be authorized for a little time to make a broadcast to his subjects.

A big report cleared Mr. Aitken's mind. The first afternoon for the President's term has been a success.

White House, said he had been called for by the President's secretary. He said he had been called for by the President's secretary.

London, was sent in celebration of the news. The first of the week was one of the most successful of the week.

THE WAR AGAINST JAPAN IS OVER

THIS NEWS CAME IN AN ANNOUNCEMENT RELEASED SIMULTANEOUSLY IN LONDON, MOSCOW, WASHINGTON AND CHUNGKING AT 7 A.M. LOCAL TIME YESTERDAY.

ALL THE ALLIED TERMS HAVE BEEN ACCEPTED AND THE EMPEROR WILL PERSONALLY ORDER THE CEASE FIRE.

JAPANESE ARMY CHIEFS ARE TO REPORT TO GENERAL MACARTHUR—WHO HAS BEEN APPOINTED SUPREME ALLIED COMMANDER IN JAPAN—BUT IT IS NOT YET KNOWN WHERE THE ACT OF CAPITULATION WILL TAKE PLACE.

THE JAPANESE WAR MINISTER HAS COMMITTED SUICIDE.

Japan's decision to surrender has been received by great rejoicing by the Allied Commander, General MacArthur.

The Japanese reply to the Allied surrender terms gave a list of the decisions made generally. It was announced by the Emperor, Hirohito, in a broadcast to the Japanese people.

The course of Japanese aggression since the early outbreak of the Chinese war in 1937, the attack on Pearl Harbor in 1941, and the attack on the United States in 1941, have been a series of military, naval and air force operations in ceaseless succession.

How Penicillin Was Discovered

(By Dr. H. Motzko Wilson) The illustrious Sir Alexander Fleming, F.R.S., was first discovered by Sir Mary's Hospital, London, in 1928, when he was returning to his room to find a petri dish containing cultures of Staphylococcus aureus.

He was returning to his room to find a petri dish containing cultures of Staphylococcus aureus. The mold was not only visible in the petri dish but also on the surface of the glass.

The results of the test advanced even further and Fleming and his colleagues found a method of making penicillin in the lab and he found a way of getting rid of the harmful bacteria. Fleming discovered that the mold killed germs in the test tubes.

The first step was to cultivate the mold in a large quantity of water. Fleming discovered that the mold was not only visible in the petri dish but also on the surface of the glass. Fleming discovered that the mold killed germs in the test tubes.

Theatre, Films And Books

"In Strains" (London, July 28) In the show "In Strains" the new story this week, "A Woman's World," is a story of a woman who is in love with a man who is in love with another woman.

The French film "Pique" has been reviewed by the critics. It is a story of a man who is in love with a woman who is in love with another man. The film is very interesting.

Among the new novella this week is "The Story of a Man" by G. H. R. It is a story of a man who is in love with a woman who is in love with another man. The story is very interesting.

# HOW JAPAN ROSE AND FELL

WHEN the Japanese attacked the base at Pearl Harbor, Hawaii, on December 7, 1941, they were not only attacking the United States, they were attacking the world. The Japanese were attacking the world's most powerful nation, the world's most powerful democracy, the world's most powerful ally of the United States. The Japanese were attacking the world's most powerful nation, the world's most powerful democracy, the world's most powerful ally of the United States. The Japanese were attacking the world's most powerful nation, the world's most powerful democracy, the world's most powerful ally of the United States.

Our picture shows (left to right) Air Marshal Sir Robert Brooke-Popham (a former Governor of Bombay), Lord Mountbatten (General) Wavell, and Admiral Sir Geoffrey Layton distinguished as a member in the Far East in the early days of the war.

stated that little or no establishment had been organized. The Japanese were attacking the world's most powerful nation, the world's most powerful democracy, the world's most powerful ally of the United States. The Japanese were attacking the world's most powerful nation, the world's most powerful democracy, the world's most powerful ally of the United States.

By the beginning of the summer 1942 the Japanese forces had captured the whole of Sumatra and stood on the point of India. In India, by the money of God, they were at that time a great, able, and energetic force. They were attacking the world's most powerful nation, the world's most powerful democracy, the world's most powerful ally of the United States.

**IN ENEMY HANDS**

The principal ingredient for Cooper's Lice Preparation used to come from the Far East—a part that's still in Japanese hands.

That the lice is ever, and until conditions again permit the production of Cooper's Lice Preparation, other measures must be taken. No farmer can afford to let cattle lose the life-blood from his animals—he has the first share of his income.

Lette's Fluid can help. Sprayed on infested animals at a dilution of 1-100, it brings the blood-sucking activities of cattle lice to a sudden end. But a second treatment should be given 10 or 14 days later to deal with the second generation.

Both in the political and the industrial field experts are engaged in making plans for future development. They must be given rope. "Rope" is a metaphorical term for the flexibility and support needed for these plans to be successful. British Ropes Limited are ready to give their services in the same way as they have done in the past. Their operation that contributed to the success of the war. When control is finally removed rope and rope products for every industry, with improvements resulting from the last six years' intensive effort, will be available in unlimited supplies.

**CONTROL THROUGH ARTIFICIAL FERTILIZATION**

Possibility of Breeding To The Desired Sex

THE Roper's Weekly recently published an interesting article on the possibility of artificial fertilization. It was written by Mr. P. F. Wain. He says: "In one of those very interesting articles on artificial fertilization, I discovered how, by the use of a special method, it would have saved me many more hundreds of pounds."

What happened was this. The cow was infected with the disease which was known as "artificial fertilization." It was discovered that the disease was caused by the use of a special method. It was discovered that the disease was caused by the use of a special method. It was discovered that the disease was caused by the use of a special method.

Here are a few of the diseases avoided by this method: Brucellosis, Contagious Abortion, Infectious Bronchitis, etc. It is also a very powerful disinfectant. It is also a very powerful disinfectant. It is also a very powerful disinfectant.

# BURMA UNDER THE JAPANESE

Following an eye-witness account by an educated Burmese who lived in Burma through the Japanese occupation, Japan's propaganda, and the British propaganda, the British propaganda is based on the British view of the Japanese occupation of Burma. The British propaganda is based on the British view of the Japanese occupation of Burma. The British propaganda is based on the British view of the Japanese occupation of Burma.

# "We Must Be Just, Peaceful And Honest"

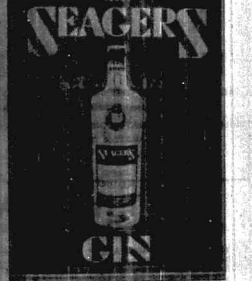

In the next few years, we have to be able to stand up to the Japanese in the East and Japan, to be able to stand up to the Japanese in the East and Japan, to be able to stand up to the Japanese in the East and Japan.

## TRADITION

The strict codes of manufacturing standards and ethical promotion which characterize the Boco product have been maintained by a disciplined sense of responsibility to the national health. They hold the secret of consistent and reliable service during more than half a century. These self-imposed standards have even a greater significance than merely to supply means for endurance and the successful fulfilment of past obligations... they are the necessary stabilizing influence in the progressive programme of today, so essential as it is to scientific research and pharmaceutical advance. They represent experience and dependability. They are the traditions of Boco.
