Bad Case Of Dangerous Driving, Says Magistrate
For what the magistrate termed a "bad case of dangerous driving," a driver was sentenced to a month's imprisonment and a fine of £250. The driver was charged with driving a motor car on a public highway in a dangerous manner. The magistrate said that the driver was driving at a speed of 80 miles per hour in a residential area. The driver was also charged with driving without a valid license. The driver was found guilty on both counts and was sentenced to a month's imprisonment and a fine of £250.

£250 Fine For Building Control Offence
A fine of £250, or six months imprisonment in default of payment, was imposed on a contractor for an offence under the Building Control Regulations. The contractor was charged with failing to obtain a building control certificate for a building. The contractor was found guilty and was sentenced to a fine of £250.

NO HRESPASS
Mr. Justice Lane-Saunders said Mr. Justice Lane-Saunders said that a driver who is charged with dangerous driving should not be allowed to pass the responsibility for the offence to the car. The driver should be held responsible for the offence. The driver was found guilty and was sentenced to a month's imprisonment and a fine of £250.

THE PROBLEM OF THE GERMAN

To the Editor, "E.A. Standard":
 I have been reading with interest the editorial in your issue of September 18, 1942, which deals with the problem of the German. I am sure that you will be glad to hear that I am not alone in feeling that the German problem is one of the most important of our time. I am sure that you will be glad to hear that I am not alone in feeling that the German problem is one of the most important of our time.

Agricultural Report: Problem One Of "Disposal Of Surpluses"

THE 1944 Annual Report of the Department of Agriculture outlines the conditions through which the year which began with the difficult drought and ended with a bumper crop has been passed. The report, according to the report, has become a record of the year's progress in the production of an inadequate supply of foodstuffs for the population of the Colony. The value of the crop was estimated at K23,200,000 in the previous year. The report shows a decline in the fact that owing to the previous year's increased market, the surplus given to the industry of development and progress during the year.

The report gives a brief summary of the year's progress in the production of the Colony. One of the chief reasons for the failure of the 1943-44 crop amounted to 4,395 tons less than the 1942-43 crop. The average price obtained for the 1943-44 crop was approximately 77 per cent of the 1942-43 price. It is expected that the 1944-45 crop will amount to 4,500 tons less than the 1943-44 crop.

The 1944-45 yield of the cotton crop was 1,100 tons, a decrease of 400 tons on the 1943-44 crop. The yield of the 1944-45 crop was 1,100 tons, a decrease of 400 tons on the 1943-44 crop. The yield of the 1944-45 crop was 1,100 tons, a decrease of 400 tons on the 1943-44 crop.

Deliveries of native grain made for sale during 1944 totalled 10,000 tons, of which 6,000 tons came from the Kenya Province and 4,000 tons from the Central Province. The 1944 yield of the cotton crop was 1,100 tons, a decrease of 400 tons on the 1943-44 crop.

KEROL

Adds to your Grazing Acreage.

Kerol animals derive more nutriment from their food than those who do not get this aid to their digestion. In other words, to bring your stock here from Kenya, you are virtually increasing the food-value of your grazing acreage.

Whichever Kerol be given to sheep, cattle, horses, pig or poultry - whether it be administered neat, added to licks or mixed with other conditions always follow. And don't forget, Kerol added to any prepared feed, always helps the animals to get all the good out of the feed.

Licks and more detailed information will be found in the Kerol Book, which is free for the asking from -

First Session Fizzled Out In Failure

RUSSIAN OBSTINACY MAIN CAUSE Foreign Ministers Still Hopeful of Success of Future Talks

First session of the Council of Foreign Ministers is over. It lasted only one afternoon after seven days of yesterday evening and...

By far of greatest concern were the Russian proposals for the peace treaty with Finland. The Russian proposals, however, were not only the subject of the conference but also the subject of the peace treaty with Finland.

It is not easy to inform you of any progress to date. It is not easy to inform you of any progress to date. It is not easy to inform you of any progress to date.

Other Ministers' Remarks. The Soviet Minister of Foreign Affairs, Molotov, said that the conference had failed because of the Russian position.

FOUR YEARS' EXPERIENCE OF THE STEAM HEATING PLANT FOR THE STEAM HEATING OF AIR FOR TRAYS

AFTER FOUR YEARS WORK WE HAVE RECEIVED THE FOLLOWING TESTIMONIAL REGARDING OUR PLANT FOR THE STEAM HEATING OF AIR FOR TRAYS DRYERS.

We have now had four years' experience of the Steam Heating Plant supplied by you for the Factory, and the enclosed figures, prepared by the Garden Manager, show that in comparison with the four years previous to this installation there has been a reduction of over 50% in the total fuel consumed, and that with the 'all steam' system power, and drying has been provided, with less fuel than was previously used for drying only.

The plant has proved highly satisfactory in service, and has given no trouble in regard to working or maintenance, while the elimination of Dyer Steam and Chimney renewals is an additional saving of considerable importance.

FULL PARTICULARS From the Pioneers of this Highly Economical System— MARSHALL'S TEA MACHINERY CO., LTD. GAINSBOROUGH, ENGLAND.

Excuse me— Inner Cleanliness comes first for Health

-So be regular with your ANDREWS

Daily Inner Cleanliness should be your simple rule for health. There are only simple ways to keep your bowels regular, but you will find that in every way. From the moment you drink your first glass of morning Andrews, your Inner Cleanliness begins and as a result your skin will clear, your digestion improved, your weight increased and improved. See how Andrews does its purifying work:

FIRST - Andrews relaxes and cleans the mouth and tongue.

NEXT - Andrews settles the stomach and corrects acidity.

THEN - Andrews tones up the liver and checks biliousness.

FINALLY - To complete your Inner Cleanliness Andrews gently cleans the bowels, corrects constipating poisons, corrects Constipation, purifies the blood and cleans the skin.

Nourishing Diet for FINCKY Children

Many children are "difficult" about their food, and it's no added worry to Mother to see that they get the nourishment that their growing bodies need. Doctors often recommend that babies become more used to the slightly white color of milk, and give them dry cereals.

CORRESPONDENCE

COMFORTS FOR TROOPS

To the Editor, "E.A. Standard."
 Sir—I am afraid I just cannot refrain from heaving criticism on your latest effort at generalisation, allowing me, I suppose, to say that you are a little out of touch with the soldiers who are by a long way the greatest force in this country. In fact you are out of touch with all the while we hear of nothing but the food shortage in Rhodesia. It is not as if we are not getting 100,000 pounds of flour a month. Now even a soldier can get this for his money. It is not as if we are not getting 100,000 pounds of flour a month. Now even a soldier can get this for his money.
