IMPORTANT PEOPLE

PERYA has the homeliest babies in the World," said Dr. G. Gregory proudly holding one of them aloft at the Lady Babes Show held at the home last afternoon. "Every baby was a chattering, thumb-sucking little girl in pink-checked and white-trimmed frocks. There were dozens of them interested for the first time. These were babies of their own mothers and pink-ribbed girls—tiny babies in arms, who were kicking babies in grams and entering toddlers."

...young man in a particularly becoming suit of apposition. Am'n you know the name? He is a young man with a sparkling stare, but his mother is a widow and he is a young man of his own mother's name.

Weddings & Bells

...wedding was held at a white-roofed pavilion on a hillside. The bride was the daughter of Mr. and Mrs. Hindoin, fourth daughter of Mr. and Mrs. Hindoin of Nairobi, who she was married to Henry Scheidt at St. Peter's Church, Nairobi, on November 11. The bridegroom, who is the third son of the late Mr. Scheidt and Mrs. Scheidt of Nairobi, is a general contractor in Nairobi. The bride is a daughter of Mr. and Mrs. Hindoin of Nairobi. Settlement Plans For Highlands Have Been Approved

But Loans Needed For Carrying Out The Schemes
Closely Union Was Not Discussed During Visit To Britain

The Secretary of State has approved the settlement plans for the White Highlands. This was the most important item in the Budget session reported yesterday when the Governor, Sir Philip Mitchell, was not considered to be practical politics today.

He Recalled that the public must show their confidence in the scheme by subscribing freely to loans which would be provided to provide the necessary finance. If they did not do so, the scheme could not be carried out on the scale envisaged by the Settlement Board.

Sir Philip stated that the objects discussed during his recent visit to Britain included that of political amalgamation or unification of East African mainland territories. "Close Union," he declared, was not considered to be practical politics today.

His Excellency said that the public must show their confidence in the scheme by subscribing freely to loans which would be provided to provide the necessary finance. If they did not do so, the scheme could not be carried out on the scale envisaged by the Settlement Board.

KENYA'S MAIN MEMORIAL SHOULD BE A TECHNICAL COLLEGE

Study Group's Recommendations: Museum Given Second Priority

The main Kenya War Memorial should take the form of a technical college for all races with an agricultural wing attached designed to provide suitable training for the unemployed.

This is the chief recommendation of the War Memorial Study Group, which has recently been submitted to the Government of Kenya.

The committee of the study group should also be invited for the construction of a museum for the war dead, which would be situated in the neighbourhood of the memorial.

The study group was formed to consider the various suggestions for the memorial, and to recommend a suitable site and design for the memorial.

PAYING FOR IMPORTS: SEF HELP

Key Problem Of East Africa

By T. J. OSHEA

THE problem as the principles on which you run your farm or business is paying for imports.

To enable the people of these territories to enjoy the same standards of living as we must import a great deal of goods which we cannot produce within our own borders. These imports are paid for by the Government through the sale of foreign exchange.

Most of our manufactured imports come from Britain. Consequently the United States Government has been lowering import duties on these goods to encourage the United States to export to us. Japan and other nations also have the same interest in us, attempting to sell their goods to us. It is not for us to meet or there would be bloody revolutions in those countries. There are few East Africa will be able to pay for these goods. The Government has to pay for them. Every year the Government has to pay for them. It is very important to increase the production of goods in our territories. It is very important to increase the production of goods in our territories.

The second is that the common people of these countries have not been educated and have not been trained in the production of goods. It is very important to increase the production of goods in our territories. It is very important to increase the production of goods in our territories.
