Golden Jubilee Of The K. U. R. & H.

What it will cost no one can express. What is its object no one can suggest. Where it will start from no one can guess. Where it is going to nobody knows.

What is the use of it no one can conjecture. What it will carry there's none can define. And in spite of George Curzon's superior lecture, it clearly is neither fish nor fowl.

In these words Labouchere ridiculed the proposal to build the Uganda Railway. He was writing in *Truth* on July 20, 1894. Today the Kenya and Uganda Railways and Harar celebrates the 50th anniversary of the day on which the first rail was laid.

The original proposal to build the Uganda Railway came a few years before the outbreak of the first world war. It was written in *Truth* on July 20, 1894. Today the Kenya and Uganda Railways and Harar celebrates the 50th anniversary of the day on which the first rail was laid.

The construction of the railway was the first step in the development of East Africa. It was the first step in the development of East Africa. It was the first step in the development of East Africa.

**PRELIMINARY SURVEY.** Both engineers reported favourably on the project and the Company secured the services of Captain Macdonald, a Royal Engineer, experienced in railway location. A sum of £25,000 was voted for the survey, which was completed in 1895, and in December, 1895, and in December, 1895, and in December, 1895.

10 months surveyed 2,728 miles. He investigated routes in the Tavo desert and Shabaki valley, and the Rift Valley and the Lake, and the other followed what is today the route of the railway. It was the first step in the development of East Africa.

Though Field Marshal Lord Alexander, Chief of the Imperial General Staff, has come here in the course of work, rather than in the course of a visit, it is not clear that the period of his stay will be a pleasant one for him. **Prelude To Disunity**

Yesterday there was issued simultaneously in London and East Africa a document, which the Government is concerned, its contents have not, as yet, the character of a declaration of the status of a policy. Its authors are at pains to make clear throughout that though the proposals are "concerned with Kenya only, for discussion." The Government of Kenya has already announced that a period has elapsed to allow of the Government's proposals will be deleted in the Legislative Council.

It is indeed partly the fact that the Government of Kenya is the only one of the Government in Kenya which has concerned itself with the proposals. It is to be found within the Government of Kenya which has concerned itself with the proposals. It is to be found within the Government of Kenya which has concerned itself with the proposals.

### Scotlands Foremost Whisky

Since 1860

There was only one Scotch Whisky during the war and that was James Watson & Co's Scotch Whisky.

The tone of conversation was friendly and the whisky was served fairly quickly, though the general impression was that the Scotch Whisky was not the best in Africa. As a result, the whisky was not the most popular in Kenya and Uganda. It is, however, a fine whisky and is well known in the East African countries.

Many Important Items Discussed

'WARE BOOM!

'WARE BOOM! Sorry. Oh, don't worry about me. It's nothing to me if your head's knocked off through lack of quick reflexes... 'WARE BOOM! Sorry. I should think you are. You, a man who's crewed in the Ocean Races. Anyone would think you'd only crewed a week-end houseboat. Sorry. Fact is, I don't feel today. What's it with this little nip or nothing more than a peep! Noting to do with the weather. Went to a party last night. Fitting-out supper. Bad show. What, no Rose's Lime Juice? Well, I didn't see any. Alstair, I grieve. You don't know the grab-board strake from the rudder gudgeon. Be your age. A convivial yachtsman without Rose's is like a paid hand without a knife... 'WARE BOOM!

**S**PEECH Day, the climax of the S. Arabia School year, was Thursday, December 13. Parents and friends gathered on the lawn in the middle of the town for an outdoor, and then went in to the Hall for the Prize Giving.

**True Education**  
The education is a training for responsible living, and covers much more than class work. Viscount Halifax has said "Education is what remains when we have forgotten all that we have been taught." Wise words, for they indicate the lasting value of the general atmosphere of school life which we usually call "tone." I ask you to remember that when you attempt to impart the message of faith or of hope to a child, why we attach our importance to the Christian Education of our children. The Rev. W. Wyn Jones, Acting Warden, then spoke of step plans during the year to widen the basis of administration of the school. This year the Disciple said that the school had developed to a stage where it would be a help to the Headmaster to have a Council of Government set up to advise on the running of a more progressive school in a more progressive age.

**Discipline and the Game**  
During the past few years a good deal has been said by sportsmen and schoolmasters alike on the subject of discipline. But I wonder how people appear to mean discipline. This, I think, is not a matter of discipline. If you mean order,

### South Africa's Housing Muddle

**H**ousing difficulties in the Union are getting more acute day by day. The Government is unable to alleviate the problem by building "subsidized" houses. It has been suggested that the Minister of Housing should be given the control of all accommodation having more than 120 or 150 months. It is estimated that in Johannesburg alone there are over 200,000 insanitary houses.

Trout Fishing In Kenya

HAS IT DETERIORATED?

THE present practice of trout fishing in Kenya is a shocking and revolting one. It has been that of catching 'leaders' in the streams and moving them to the area where they are to be stocked. It is true that such a practice improves the trout, but it is not a desirable one. The trout are not allowed to breed in their own streams, and this is a great loss to the country. The trout are not allowed to breed in their own streams, and this is a great loss to the country.

GET A MOVE ON!

It has been found in the tropics that male and female trout, when kept apart at different periods, will produce a more consistent and larger crop. This is a fact which is not generally known. The trout are not allowed to breed in their own streams, and this is a great loss to the country.

KEROL WILL STOP THE TROUBLE BEFORE IT STARTS

As a result of the recent short rains, the growth of new nutritious grass and a general abundance of green stuff can be expected. Nature's law of compensation however will bring attendant troubles and diseases and in particular digestive disorders and hoars, which is caused by the animals craving for luscious fodder, which they will greedily crop and feed on it in excess before their systems are adjusted to the change.

Kerol will prevent hoars if used as follows:— 40 lbs. salt and bonemeal and a winebottle of Kerol. If stock have not had the Kerol Lick regularly, then dose them with pure Kerol at intervals of three or four weeks.

Mission To Moscow
It was with no little relief that people both within and beyond it received the assurance that the British Government had decided to send a mission to Moscow. The Foreign Secretary, Mr. Bevin, has announced that the mission will be headed by Sir Stafford Cripp, and will include Mr. Cripp's wife and Mr. Cripp's daughter. The mission is expected to leave for Moscow on Monday, December 18th.

Christmas Gift For The Kenya Navy
Last year the district shared in sending a Christmas present to the Kenya Navy. This year the district has again sent a present to the Kenya Navy. The present is a collection of books, and is being sent to the Kenya Navy by the Kenya Navy Club. The books are being sent to the Kenya Navy Club, which is a branch of the Kenya Navy.

Bevin has not particularised as to the nature of any "new" policy for the next year. But indeed there was little more than the usual "business as usual" approach of these days in his speech. # Truman Urges China To Stop Warring

## SUGGESTS EARLY NATIONAL CONFERENCE TO BRING ABOUT UNIFICATION

Washington, December 10.—President Truman yesterday called for the immediate cessation of hostilities between China and the communists. He urged the summoning of a national conference of representatives of all China's major political elements to seek an early solution into the present internal strife.

Truman's comprehensive statement to the United States Congress, which he made within two hours of Generalissimo Chiang Kai-shek's departure on December 10, was the first time that the President has publicly called for a national conference to bring about unification of China.

Underlining his statement, Truman declared that China, despite its vast internal strife, is an important ally of the United States and that the people of China should have the opportunity to decide their internal differences promptly by means of peaceful methods.

The United States Government believes that peace, unity and democratic reform in China will be achieved on the basis that govern the people. It is essential to include in the program measures for the reconstruction of the country.

Truman said that the United States Government is committed to the principle of self-determination for the Chinese people and that it will support any effort to bring about a national conference to bring about unification of China.
