# Nairobi Show finishes with a flourish

The Kenyan Show of 1958, the twenty-third of its kind, opened on December 1st at the Nairobi Racecourse and continued for six weeks, finishing on December 18th. It was the most successful in its history, with a record attendance of 1,000,000. The show was a success in many ways, not only in the number of visitors but also in the quality of the exhibits. The equestrian display was particularly popular, and the variety of animals shown was impressive. The show was a well-organized and enjoyable event, and it was a great success for all concerned.

KENYA was on the threshold of a spectacular advance in tourist development. In the provision of accommodation and services of all kinds, the next two years would be critical. The Minister for Tourism and Wildlife, Mr. Ayeki, told the Board of Trustees of the National Parks at the park headquarters, Nairobi on Saturday.

Mr. Ayeki said that the Government was determined to make Kenya a more attractive tourist destination. He mentioned the need for more hotels, restaurants, and other facilities to cater for the growing number of tourists. He also mentioned the need for better roads and other infrastructure to make it easier for tourists to travel around the country.

The Kenyan team, which spent several months in England, returned home to a warm reception and a cheering crowd of 2,000 people at the airport. The team, which was led by Mr. J. M. Njiru, had been on a tour of the United Kingdom to study the methods of adult literacy education. The team had been successful in securing a grant from the British Government to help Kenya in its drive to end adult illiteracy.

The truth about retreads No. 2

**WHEN IS A TYRE RETREADABLE?**

There are many factors which determine whether a tyre is retreadable or not. The most important factors are the condition of the tyre's casing and the condition of the tyre's tread. If the casing is in good condition and the tread is worn, the tyre is retreadable. If the casing is damaged or the tread is too worn, the tyre is not retreadable.

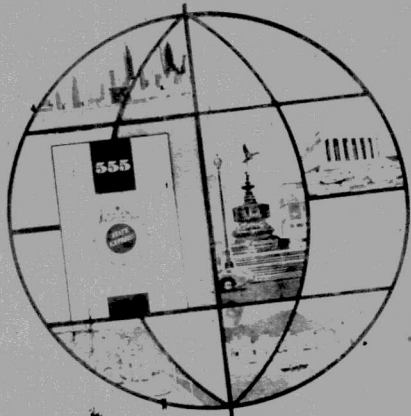

At CAR & GENERAL, we have the latest retreading equipment and the most experienced retreaders. We can retread your tyre in our own retreading plant, or we can retread your tyre at our retreading plant in your own town.
