## SENATORS APPROVE AMALGAMATION

### Rapid progress for Constitution Bill

Rapid progress was made in both Houses of Kenya's Parliament yesterday on the Constitution of Kenya (Amendment) (No. 4) which seeks to effect an earlier decision to amalgamate the two and to permit the postponement of the next general elections until June, 1970.

Despite K.P.U. opposition, the Bill passed through all its stages in the Senate, and was later given a First Reading in the House of Representatives after objections by K.P.U. had been aired on a procedural motion.

The Leader of the Opposition, Mr. Odingo, complained that an attempt was being made to "reduce the constitution to nothing" and urged unsuccessfully that more time be given.

Before either House debated the Bill, its provisions had been discussed by a full meeting of the Kenya Parliamentary Group, presided over by President Kenyatta, at the Jubilee La Borne in Harare, Rhodesia, Nairobi.

### 'Time-saving' agreed

The Kenya M.P.s and Senators endorsed the Government proposals to create a six-Chamber House and to extend the life of Parliament by two years.

The Third Reading of the Bill was carried in the Senate by 24 votes to two. Earlier it had been read a second time on 14 days in one day and a third time through all its stages prior to the afternoon discussion of it.

After the Senate had finally passed the Bill, the House of Representatives agreed to amend the Bill to provide that the House and Senate shall have equal powers in the control and regulation of the Government and to provide for the amendment of the Bill by the House and Senate.

A statement after the vote said that the Government was pleased with the support given to the Bill by the Senate and that it was confident that the House would also pass the Bill.

It was stated that determination to pass the Bill in both Houses should only be made for genuine reasons and not on a technical basis.

An average score of children last night after reading both the House of Parliament. All Charles Kibaki and Father Christmas in the picture around the House's Christmas Tree after the yellow lights ceremony. When they were brought under control they displayed the promised presents, and Father Christmas proved them to have a still other gift, money. Father there was still singing around the tree by the House's Chief Clerk.

# CHINA WARNS U.S. AND RUSSIA 'PLOT' WILL FAIL

CHINA yesterday warned the United States and Russia that their "conspiracy" of forcing peace talks on Vietnam by coercion, not peace treaties.

The warning came in an article in the "People's Daily" newspaper, the official organ of the Chinese Communist Party, published on the Chinese New Year's eve of the Vietnam.

The Chinese Communist Party organ also made it clear to the United States that "concessions may be made, but only on the basis of the Chinese people's will."

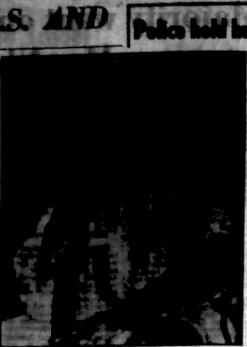

The Chinese people will not accept any peace talks which do not meet their own interests, it said.

The article charged that U.S. imperialism and its lack of respect for the Chinese people's will was the main reason for the failure of the Vietnam peace talks.

## Lawyers trying to settle row over Kennedy book

LAWYERS in New York yesterday tried to settle out of court a suit by Mrs. Jacqueline Kennedy on publication of a book about her late husband. With only a week to go before the suit is heard, a spokesman for Harper and Row, publishers of William Manchester's book, said.

Manchester's book, "The Death of a President," said efforts were being redoubled to patch things up in a civil action.

Mrs. Kennedy originally requested the second book, but now calls it hateful and distorted. Her suit names Harper and Row, Mr. Manchester, and Look Magazine, which is to publish 80,000 words of extracts, the first instalment of which has already gone to press.

It is due to be heard by a judge of the New York Supreme Court on the 17th.

The chairman of the executive committee of the Kennedy family, Mr. John F. Kennedy, said that the Kennedy family are unwilling to read the manuscript themselves, and hence they designated representatives to do this for them. Had they read it themselves, the current situation might have been avoided.

Sen. Robert Kennedy, brother of the late President, was quoted as saying the paucity of Mrs. Kennedy's book, offensive to her, was the main reason for the suit.

But in the past few days the contents of those pages have leaked out in the Press and magazines and included a portrait of President Johnson as an unscrupulous liar, eager to seize power after the assassination of President Kennedy.

Further details about Mrs. Kennedy's own reaction to the charges were given.

Her struggle with a nurse who tried to keep her away from the bed.

Her insistence on wearing her hand-quilted dress as they lay in their bed.

A denunciation in her own words of the last eight years.

A deeply moving account of how she felt the failure of her father was due to the incompetence in guarding the President.

Bad feeling between Sen. Kennedy and President Johnson.

## Christmas for a large family'

MOST of the Salvation Army Homes will be quiet on Christmas Day, with their occupants at their own homes for the holidays. The one exception will be the Kabets orphanage. Nearly two of the 30 children there have somewhere to go and the remainder will be enjoying a special Christmas party.

On Christmas Eve there will be a party with coffee, nuts, sweet and fruit. The children will be given a special gift by the Salvation Army Commissioner's wife.

The younger children will receive toys and the older boys some small gifts of clothing which they will need, such as socks, for the winter.

There will also be card making parties and the children are actively taking an interest in the work for a fund to buy Christmas gifts.

On Christmas Day a special Christmas dinner will be served. It is difficult to find enough toys and gifts for their boys and girls and Major Corbett who runs the Home points to a group among his members of the public to help him out.

The Kabets establishment, which moved from inadequate accommodation in Queen's Road in 1914, now occupies the spacious building and houses 30 boys and 10 girls. It is a well-run and a battle world, often by parents who are unable to do so.

Some come to the Home from the Kabets, others from the Boy's others through the Ministry of the Police Department.

There are children who come from a prison when the child, and are now in the care of the Home.

Although money is always short, facilities and accommodation are adequate, and the children are well cared for. The Home is a well-run and a battle world, often by parents who are unable to do so.

The children who are often kept in the Home until they are 18 years old, then go into the world to find jobs. Two boys have recently joined an oil company after passing their school certificate.

Many of these children are sponsored through American church societies, which send books for their education, and the rest of the funds from the sale of the goods.

# INJURIES STOP TEJU RUNNING

## Clarke only five seconds outside world record

**NATURAL TEJU, Kenya's Commonwealth Games all-time champion, was forced to abandon his bid to equal the world record in the 5000 metres during the Commonwealth Games in Australia. Ken Clarke, holder of the world record since 1958, was unable to run because of severe bruising and lacerations he suffered during the three-mile dash at Clarke's Sydney on Sunday. This was Henry's third defeat in the race since he took the title during the Kenya season in Australia. Last night's race would have been over six miles, which would have been a better distance.**

There is little prospect for me to equal the world record in the 5000 metres. I would have to run in the 10000 metres. I don't think I can equal the world record in the 10000 metres. ## Mr. SMITH AWARITS RULING 'Border open for season of goodwill' Agonising course' likely to be taken

RODÉSIA has been told by her Prime Minister, Mr. Smith, to prepare for a formal declaration of a republic in the New Year. The New Mr. Smith said, would see a clarification of Rhodesia's constitutional features.

Mr. Smith had told the Press he would await a legal ruling from constitutional experts, and possibly a mandate from the electorate before taking the country on what has been described as "this agonising course".

The Governor, Sir Humphrey Gibbs, has said he is "staying put" in Salisbury's Government House despite Mr. Smith's threat that Rhodesia is already a republic. "The Governor's position is what it always has been — he is staying where he is," a spokesman at Government House said yesterday.

Mr. Kinnear, regarded by Britons as the only legal Government in Rhodesia led a man without actual power in the country, has held an emergency meeting in Salisbury since Rhodesia voted Britain just over 13 months ago.

SELECTIVE investment demand continued to influence Stock Markets yesterday, with some institutional buying, especially for British Funds whose prices are still depressed to 3/4% below par, on persistent demand including support of an early Bank Rate reduction.

Speculation was mainly restricted today with several institutions favouring an opening of the market. Prices settled on a more fairly variable buying, with most activity in a company's shares having an outlook of stability.

Foreign shares from Deutscher Lang and American Shares. This were mostly from investment purposes.

Gold and copper were making some recovery.

Dollar stocks improved on the West Coast options.

## CHRISTMAS STORY

### A light shining in the darkness

JUST IN CASE you have a Christmas message to pass on to all the jubilation, here is a quotation from the beginning of Christ's Nativity to read, and ponder, in this month.

In the time of the Roman, and this happy scene, throughout the East and the West, the light of the world was shining in the darkness. For as the light shines on the darkness, so the light of the world has shined in the darkness. For as the light shines on the darkness, so the light of the world has shined in the darkness. For as the light shines on the darkness, so the light of the world has shined in the darkness.

The true significance of this season is in danger of being forgotten, overlaid with commercialism. So much so that, in many countries of Christendom, the birth of Jesus is being celebrated for a return to the original, in which festivity is absent, certainly, but the meaning of the Nativity is retained. Consequently, the heart matters infinitely more than generally from the pocket.

Throughout the Biblical story of the Nativity, the strongest emphasis is placed on having the pure and the light is turned towards the life of heart and not the humbly of surroundings. The Babe was born in the way no more in the narrow room of the manger.

As there is no reason found of the Nativity, how did December 25 come to be chosen? For the first three centuries, Christians concentrated their attention on Easter; not only was that chosen for Christmas but the Church was unconcerned about the date Jesus was born.

### Separation of Nativity from Epiphany

The earliest known source for dating Christmas for connected with the Epiphany, from the Greek word "epiphany," which is related to the birth but to the baptism of Jesus. By the first half of the fourth century, the Church was observing Epiphany, but distinct Nativity, so that the night of January 6 was devoted to the festival of the birth, the day of the 6th to the baptism.

The separation of the Epiphany from the Nativity probably occurred as the result of a mixture of theological learning and the religio-political policy of the Roman Constantine, and the desire to separate the birth from the baptism of Jesus. The Epiphany was observed by the followers of Melchior and Chrysostom, the Church was observing Epiphany, but distinct Nativity, so that the night of January 6 was devoted to the festival of the birth, the day of the 6th to the baptism.

No doubt there is much pagan mystique interwoven with the story of Christmas, but the Babe was born at Bethlehem and down the ages, the Christian Church has endeavored to worship, to enrich and enable the ancient rites of Yuletide with the story of His lovely birth which has become the supreme parable for all mankind.

"Let us beware of sentimentalizing the story of the greatest event in the world," wrote Archbishop of York, Dr. Cogan. "Let us get beyond the tinsel and the tapers, the carols and the food, the 'pewty' and the petty, and take a steady look at what it was precisely that God did for us men and for our salvation that first Christmas."

So stand all the children this weekend, until you find time to turn to the Biblical origins of the Nativity and join in worship and in Adoration!

# Kodus to Coast marks start of holiday rush

Christmas crowds from Malacca port yesterday earlier than elsewhere as people poured out of the city to Christmas returns to "old days".  
Trains, planes, buses and cars were packed with holiday-makers. The airport, bus and railway stations had queues of anxious people, many hoping for a spare seat.  
Mandarin and Malindi were, as usual, the main attractions, and last night the Coast yesterday carried a stream of holiday-bound travellers. E.A.A. patrols were on hand in force to attend quickly to any distress calls.  
The weather showed no signs of bringing any problems on the journey, with the sun at Bangkok presenting that it would continue to be dry, sunny and hot.

### HOTTER THAN AVERAGE

The forecast for Malindi this week is that temperatures would be well above average for the time of year. This was encouraging news, at least for the stay-at-home holiday-makers.

Shoppers did not welcome yesterday's heat, but quite the reverse average for the time of year. This was encouraging news, at least for the stay-at-home holiday-makers.

## Ministers dash for last-minute talks

Key Indian Government leaders — both Sikhs — yesterday apparently had the plan of the eight Sikh holy men to burn alive. The Defence Minister, Sardar Swaran Singh, and Home Speaker, Mr. Bhikam Singh, conferred with Sikh leader (senior) Park Singh, on the deadline for the suicide of his followers passed.

The agreement to let the Prime Minister, Mrs. Indira Gandhi, arbitrate the future of the town of Chandigarh — object of the Sikh demands — was announced.

Troops and police were standing in an Amritsar to deal with any disturbance if the holy men carried out their suicide threat while waiting in huge white sacrificial bowls on a road overlooking their temple. Their deadline was 1.30 yesterday afternoon.

Sardar Swaran Singh had planned to sacrifice himself in the same way today.

### Past armed guards

If the troops had tried to stop the burning, they would have had to get past Sikh armed with sharpened bamboo spears and broad curved swords guarding the outer balconies of Amritsar's golden temple.

The eight who planned to die are Sikh leaders. The senior priests are at five locations for the new Sikh-dominated State of Punjab. Official sources in New Delhi have said there appears to be no sign that the Indian Government would give to Sardar Park Singh's main demand to have the town of Chandigarh as Punjab's capital.

Frank Singh is a political leader of the Sikh movement and was arrested last week. He is now in jail. He is the only one who has been arrested and is being held in the Indian Government's custody. He is being held in the Indian Government's custody. He is being held in the Indian Government's custody.

If you think you know all there is to know about the VW, you ought to take a trial run in this one

This was a new Volkswagen model. The VW 1600, and engine has a displacement of 1.6 litres, and 53 hp. This beetle can do 78 miles per hour. But when it's in the fastest lane and you want to get there first, the VW 1600 doesn't take more than 12 seconds to get from 0 to 60. If you drive regularly, you'll become 20 per cent of usually good drivers. You'll save 20 per cent.

And there's an optional seating on the rear seat plus a wider rear wheel arching than the car good reliability and coverage. (Other some Volkswagen 1200, also has fuel consumption). And there's a lot of more power in the different gears. That means you don't have to change gear so often. (See brochure, you can change from 20 to 35 in 10 seconds.)

So don't let the body deceive you. What's under the hood is what counts. The VW 1600 is a superior. VW dealer or nearest VW dealer.

**I have just returned from the most fantastic voyage in my 36-year career in the motion picture industry.**

To make a motion picture that crosses a new frontier may seem impossible today. Outer space, the depths of the sea, the bowels of the earth, the past, the future—all have been subjects for the camera.

Yet a film called *Fantastic Voyage* has broken through in an unsuspected direction to create an adventure of astonishing suspense and beauty. It has moved me, for the first time in my career, personally to endorse a motion picture in an advertisement.

In *Fantastic Voyage*, the imagination of Man and the magic of the camera are linked as never before, to offer stunning proof of my cherished belief that the motion picture medium is the most potent entertainment form ever devised — limitless in its power to go wherever the mind can reach, with credibility, emotional force and drama.

I urge you to see *Fantastic Voyage* when it comes to a theatre near you, and then to write to me personally, telling me your reaction to this film which I have found so extraordinary.

# INDIAN FEELS MEMBER, Mr. Indira Gandhi, asked with flourish and wisdom to be admitted to death by the State for the Government to be a national hero.

Mr. Indira Gandhi made clear last week that she had no intention of going in to a death sentence. The Indian Government has refused to be a national hero. She is the only woman in the world to have been elected to the post of Prime Minister of India. She is the only woman in the world to have been elected to the post of Prime Minister of India. She is the only woman in the world to have been elected to the post of Prime Minister of India.

Overhauling the laws of the country is the first step. The Indian Government has refused to be a national hero. She is the only woman in the world to have been elected to the post of Prime Minister of India. She is the only woman in the world to have been elected to the post of Prime Minister of India.

The Sikhs are not Mr. Gandhi's only problem. In Punjab, the Sikhs have been fighting for more than a month to have a campaign for a national ban on cow slaughtering — in pursuance of a religious belief which has long had effects on India's economy.

As a correspondent points out in a letter on this page, the Government has been fighting for more than a month to have a campaign for a national ban on cow slaughtering — in pursuance of a religious belief which has long had effects on India's economy.

The fair organizers expect to receive more than 1,000,000 persons will be able to see all the exhibits, which will be on display from 10 a.m. to 6 p.m. daily.

The fair, which is being held in the city of Accra, will be the largest to be held on an 18-acre site overlooking Accra, Ghana, since the first trade fair in 1900.

Two huge, semi-circular, steel pavilions have been erected for the exhibits of non-African countries. Exhibits by the Ghana Government will be at other African pavilions. A bookstall stands by the entrance to the fair.

Work on the site began in 1953 and the buildings now stand on a concrete base. The site is now being used for the construction of a new road and a new building.

The fair is also regarded as another step by Ghana to develop a local industry and to expand trade with other countries.

## I have just returned from the most fantastic voyage in my 36-year career in the motion picture industry.

To make a motion picture that crosses a new frontier may seem impossible today. Outer space, the depths of the sea, the bowels of the earth, the past, the future—all have been subjects for the camera. Yet a film called *Fantastic Voyage* has broken through in an unsuspected direction to create an adventure of astonishing suspense and beauty. It has moved me, for the first time in my career, personally to endorse a motion picture in an advertisement.

In *Fantastic Voyage*, the imagination of Man and the magic of the camera are linked as never before, to offer stunning proof of my cherished belief that the motion picture medium is the most potent entertainment form ever devised—limitless in its power to go wherever the mind can reach, with credibility, emotional force and drama.

I urge you to see *Fantastic Voyage* when it comes to a theatre near you, and then to write to me personally, telling me your reaction to this film which I have found so extraordinary.

**Success that started with £15—and a man's skill**

In contrast with the general unemployment of Kenya, a small factory of 17 workers added to the list of thriving and growing work units.

In one room a leather and furniture maker, Mr. Kibathi, is busy with his work. He is surrounded by his family, including his wife and children. The factory is a small, one-story building with a corrugated metal roof. The workers are busy with their work, and the atmosphere is one of industriousness.

**by ANN MARSHALL**  
 The Victorian Department, started last month in 1968 with one man in a room, has now grown to a team of 17 workers.

When Mr. Kibathi started out in his factory, he had only one room and one worker. He has since expanded to 17 workers and a team of 17 workers. The factory is now a thriving business, and Mr. Kibathi is proud of his achievement.

This was just the opportunity he needed to expand his business. He has since expanded to 17 workers and a team of 17 workers. The factory is now a thriving business, and Mr. Kibathi is proud of his achievement.

**FROM SKIN TO COAT**

Mr. Kibathi, who is a leather and furniture maker, is busy with his work. He is surrounded by his family, including his wife and children. The factory is a small, one-story building with a corrugated metal roof.

The first process of the tanning of the skins is the washing of the skins. This is done in a large tank of water. The skins are then stretched and treated with lime and other chemicals. The process is labor-intensive and requires a high level of skill.

**SUCCESS IN FLYING FOR KENYA GIRL**

**MISS Agnes Leunberger**, 20-year-old daughter of Mr. and Mrs. Siegfried Leunberger of Rumralt, has just passed her test as a chief flying instructor in Britain.

She is returning in time for the New Year Party at Burnside Club, when she will probably be surrounded by her two sisters and two brothers to take up her aviation and aviation members.

Every member of her family plays at least one instrument and several years ago the children formed a band which is now popular at evening parties.

# ARE THINKING OF GOING TO CHINA?

## SOVIET LUNAR SIDES

RUSSIAN SOVIET LUNAR sidings has been made public in a book which is being published in the U.S. and the U.S.S.R. The book is titled 'The Moon's Secret' and is written by the Soviet scientist, Leonid Breznev, in the translation of the Daily Mirror. The book is a collection of articles and is the first in a series of books on scientific subjects, it is intended for the general public.

It should be observed that the conditions mentioned for conditions in outer space is not a destructive force. The book is about the Moon, despite the fact that the book is written by a Soviet scientist, it is not intended to be a key which scientists have their investigations.

Leon 13 is the fifth Russian Moonshot during 1966. A series of moonshots have been made since the launch of Luna 9 in the beginning and Luna 13 is the end of the year. The book is written by Leonid Breznev, and the American Bureau landed on the surface of the Ocean of Storms, not a victory as at all, of course, it is a victory but it is a victory in the sense that it has been proved sufficiently hard and even to support a manned station. This is the first time the landing area for the first men to visit the Moon.

Leon 9 did not sink into the ground, or find the dust layer as deep as some astronomers had thought was the case. Developing the train of experiment, Luna 13 had been the first of the series, it had added much more information, transmitting pictures of a rocky but smooth surface, which has enabled scientists to piece together a picture of that section of the Moon's surface.

In simultaneous operation, a test run from the Mooncraft was forced into the rocky surface, while an apparatus measured the density of the rock. From this report, it appears the rock is not as hard, as it did not penetrate very deep, indicated the hardness of the rock. This branch of the exploration is expected to produce geological data which may determine how much weight the rocks can bear and could, conceivably, tell something about their origin.

Though no information is available on other points, it is believed information related to Moscow probably included details of temperature, pressure and radiation on the Moon's surface. Scientists working on lunar research must work on this information before the planners can complete arrangements to send cosmonauts on their way.

Some people may depreciate the lunar race between the U.S.S.R. and the U.S.A. but nobody can deny the weight of propaganda to be derived from winning the first Moon landing. The first Moon landing in October, 1966, achieved greater advance than has been made by the Americans. The tempo has been increased so much that the Russians may be ready to land a man on the Moon well ahead of their competitors, and possibly in time to mark the November 7 celebrating the 50th anniversary of a half-century of Soviet power and progress since the revolution.

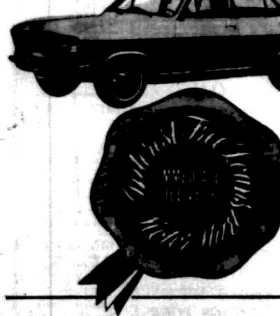

## Mao Thoughts but no birthday

CHINA'S RED GUARDS do not have everything their own way. These Mods and Boobers of Communist revolution who suppose to do not believe in hero worship and tear down the popular images of their party's pioneers, have been demanding, contrawarlike, that Chairman Mao's birthday should be celebrated as the biggest festival of the year.

All the other holidays, such as the Spring Festival, the Lunar New Year and even May Day and the National Day, they were abolished in favour of his birthday as the sole national day of rejoicing. Apparently, Chairman Mao thought his birthday should be celebrated as the biggest festival of the year.

Instead of birthday greetings, Peiking's People's Daily expurgated Mao's thoughts, as usual, and printed the eulogy 'Chairman Mao is the Red Sun' to be hearts effervescence people throughout the world.

The money was being carried in a basket by Mr. Twaha Amur Ngebo, aged 40, in a car which was waiting to take him and his father, Mr. Amur Ngebo, to the Salim Road branch of Barclays Bank about a mile away to deposit the Christmas takings from their wholesale sale tobacco business.

Mr. Ngebo was stopped at the Salim Road branch of Barclays Bank at 11.30 am, but he was about to enter the car.

He said he saw another man stand with a gun and a third holding a pistol.

When he had seen them on the bank with his gun held on the car.

"While we were standing he was grabbing me strongly but I was able to get away from him and hid in a bush near the bank.

"When I got away he was shouting 'I am a teacher and I will kill the bank and you will be the next to go.'

The bank and my father took to the car with the gun and the money.

## Help and Ambler should be in frame

RACING BY 'BROWN JACK'

THE first day of the Sydney New Year meeting of the season starts tomorrow with the Commonwealth Cup, the second event of the four-day meeting which is the highlight of the winter racing season at R.V.F. to record off-time races in the future.

I had three horses in this 7-furlong handicap and those are Ambler, Queequeg and Landing Valley. I will be able to run and Government Road is also doubtful, having received a knock in the start on last night. Both these fillies would be well favored in the normal course of a straight race.

Queequeg with 8R on firm going looks to my mind an attractive proposition. Is the Pioneer Tankard, his last race, he performed distinctly, but with the underdog condition as they were it was not surprising. Queequeg seems to be going in his previous race — and perhaps more relevant — is the fact that he finished a length behind Ambler at level weights.

### FINE PERFORMANCES

The event being the Aga Khan Diamond Jubilee over ten furlongs is just one furlong further than tomorrow's big race. At the Sydney Queensland is here 8R, better off. Ambler's victory has since been followed by a convincing win in the White Bell Challenge Cup over nine furlongs. He has won at 9R and 9R and gave a fine length and 2 1/2-length to the second, Iraq.

Ambler has been turning in some fine performances of late as a three-year-old but was second only to Valkyrie as a miler. In his last race, the Illuro Cup, Ambler put up a good performance with 8R when he made most of the running and failed by less than a length. Queequeg ran well on Ambler, but the distance was surely safe for Mrs. Vallance's horse better.

Leadingly, recent winner of the Diwaneri Gold Cup, looks a good proposition. This horse, who was second only to Valkyrie at a distance here, Landing several when he scored off-time on 8R in the Illuro Cup. He was a good runner and was handicapped to within a couple of lengths when he was beaten by Valkyrie in the Illuro Cup. He has a good record in the Illuro Cup and in the Illuro Cup.

I had a good win in the Illuro Cup. The Illuro Cup has had four of her last six races with four of them being good. She has won a stake and a length beating Grand Parade. Now to the second favorite but was 8R in the Illuro Cup.

The little airline which began at Wilson Airport, and developed into East African Airways, has graduated to becoming the operator of a Super VC10 fleet—plant jet airliners, built by the British Aircraft Corporation and powered by Rolls Royce Conway Fan jet engines. From East Africa's national airline, recent years have shown that E.A.A. has not been slow to join the ranks of the international carriers. Today you can fly by E.A.A.
