HOLIDAY CHAOS IN BRITAIN

Foreign Children Sleep In Shelters

London, July 23.—Foreign children in Britain and were posing an international headache today to British officials.

In the past week, appeals for holidaymakers to return to their own countries have been made by all foreign foreign visitors have been broadcast and embassy officials have been asked to advise parents to put up children, nearly 1,000 of whom have had to sleep in separate underground shelters.

Hot requests for this month, which the London Press credits will be made over the British, in the World Friendship Association which came in to a non-profit, non-political organization headed by a Dubliner, H. J. O'Connell, who has been invited into the organization. He has been asked to be the official spokesman for the Government Travel Bureau.

Members of the public are spending their holidays in the country, but the fact that very little is known about the children who are in the country is a cause for concern. It is not known how many children are in the country, and it is not known how many are in the country. It is not known how many are in the country, and it is not known how many are in the country.

B.B.C. Appeal

Only a few hours after the B.B.C. had broadcast its appeal for holidaymakers to return to their own countries, the British Broadcasting Corporation has issued a statement. It says that the B.B.C. is not aware of any children who are in the country, and it is not aware of any children who are in the country.
