### Rheumatic Pains

They are not only pains—but warnings, too!

It is not only the aches and twinges, the chattering, the interference with work and the pleasure that you have to bear. The rheumatic pains that come on in the joints are a warning that the disease is in the system. They are a warning that the disease is in the system. # Instantly Worth More Than Cold Analysis

(By S. BATHURST)

THE chess game is not only a test of intellect, but also a test of nerves. The player who can keep his head cool during the most critical moments of the game is the one who is most likely to win. The chess player who is able to keep his nerves steady under the most trying circumstances is the one who is most likely to win.

# The Scourge Of Malaria Should Now Be Lifted From The World

## EXIGENCIES OF WAR LED TO DISCOVERY OF PALUDRINE

By Gordon Cook

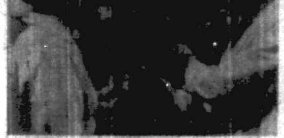

FOR as long as man has been plagued by the scourge of malaria, the disease, and its victims, have gone by the name of malarious fever.

These malarious fevers, which are caused by the parasite Plasmodium, have been a scourge to man since the dawn of time. In the tropics, where the climate is warm and the humidity is high, the disease is most prevalent. It is a disease that has caused the death of millions of men, women, and children.

The discovery of paludrine, a powerful anti-malarial drug, was a result of the exigencies of war. It was discovered by a German scientist, Dr. G. M. Doerr, in 1927. He was working on the development of a new type of anti-malarial drug for the German army.

At that time, the German army was fighting in the tropics, and the disease was a major problem. The soldiers were suffering from malaria, and the disease was spreading rapidly. The German government was looking for a new type of anti-malarial drug that would be effective against the parasite.

Dr. Doerr's discovery of paludrine was a breakthrough. It was a powerful drug that could be taken orally, and it was effective against the parasite. It was a drug that could be used in the tropics, and it was a drug that could be used by the German army.

Dr. G. M. Doerr, one of the men responsible for the purification of paludrine, takes a sample of the drug in an analytical flask.

Paludrine was the first of a new class of anti-malarial drugs. It was a powerful drug that could be taken orally, and it was effective against the parasite. It was a drug that could be used in the tropics, and it was a drug that could be used by the German army.

**NAIROBI HAILS INDEPENDENCE**

**A MIRAIBABLE prospect—a cold morning with a soaking drizzle**—did not deter the thousands of Indians who gathered in Nairobi to celebrate their country's independence.

The cheering throng could not prevent rain from clearing the air. Windy collecting at 11.30 am, the rain fell in heavy showers. It was not until about 1.30 am that the rain cleared away. The crowd grew as the sun shined brightly. The celebration was held in the Municipal Grounds, Nairobi, and was a magnificent occasion.

## EXPLOSION TRAPS 104 MINERS UNDER SEA

### Rescue Parties Bring Up 54 Dead; 50 Missing

Whitehead, September 17.—A terrible explosion in the Irish Sea today has trapped 104 miners under sea. Rescue parties have brought up 54 dead and 50 missing. The explosion occurred at the Whitehead Colliery, where a large quantity of gas had accumulated in the mine shafts. The explosion was caused by a gas leak which ignited, setting off a chain reaction that destroyed the mine shafts and trapped the miners.

## Three Miles From Pithead

Rescue parties have been working for three miles from the pithead to find the missing miners. The search is being conducted by a team of divers and a team of surface workers. The divers are using oxygen tanks and special equipment to breathe underwater. The surface workers are using divers to bring up the bodies of the missing miners.

## Three Come Out Alive

Three miners were rescued alive from the mine. They were found in a small chamber where they had taken refuge. The rescue party found them in a chamber that was about three miles from the pithead. The miners were in good health and were able to walk out of the mine. They were taken to a hospital for treatment.

## TERRORISTS APPEAL FOR UNITY—WITH A THREAT

Terrorists have issued an appeal for unity among the various groups. They threaten further violence if their demands are not met. The appeal is for all the various groups to join together and fight for their common cause. They threaten that if their demands are not met, they will continue to carry out their violent activities.

U.S. Withdraws Her Offer To Mediate
New York, August 12.—The United States has withdrawn her offer to mediate between the tea growers and the tea buyers in India. The offer was made on August 11th and was intended to bring about a settlement of the tea industry in India. However, the offer was rejected by the tea buyers and the tea growers have agreed to continue their negotiations.
