Traders Think State Control Of Industry Will Retard Growth

DISPENSING opposition to the increase of state control over the mining industry in East Africa, as embodied in Colonial Paper No. 43, has been voiced in the annual conference of the African Chambers of Commerce here.

"Delegates went further than running— they opposed nationalisation of industries as a principle because of the likelihood of retarding the East African development."

"Speaking on the wider lines of the resolution, but as a Kenya Government official," said a student of economics who was present, "the main objection would be to the extent to which the industry would be likely to operate."

'The Threat'

A direct impact was held by the fact that the industry would be likely to operate under state control. This is a threat to the industry, and it is a threat to the economy of the country.

'Going Too Far'

Mr. M. W. Stone submitted that the Government was going too far in its policy of state control. He pointed out that the industry would be likely to operate under state control, and that this would be a threat to the industry.

THIS "BRILLIANCY" PRIZE GAME BEAT MASTER MIESES

For nearly forty years Marshall has been the champion of the world and although his record in the world championship has not been so brilliant as that of the late Frank Smith, he has nevertheless won the prize many times. In the present tournament he was successful after one of those brilliant attacks for which he was so justly famous. This week we give a game in which Marshall is the victim of a formidable attack against the King's Pawn opening being the brilliant American player, the late Frank Smith.

Britain Shows World All Her New Aircraft
These Types Will Fetch In £20,000,000

FOLLOWING the Minister of Supply's recent statements that the British aircraft industry's products would bring £20,000,000 of export trade to the country this year, the Society of British Aircraft Constructors announces details of its eighth flying display and exhibition, designed primarily to show overseas buyers Great Britain's latest aircraft, engines and accessories.

Already many distinguished buyers, both private and public, have been invited to attend in person, including Ministers and many famous aviators. The Society is planning to attract 20,000 to the exhibition and to have the most distinguished aviators of all nations, including the flying display companies, to be in attendance. English, French and Spanish, this year being the first time for four days from September 12th to 15th on last year's visit.

More than 40 civil and military aircraft will be demonstrated by the "wingmen" on the airfield, including fighters, the latest biplane, the experimental D.16, and various types which are still in the secret lists of various states, propeller driven fighters, civil aircraft of every type from the latest Avro Tutor to the Avro Tutor VIII, including the new Avro Tutor VIII, and various types of gliders, including the General Aircraft Company's experimental glider, which will have wing, propeller, rudder and nose.

75 On Parade
 Since last year's display, no fewer than 77 new aircraft have been developed by the British aircraft industry and all of them will be seen for the first time in September. The exhibition will be held at the Royal Aircraft Establishment, Hendon, and will be open to the public from September 12th to 15th.

ASPRO
 Every visitor to the exhibition will find a special display of ASPRO. ASPRO is a powerful analgesic and antipyretic. It is a safe and effective remedy for all cases of rheumatism, neuralgia, headache, toothache, and all other forms of pain. ASPRO is available in packets of 4, 8 and 12 tablets. ASPRO is sold in packets of 4, 8 and 12 tablets.

Can You Do This with your toothbrush?

ONLY THE SHORT HEAD CAN DO IT

Does the bristle head of your toothbrush fit and square into that arch? No! Then it can't fit fair and square into the arch of your teeth either. But **TeK** can do it.

TeK has its full face over every curve of the arch—firm and strong out of a safety crown and soft—TeK real do-it because of the shape and size of the head. TeK real do-it because of the shape and size of the head. TeK real do-it because of the shape and size of the head.
