This "Prince Among" cars gives you a high petrol mileage per gallon without sacrifice of power. The performance of the Prefect is widely known and acknowledged, comparing favourably with that of many more powerful cars.

A run from NAIROBI to KAMPALA has been accomplished in one day without undue fatigue to driver and his three passengers. Prefect owners practically never change for any other make of car in this class thus testifying to their conviction that nothing equals it in value or performance.

The Prefect is an entirely British car, and by investing in one you combine economy with patriotism, and secure an asset which is always instantly realizable at a high price.

- A Chronicle from Scotland -

Autumn brings new life and helps to generate warmth

(Standard Edinburgh Correspondent)
HAPPY in Scotland we are busy preparing for and facing up to the winter months. To a place like Knappe life comes to a halt every year, but here at home the autumn brings with it a burst of new life. All sorts of activities, movements and energies gather from their summer slumber, refreshed and bristling with enthusiasm. Recreation, dash and vigour are again called to whatever coast or position they have embraced. In fact, life springs to the height of culture and enlightenment.

The Universities

THE Universities in Scotland are being reformed. There is a new emphasis on practical education and research, and the universities are being encouraged to work more closely with industry and commerce.

Unless you can pay 30,000 francs for the simplest morning frock

SUMMER arrived in Paris with the hot blast of a locomotive. Very welcome was the state of the chestnut trees lining the boulevards, and very pleasant too the pavements calcined as asphalt and waiting the crowd as if by magic.

With the summer came the fashion week. The fashion week is a period of about two weeks during which the designers of Paris show their latest creations to the public. The designers of Paris show their latest creations to the public.

USAMBARAS PROTEST AGAINST NEW LABOUR CONTROL SCHEME

Draft Ordinance causes 'grave concern' to farmers and small employers of labour

CRITICISM of the Tanganyika Government's proposals for a Commission for the control and recruitment of labour, and its suggested powers, which are described as a very dangerous precedent, were voiced by the members of the Usambaras, at a well attended meeting of the Association at Lambozi last night.

At a meeting of the members of the Usambaras Association held on the 27th of July at Mt. Meru, the members of the Association expressed their grave concern at the draft Ordinance which is being prepared by the Government for the control and recruitment of labour. It was stated that the Ordinance is a very dangerous precedent, and that it is a very serious matter for the Government to take such a step.

DE GAULLE TESTS HIS STRENGTH

French electors decide issue of Communism or anti-Communism

With people in over 37,000 towns and villages voted in the French municipal elections which started yesterday, they are determining for the first time the relative strength of the Communist and General de Gaulle's "Rally of the French People."
The main battle is fought on an international "Communist or anti-Communist" issue—was fought on yesterday, in the case of over 9,000 inhabitants where the election was by proportional representation.
The elections in 50,000 smaller communities have little significance as they are under the present system of majority vote with a second ballot on Sunday next in case voters do not decide on an absolute majority in yesterday's first ballot.
The vote of the poll atmosphere in Paris was strained because of the transfer of the reins of the Communist leaders to the man back to work and negotiate.
This was the first time that General de Gaulle's new party entered actively into the electoral arena, claiming to be a political party but an "umbrella" for anti-Communists of all persuasions.
All observers agree in expecting serious troubles on the material front as a result of the election.

They came to blows

SEVERAL people were injured in a riotous scene in the streets of the capital yesterday, and supporters of General de Gaulle in the Rue de Valenciennes were framed at several of the meetings.
The riotous scene broke out in the Rue de Valenciennes, a street of the capital, after the departure of the Minister of the Interior, M. Laniel, at a meeting of the "Rally of the French People" in the Rue de Valenciennes.
It is generally alleged that M. Laniel was the cause of the riotous scene, which broke out in the Rue de Valenciennes, a street of the capital, after the departure of the Minister of the Interior, M. Laniel, at a meeting of the "Rally of the French People" in the Rue de Valenciennes.

UNEXPECTED WITCH IN TARIFFS AGREEMENT?

UNEXPECTED difficulties may arise from London in the Anglo-American trade agreement on tariffs and duties.
It is now generally expected on Wednesday that the agreement will be signed.
It is understood that there has been a change of attitude in London in the matter of the agreement.
It is believed in London that the agreement will be signed on Wednesday, but there is a possibility that the agreement will be delayed.

'Britain to gain'

It is believed that the United Kingdom will gain from the Anglo-American trade agreement.
The agreement will provide for a reduction in tariffs on a wide range of goods, which will benefit the British economy.

The Power behind the Switch

A child's MEAN it; but the words slipped out! WHY am I all on edge these days? It's nothing our happy marriage!

What's the real reason our marriage is not happy?

If your sleep is broken and troubled; if you wake often and become more tired as the day goes on; if you have your dinner every third course, it is usually because your sleep is disturbed by the night.

If there's always one who's nervous and restless and you're a man of Heracles' task at bedtime, Heracles' golden armor will be your ally. It's a medicine that you take as refreshment, full of energy, soon after the happy cup of your bedtime milk to have.
