Plan for Asian Hospital Fund under discussion

SIMILAR TO EUROPEAN SCHEME

A COMMITTEE under the chairmanship of the Director of Medical Services, Dr. Farnsworth Anderson, has been considering the establishment of an Asian Hospital Fund on lines similar to the European scheme now in existence as a means of reducing the cost of treatment of Asian and Arab patients.

The committee looks out for the charges for treatment of Asian and Arab patients will not be less than £2 a day, the recovery of the fund should be sufficient to make a refund to patients of 15s a day.

The introduction of maternity benefits has not been considered.

When known Asian and Arab hospital schemes are available throughout the Colony, but at present, the number of beds available totals about 225.

250 patients

On an unoccupied basis of 30 per cent of the available beds, there will be about 250 Asian and Arab patients being treated daily on an out-patient basis—a year, 75,000 patients—a year. To make a 15-shilling refund, it is made therefore, the Fund would have to have 225 beds.

The committee supports the notion that the present contributions to the Fund should be in accordance with the income of the contributors.

Attention is drawn to the fact that the present rates are very heavy indeed on the higher income groups and the matter is being considered whether the contributions should not be based on the general taxation in the various income groups.

Income over £13 a year—21,170 Asiatics, 1,100 Arabs (total 22,270) £13 to £19 10s (total 28,180) £19 10s to £25 10s (total 22,840) £25 10s to £30 (total 15,000) £30 to £40 (total 10,000) £40 to £50 (total 5,000) £50 to £60 (total 2,000) £60 to £70 (total 1,000) £70 to £80 (total 500) £80 to £90 (total 200) £90 to £100 (total 100) £100 and over (total 50)

Contributions

One suggestion which the committee approves is to contribute as follows—

Revenue—

(a) As present tax returns—£1,100,000 (b) As present tax returns—£1,100,000 (c) As present tax returns—£1,100,000 (d) As present tax returns—£1,100,000 (e) From Government—£1,100,000 (f) From Government—£1,100,000 (g) From Government—£1,100,000 (h) From Government—£1,100,000 (i) From Government—£1,100,000 (j) From Government—£1,100,000 (k) From Government—£1,100,000 (l) From Government—£1,100,000 (m) From Government—£1,100,000 (n) From Government—£1,100,000 (o) From Government—£1,100,000 (p) From Government—£1,100,000 (q) From Government—£1,100,000 (r) From Government—£1,100,000 (s) From Government—£1,100,000 (t) From Government—£1,100,000 (u) From Government—£1,100,000 (v) From Government—£1,100,000 (w) From Government—£1,100,000 (x) From Government—£1,100,000 (y) From Government—£1,100,000 (z) From Government—£1,100,000

SURVEY BY OIL FIRM

A LEADING United States oil company is conducting a survey in Northern Kenya with a view to taking up development of the area. This is a direct result of the Government's invitation to American oil companies to survey Kenya for petroleum. A. H. Hopper, Kenya's Minister for Commerce and Industry, who is in London on his way back to East Africa.

The American company, which is so far unnamed, will make preliminary investigations of land, thought to have oil-bearing potentialities, which was recently recognised by geologists of the Economic Co-operation Administration.

Whether the Anglo-American Company or the Royal Dutch Shell group followed on the geological findings in Kenya's Northern Frontier Province and Mr. Hopper with the object of bringing their investment.

Mr. Hopper-Johnson said in London that his trip had been a great success. He has opened up channels for American capital to enter Kenya by agreement with the Overseas Operations Administration on the procedure by which it will circulate requests for capital among suitable American investors.

Already several proposals for capital have been submitted to the O.A. Office in London, which has been instructed to begin circulating proposals to suitable American investors.

Mr. Hopper-Johnson said that the O.A. Office in London has been instructed to begin circulating proposals to suitable American investors.

Mr. A. M. Wilson, a Member of the East African Legislative Assembly of Kenya, is seen here with his family. Mrs. Wilson is seated in the foreground, and several children are standing around her. The photograph was taken in their home in Nairobi.

'SABOTAGE' OF ASIAN CALL-UP

Campaign by Mau Mau sympathisers alleged

DR. S. G. HASSAM, Director of Asian Manpower, said in an interview on Saturday that he was surprised to find that certain elements of two major communities were indulging in deliberate propaganda campaigns to sabotage the call-up of Asians in Meru.

He said that he had received information from the British High Commission in Nairobi that the call-up of Asians in Meru was being sabotaged by certain elements of the Indian and African communities.

Israel-Jordan border clash

U.N. MEETING CALLED

BRITAIN, France and the United States have officially requested an urgent meeting of the United Nations Security Council to consider the Israel-Jordan border incidents. The meeting will probably take place today.

A Foreign Office spokesman said in London that Britain took a most serious view of a report that Israeli forces attacked three villages in Jordan, inflicting considerable casualties.

THRILLS WERE FEW IN JOHN BOYES CUP FINAL

R.A.F. beat under-strength Army

R.A.F. (Eastleigh), who were beaten in last year's John Boyes Cup by the Army, won the trophy from the holders in the year's final at the Services ground on Saturday, winning by three clear goals. As a cup final the game was lacking in thrills and excitement, and a veritable gift goal in the almost last second half, followed by the loss of centre-half Warren through injury, put paid to Army hopes of retaining the Cup.

White Bell and Dry, on the wing for Army, were brilliant. The lances lacked the punch in the forward line that they showed in the first half, but they were well supported by the rest of the team.

A first timer.

The sixteen players in the eleven that took them through the first round, but it was not until the 20th minute that they obtained any result.

Then Kelly slipped a pass to Thompson, who in turn, steadily down the right, and, in the 25th minute, kicked the ball well past North's 3 feet.

Four minutes later Stanley was set in the face by a defender and was out for the interval.

With the intention of getting another goal in the early minutes of the second half, R.A.F. stepped an all-out attack, but were handed a goal by a gift. A free kick was given against Army for a dangerous throw of ball. The captain, White Bell, took the kick, and it was headed into the goal by Cusick, who, without hesitation, stepped it straight into an empty net.

Army for a while made desperate efforts to pull the game level, but they were unable to do so. In the 45th minute, Stanley, who had been injured through the first half, was back in the team, but he was unable to do much good.

The Cup and its contents were presented by Mr. John Boyes, one of the donor.

PROSPERITY -GOVERNOR

New session of Kenya Legislature DEVELOPMENT PLANS

THE Governor of Kenya, Sir Evelyn Baring, in his address to the Kenya Legislative Council yesterday declared that relations between the various peoples of the Colony would improve still further as a climate of economic development, in which the primary need was a sense of security. Prosperity and security go together, he asserted.

Plans were already well advanced for African agricultural development. The timing and extent of their implementation would depend on the general financial position and prospects of the Colony, which would become clearer after discussions with the Member for Finance was shortly to be held in London.

The military campaign, Sir Evelyn assured the Council, would be pressed in conclusion. Mau Mau was doomed, but, if a similar situation should arise in the future — and every step will be taken to prevent this — troops would be sent back to Kenya immediately.

To prevent a recurrence of Mau Mau, or any other form of racial violence, the firm and most important force would be the maintenance of an increased police presence.

A Bill would shortly be introduced providing for the settlement of land held in the Kikuyu Land Unit by convicted Mau Mau directors and known gang leaders. In the future, the Government would be prepared to take any steps necessary to ensure that the Mau Mau problem was solved.

It is important to stress that the Government is not prepared to give any form of special treatment to Mau Mau leaders. The Government is prepared to deal with any Mau Mau leader who is found guilty of a crime in the ordinary course of law.

PRIVY COUNCIL DECISION

JOMO KENYATTA and five other Africans sentenced to hard labour terms on charges of managing the Mau Mau terrorist society were yesterday informed that they had lost their appeal against the ruling of the Court of Appeal for Eastern Africa that they were legally tried and convicted. POPULATION DOUBLED

Kenya's population has doubled in the last 20 years, according to a report by the Kenya Government.

The report states that the population of Kenya was 2 million in 1930 and has now reached 4 million.

The rapid increase in population is due to a combination of factors, including a high birth rate and a decline in the death rate.

The Government is concerned about the impact of population growth on the economy and social services.

WOMEN WITH HOME IS THE MGNATE

It is a fact that women are the backbone of the home. They are the ones who make the home a comfortable and pleasant place to live in. They are the ones who take care of the children, and who make the husband's life a happy one. Without women, the home would be a cold and empty place.

It is a fact that women are also the backbone of the nation. They are the ones who work in the factories and offices, and who support the family. They are the ones who pay the bills, and who make the family a happy one. Without women, the nation would be a cold and empty place.

- 1. Full-width combine. All parts extend the full width of the machine. The 4-bar-400-type cylinder is 64 inches long and 14 inches in diameter.
- 2. Straight-through operation. The crop flow is direct and is a straight line through the machine. There are no turns or bottlenecks to cause clogging.
- 3. Balanced flow. All parts of the No. 64 are matched in capacity and performance. You get no bottlenecks or over-crowding of the crop at any point.
- 4. Positive separation. The No. 64 gives you a small separating capacity at low angles of layer feed, with excellent cleaning of the seed under a continuous run.
