# the tyre with a reserve

when you really need that extra grip

That's the Firestone DUAL PURPOSE—the tyre that has a reserve of traction to see you safely over muddy, sticky going.

On good roads the conventional centre tread only is operative, but immediately you encounter muddy conditions the deep non-clogging shoulder bars automatically come into action, give you that extra deep life—and you quickly, safely through.

Firestone DUAL PURPOSE runs when you're moving, cuts you these splintering, costly hours that are wasted when you slip up, spin and stop suddenly.

With Firestone DUAL PURPOSE on your car or truck it safer—far easier to control—and you get more eye mileage because

# Firestone

are consistently good tyres!
