

EMERGE IN S. RHODESIA

MIDNIGHT ARRESTS

Nyasaland rioters cut road to north AIRFIELD BLOCKED

SOUTHERN RHODESIA declared a state of emergency yesterday. At the same time, four African congresses operating throughout the Federation were proscribed in the Colony and their office-bearers arrested in a midnight sweep.

The Prime Minister, Sir Edgar Whitehead, said in a radio broadcast that these steps had been taken because of the situation in Nyasaland and the possibility of a similar grave situation occurring in Southern Rhodesia.

Latest reports from Salisbury said it was generally agreed that some 2000 to 3000 men had been sent from the Northern Province to the north of the Zambezi River in the hands of a Rhodesian unit. The Commander of the unit, Lt. Col. G. M. G. Smith, has also been taken away by helicopter.

Questions in House

At the moment the Federal Government cannot give satisfaction to the provinces because the only surplus available is being used by Dakota aircraft-Fort Hill, which has been used to transport more than 5000 miles by a road almost impassable in the rainy season.

Because of the unsteady conditions in Nyasaland, the Minister of State for the Colonies, Lord Perth, has postponed his visit to the territory. He was to have left by the end of the month. A spokesman of the Colonial Office said Africa at the end of next week.

John Amey, the Colonial Under-Secretary, Mr. Amey, was questioned by Labour M.P.s on the situation in Nyasaland. He denied an allegation by Mr. Amey that the Government was producing confidential informants.

FAMILY LEAVES AS PRECAUTION

A Nyasaland planter's wife has taken her two children to the north of the Zambezi River to escape the violence of the situation in Nyasaland.

The wife of Mrs. James Oliver, who has a son and a daughter, is reported to have fled from her home in Nyasaland with her two children and a dog. She is reported to have fled from her home in Nyasaland with her two children and a dog.

MAKARIOS GOING HOME TOMORROW

Mr. Makarios, the Cypriot leader, is expected to return to his home in Nicosia tomorrow.

Cyprus: Cut in garrison

The British Government has announced a reduction in the number of troops in Cyprus.

The Queen's Own Rifles, sent by the Chairman of the Rhodesian Council, are seen in the foreground of the photograph. The background shows the aftermath of a riot in Salisbury, Rhodesia, with smoke and debris visible.

LEADERS MEET AFTER 'TOUGH' SOVIET SPEECH

Western disappointment

MR. MACMILLAN and Mr. Khrushchev yesterday had further talks in the Kremlin but the British Prime Minister left by air for a two-day tour of Kiev and Leningrad.

But the two leaders were believed to have discussed the Soviet Union's announcement of a large policy shift in the West as a result of the speech.

Mr. Macmillan said that he had a "very frank" conversation with Khrushchev and that the two leaders had discussed the situation in the West as a result of the speech.

PRINCESS ARTHUR DIES AT 67

THE death of an outstanding English statesman, the Prince Arthur, was announced yesterday.

The Prince, who was 67 years old, died of a heart attack while on a visit to the Soviet Union.

DISURBANCES IN AFRICA AFFECT STOCKS

Prices generally firm
 Central States (E.A.) Ltd.

37 hours
BOSS has again made the headlines in the world of finance with the announcement that it will be the first African company to be listed on the London Stock Exchange. The company, which is a subsidiary of the Anglo-Siam Corporation, is a leading manufacturer of motor vehicles and has a production capacity of 10,000 units per annum. The company's shares were listed on the London Stock Exchange on February 17, 1956, at a price of 100/-.

SEARCHED BY ASIC

ASIC has searched the accounts of the Anglo-Siam Corporation for the year ended 31st December 1955. The accounts have been found to be satisfactory and the company has been recommended for listing on the London Stock Exchange.

SHIPPING NEWS FROM MOMBASA
 The Mombasa Shipping Office has received the following news from the shipping companies: The Mombasa Steamship Co. is scheduled to sail for London on February 25, 1956. The East African Steamship Co. is scheduled to sail for Zanzibar on February 26, 1956.

PRICES ON THE RAND MARKET

January 1956
 The Rand market has shown a steady decline in prices since the beginning of the year. The price of gold has fallen from 150/- to 140/-, and the price of silver has fallen from 10/- to 8/-.

COFFEE IN DEMAND AT KARUMBA

The coffee market in Karumba has shown a strong demand for high quality coffee. The price of coffee has risen from 10/- to 12/-, and the price of sugar has risen from 8/- to 10/-.

RAILWAY ROOPS

The railway roops have been found to be satisfactory and the company has been recommended for listing on the London Stock Exchange. The roops are made of high quality steel and are suitable for use in all climates.

NAIROBI STOCKS MORE ACTIVE

NAIROBI Stock Exchange was slightly more active and the majority of prices changed very slightly.

Every motorist should know the facts about MOLYSPEED
Molyspeed is not a substitute for the high grade motor oils at present marketed by your service station. It is not even an oil additive in the accepted sense.
It is a supremely efficient lubricant, based on the solid Molybdenum Di sulphide, suspended in premium SAE 30 oil. Added to the oil in your tank, it forms a thick, slippery, virtually indestructible protective film which remains effective under conditions when your oil is either out of circulation (e.g. when starting) or rendered inefficient due to temperature or pressure (e.g. when running hard).
The development of Molyspeed has been no overnight affair. It is no "miracle" discovery. It is the result of years of patient, cautious investigation into the properties of Molybdenum Di sulphide and their application to various lubrication problems.
The testing is now complete and Rocol Ltd. are marketing Molyspeed as well as a complete range of oils, greases and pastes for automobile lubrication and for industrial purposes.
We invite you to investigate the properties of Molyspeed for yourself. A can costs Shs. 13.50 and is used to treat a normal crankcase. Do not replenish until your second oil-change thereafter. Molyspeed stays on the job long after it has been drained off!

SEE HOW KENYA'S GRASSES GROW

Your of desert areas

APPROXIMATELY
Lt. Col. E. Hutchison
September 5 fixed by Nairobi Show Dept.
All the grass seed in Kenya is produced in the British East Africa Protectorate. The area is a vast one, covering some 1,000,000 acres. The grasses are grown in the highlands, where the rainfall is high and the soil is fertile. The grasses are then dried and stored for export to other parts of the world. The Kenya Show Dept. is responsible for the production and export of the grasses.

WEEK-END STANDS FOSSILS AND FOLKLORE PROVIDE CLUES TO THE PAST IN UGANDA

As you travel around the countryside looking for signs of the past, whether on the surface of the ground, in caves or beneath the soil, I am often asked by the people I meet what it is that I am doing and why I waste my time looking for objects which seemingly can be of no practical use.

There are reasonable queries for in these days of rapid progress which we are asked to overlook the past, forgetting too quickly the tales told by their fathers or grandfathers. It may be said: "Why worry about the past when you can look to the future?" And for a person who wishes to know what the minds of their countrymen there is invariably a vast amount of information to be gained.

There are many reasonable queries for in these days of rapid progress which we are asked to overlook the past, forgetting too quickly the tales told by their fathers or grandfathers. It may be said: "Why worry about the past when you can look to the future?" And for a person who wishes to know what the minds of their countrymen there is invariably a vast amount of information to be gained.

There are many reasonable queries for in these days of rapid progress which we are asked to overlook the past, forgetting too quickly the tales told by their fathers or grandfathers. It may be said: "Why worry about the past when you can look to the future?" And for a person who wishes to know what the minds of their countrymen there is invariably a vast amount of information to be gained.

WEEK-END TASK

The first task is to find out what is the history of the country. This is done by looking at the ruins of old buildings, the remains of old roads, and the remains of old settlements.

The second task is to find out what is the folklore of the country. This is done by looking at the stories, songs, and dances of the people.

The third task is to find out what is the archaeology of the country. This is done by looking at the remains of old buildings, the remains of old roads, and the remains of old settlements.

The fourth task is to find out what is the geology of the country. This is done by looking at the rocks, the fossils, and the remains of old settlements.

The fifth task is to find out what is the anthropology of the country. This is done by looking at the people, their customs, and their beliefs.

The sixth task is to find out what is the history of the country. This is done by looking at the ruins of old buildings, the remains of old roads, and the remains of old settlements.

The seventh task is to find out what is the folklore of the country. This is done by looking at the stories, songs, and dances of the people.

The eighth task is to find out what is the archaeology of the country. This is done by looking at the remains of old buildings, the remains of old roads, and the remains of old settlements.

The ninth task is to find out what is the geology of the country. This is done by looking at the rocks, the fossils, and the remains of old settlements.

The tenth task is to find out what is the anthropology of the country. This is done by looking at the people, their customs, and their beliefs.

The eleventh task is to find out what is the history of the country. This is done by looking at the ruins of old buildings, the remains of old roads, and the remains of old settlements.

like this? Have you got a sore today? It isn't just a pain of course.

or this? Safe for children. Of course you're sensible about children's little ailments.

or this? 'Agrip' helps you function! When you're busy, it's a relief to be able to do more.

LONDON ACCEPTS RETURN TO NATURAL SILHOUETTE

By JEAN GRAHAM

PARIS has decided and London has agreed that they will reverts to nature. They that have been imprisoned during the last two years and who have been obliged to wear the atrocious, grotesque, and unbecoming silhouettes of the last few years.

It is not only the designers who have been busy, but also the models. They have been busy with their work, and they have been busy with their work, and they have been busy with their work.

Maybe the variations are exaggerated, but I am sure they are not too far from the mark.

SWATHED SHEERS This formula denotes slimmest, for although the swathed sheers are not as tight as they once were, they are still very slim.

FALL IN STEP This formula denotes a variety of styles, but they are all very slim and they are all very slim.

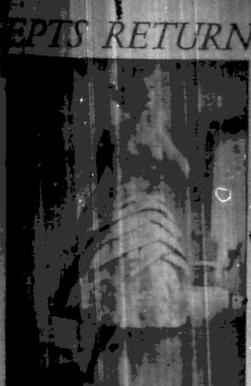

CLEVER CUTTING Perhaps, too, they thought they were compensating for this by shifting the emphasis to shorter, looser fits.

LOOK out for the Robert Fur Coat looks—it is predicted that it will be a better seller this year.

REAL SILK Most real silk dresses that we have seen for years are expected, and watch out for the real silk dresses.

Clean & Sparkling

Why take the edge off your appetite by serving up perfectly cooked food on dishes which have that film but tasteless film of scale dulling their surface and dulling their general appearance?

Without extra cost, without extra work the twin virtues of hygiene and pleasing appearance can be obtained by washing up with Houseman's Detergent.

In a solution of 3 ounces of H.D. to 1 gallon of hot water, all dirt, grease and stains simply dissolve and the next use you sparkling tableware that looks and is... sterilized.

STAY EAST AFRICA TERMS

New provisions for Kenya civil servants' long vacation

STAY EAST AFRICA TERMS

Inducements announced by Minister

OFFICERS of the Kenya Government entitled to overseas leave are to be encouraged to spend their long vacations in East Africa. This was announced yesterday by the Minister for Tourism, Mr. Crosskill.

In addition to a special housing allowance, free travel by rail and steamer will be provided to any specified destination in East Africa, including Zanzibar. The allowance will be based on an officer's normal housing allowance, less a deduction for rent element.

In the past a civil servant wishing to spend his long leave in East Africa has been permitted to go at his own expense to the production of a satisfactory medical certificate and the sanction of his departmental head. But he had to give up his Government quarters.

Allocation for transport

The new allowance will compensate him for this. It is a privately owned vehicle to use for the holiday journey the officer will be able to claim only if the amount he would have received had he travelled by road or steamer.

A Government spokesman said the new provisions did not include a special allowance for the transport of a small proportion of Government servants had chosen to take long leave in East Africa in the past.

Similar long leave provisions have not been offered to civil servants of other departments. Uganda officers could spend their long leave in South Africa if they wish to do so, he said.

Mr. E. Johnson, a Government officer of the Kenya Transport and Services Administration, said that the new provisions would be applied to officers who had spent their long leave in East Africa in the past.

Reasons for M.P.'s trip

MR. J. STONEHOUSE visited the Central African Federation yesterday to see the Prime Minister and other officials. He is on his way back to the United Kingdom.

Mr. Stonehouse, a Member of Parliament, visited the Central African Federation yesterday to see the Prime Minister and other officials. He is on his way back to the United Kingdom.

Mr. Stonehouse, a Member of Parliament, visited the Central African Federation yesterday to see the Prime Minister and other officials. He is on his way back to the United Kingdom.

CYPRUS LEADERS AGREE ON PLAN

New control over HIGH FOOT

Leaders of the Greek Cypriot and Turkish Cypriot communities have agreed on a plan for the control of the High Foot, a mountainous area in the north of Cyprus.

The plan provides for the appointment of a High Commissioner to oversee the area. The Greek Cypriot community will be responsible for the control of the area, while the Turkish Cypriot community will be responsible for the control of the area.

Somalis at polls under guard

By a "Special" Staff Reporter, who returned by air to Nairobi.

ELECTIONS in the new Somali Republic were held in a tense atmosphere in Mogadishu on Wednesday, with armed guards at the polling stations and some shooting and sniping during the day.

The elections were held in the presence of British and Indian troops, and the results were announced on Friday.

Hearing of cheap fares delayed

The hearing of the application by three airlines to run cheap services between East Africa and Britain has been postponed from March 16 to a date in mid-April.

The Director of Civil Aviation in East Africa said that the government would give consideration to the proposals, but that it would not be possible to give a final decision until after the end of the year.

Members for U.K.

CONSTITUTION plan

The plan for the constitution of the new states in East Africa is being discussed by the United Kingdom government.

The plan provides for the appointment of a High Commissioner to oversee the area. The Greek Cypriot community will be responsible for the control of the area, while the Turkish Cypriot community will be responsible for the control of the area.

Professions Bill

The Government has introduced a Bill to regulate the professions in East Africa.

The Bill provides for the appointment of a High Commissioner to oversee the area. The Greek Cypriot community will be responsible for the control of the area, while the Turkish Cypriot community will be responsible for the control of the area.

**WHAT WOMEN
REALLY WANT**

Do you know what
the most important thing
a woman wants? It's not
money, it's not a diamond
ring, it's not a fur coat.
It's a husband who
loves her, who respects
her, who makes her
feel that she is
valued and appreciated.
That's what women
really want.

When it comes to
your vacation...
a good friend is a British
man. You know he'll be
there to help you in every
way possible. He'll make
your vacation so enjoyable
that you'll want to come
back every year.

VICTOR BRITAIN
The most important thing
a woman wants is a
husband who loves her.
That's what women
really want.

**INTERNATIONAL AIR
SAFETY STANDARDS**

Your correspondent, "A. B.", apparently has the mistaken impression that the International Air Safety Standards are a set of rules that apply to all airlines. In fact, they are a set of standards that apply to airlines that are members of the International Civil Aviation Organization (ICAO).

The ICAO standards are a set of minimum standards that airlines must meet in order to be able to fly internationally. They cover a wide range of subjects, including aircraft design, maintenance, crew requirements, and passenger safety.

It is important to note that the ICAO standards are not a set of rules that airlines must follow. They are a set of standards that airlines must meet in order to be able to fly internationally. Airlines that do not meet these standards are not allowed to fly internationally.

The King's Men

By G. A. WALTON
The King's Men have been a force to be reckoned with in the world of politics for many years. They have been instrumental in the rise and fall of many governments.

The King's Men are a group of men who are dedicated to the service of their king. They are a group of men who are loyal and brave. They are a group of men who are the backbone of the monarchy.

LETTERS TO THE EDITOR

**Kenya is
Ideal for
star-gazing**

It is interesting to read that your correspondent, "A. B.", has written that Kenya is an ideal place for star-gazing. This is a very interesting claim, and it is worth looking into.

Kenya is a country that is known for its beautiful scenery and its rich culture. It is a country that is also known for its clear skies, which are ideal for star-gazing.

**Improving the sales for processed
pork**

It is interesting to read that your correspondent, "A. B.", has written that the sales for processed pork are low. This is a very interesting claim, and it is worth looking into.

The sales for processed pork are low because of a number of factors. One of the main factors is the high cost of production. Another factor is the competition from other types of meat.

When the animals worked

By ROMANA WRIGHT

THEY were all African. There had always been a lot of hard work to be done there long ago. Long ago the wild animals were the workers.

They were the giraffe and the zebra, the lion and the leopard, the eagle and the hawk, the crocodile and the snake. They were all the people of the savanna. They were all the people of the savanna. They were all the people of the savanna.

In the morning all the heavy work was done. The giraffe and the zebra were the main workers. They were the main workers. They were the main workers.

One reason why we should have more animals is that they can do a lot of work. They can do a lot of work. They can do a lot of work.

A VARIETY OF MEETINGS IN TWO GREAT EXHIBITIONS

THE variety of meetings in the two great exhibitions is being held in the Metropolitan Exhibition Building and the Royal Albert Hall.

The Metropolitan Exhibition Building is the largest exhibition space in the world, and the Royal Albert Hall is one of the most famous buildings in London. Together, they provide a unique setting for a wide variety of events.

Broodland land

A LECTURE on the subject of 'Broodland Land' was given by Mr. J. H. G. Smith at the Metropolitan Exhibition Building.

Smith discussed the importance of land management and the challenges faced by farmers and landowners. He highlighted the need for sustainable practices and the role of government in supporting the agricultural sector.

YOUTH CLUB

A YOUTH CLUB was held at the Metropolitan Exhibition Building, featuring a variety of activities and games.

The club provided a fun and engaging environment for young people, with a focus on physical fitness and team building. It was a great opportunity for them to meet new friends and enjoy some downtime.

Author says Third War already declared

By PETER HADFIELD

THE Third World War is already declared, says Peter Hadfield, author of the new book, "The Third World War". It is not an exaggeration, he says, to say that the world is now in a state of "cold war" which is the prelude to a "hot war". He says that the world is now in a state of "cold war" which is the prelude to a "hot war". He says that the world is now in a state of "cold war" which is the prelude to a "hot war".

OUTCRY THAT END OF LEADING TEST PLAYER

By JAMES PEACE

A **MILY HITTER** becomes the new king of Glamorgan. That news about the arrival of January 30, 1935. Yet England on that fateful day public attention was captured by a four-page, 10-column headline, "Australia Sends Secret Cable to M.C.C."

The news aroused highland anxiety. For, as everyone knew, such a cable would mean the end of Test cricket between England and the most cricket power. Such a dispute had been raging for months over England's loss of the Test series in 1932-33.

The Australian Board of Control had announced in the M.C.C. in reply to the demands of England's new Board of Control that Australia would not play Test cricket unless the M.C.C. agreed to certain conditions.

FEATURING SPORT

The new reality faced an "outcry" that England had "broken" the "body-line" phrase. This outcry, however, was not a protest against the M.C.C. but a protest against the "body-line" itself. The M.C.C. had decided to allow the "body-line" to continue, but with certain restrictions. The M.C.C. had decided to allow the "body-line" to continue, but with certain restrictions. The M.C.C. had decided to allow the "body-line" to continue, but with certain restrictions.

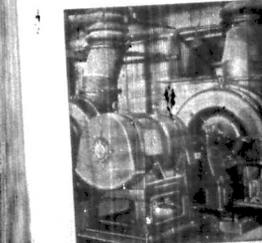

FANTASTIC PACE
The Test he was playing was a fantastic pace. The Test he was playing was a fantastic pace. The Test he was playing was a fantastic pace. The Test he was playing was a fantastic pace.

'Body-line' phrase unfortunately obscured the important issue

Many people have been misled by the "body-line" phrase. The important issue is not the "body-line" but the "body-line" itself. The M.C.C. has decided to allow the "body-line" to continue, but with certain restrictions. The M.C.C. has decided to allow the "body-line" to continue, but with certain restrictions.

The "body-line" phrase has been used to describe a type of cricket. The "body-line" phrase has been used to describe a type of cricket. The "body-line" phrase has been used to describe a type of cricket.

THE GRIP
The grip is an important part of table tennis. The grip is an important part of table tennis. The grip is an important part of table tennis.

FULL SEASON ON TURF

THE 1958 season on the turf has been a most successful one for the British racing industry. It has been a season of record-breaking performances, both on the track and in the betting ring. The success has been due to a combination of factors, including the high quality of the horses, the skill of the trainers, and the enthusiasm of the racing public.

One of the most notable achievements of the season was the victory of *Secretariat* in the Kentucky Derby, which set a new world record for the race. This was a triumph for the United States, but it also reflected the high level of breeding and training that has been achieved in the industry as a whole.

The success of the season has also been reflected in the betting ring, where record-breaking sums of money have been wagered on the races. This has been a testament to the popularity of the sport and the confidence of the public in the racing industry.

COMMENTARY by Charles Disney

NEW DEPARTURES

MUCH work has been done in the last few weeks on the new departures from the racing industry. The changes are designed to improve the efficiency of the industry and to provide a better service to the racing public.

One of the most significant changes is the introduction of a new system of licensing for trainers and jockeys. This system is designed to ensure that only the most qualified individuals are allowed to participate in the industry.

Another important change is the introduction of a new system of prize money distribution. This system is designed to ensure that the winners of the races receive a fair share of the prize money.

The changes are expected to have a positive impact on the racing industry and to provide a better service to the racing public.

REVERTING TO THE ORIGINAL

THE original intention of the racing industry was to provide a fair and honest competition for the horses. This intention has been largely forgotten in the modern era, where the focus is on the money rather than the sport.

It is time to revert to the original intention of the industry and to focus on the quality of the horses and the skill of the trainers. This will ensure that the racing industry remains a fair and honest competition for all.

East African talks interrupted: Report for U.K. Government

LORD PERTH IN NYASALAND

Banning of Congress by N. Rhodesia

U.S. pins faith on air power

LORD PERTH was due to arrive in Nyasaland yesterday at the start of a visit to the Central African Federations. He is expected to visit Tanganyika to fly to Nyasaland at the request of the Colonial Secretary, Mr. Lennox-Boyd.

The Colonial Office announced that the Minister of State for Colonial Affairs would spend several days in Nyasaland and will also visit Salisbury before returning to report to his colleagues in London.

It would not at this stage be able to undertake formal discussions regarding Constitutional changes in Nyasaland, but one of the purposes of his visit would be to look into the question of when it would be possible to take the matter up again.

'Subversion and sedition'

It was learned in Nairobi yesterday that Lord Perth was declining his invitation to visit East Africa after reporting to his colleagues in Britain on November 17.

In Lusaka, Northern Rhodesia, it is also reported that leaders of the Zambia African National Congress in Northern Rhodesia had been arrested and the Zambia Congress is an organized political group which broke away from the Northern Rhodesia African National Congress.

The Governor Sir Arthur Benson said that he had taken steps to prevent a meeting of the Zambia African National Congress which was being organized in Lusaka. He said that he had taken steps to prevent a meeting of the Zambia African National Congress which was being organized in Lusaka.

CONFERENCE AT ACCRA

Referring to last year's Accra conference, he said that the Government had decided to hold a similar conference in the future to discuss their political views.

But after a day and a half, it is felt that if they found it difficult to achieve their ends, they would have to consider other means of achieving their ends.

When the death toll was reported it was said to be 200. The incident was reported to the Government and the Government is conducting an inquiry into the matter.

PLAN FOR TAKE-OVER OF TWO HOSPITALS

Aberdare Council to consider proposal

A SUBSTANTIAL reduction in charges is being planned for the take-over of the St. James and St. George's hospitals, according to a proposal put forward by the Aberdare Council.

The proposal, which is being considered by the Council, provides for the management of the two hospitals to be handed over to the Council.

The plan would involve the closure of the St. James hospital, which is situated in the centre of the town, and the St. George's hospital, which is situated in the suburbs.

INCREASE IN CASH CROPS AT KITUU

PRODUCTION of Kituu's main cash crops, maize and tobacco, increased a further 10 per cent in the 1948/49 season, according to a report by the District Commissioner, Mr. J. H. Mackay.

The increase is attributed to the use of improved seeds and fertilizers, and to the better management of the crops.

Cash awards

The district of Kituu was reflected in the fact that the Government awarded a cash award of £1,000 to the district for the year 1947/48.

The award was made in recognition of the district's success in producing a record crop of maize in 1947/48.

More British aid needed by Seychelles

BRITAIN must do more to help the Seychelles, according to a report from the Seychelles Chamber of Commerce.

The Chamber has requested that the British Government should provide more financial aid to the Seychelles to help it to develop its economy.

Developmental schemes

The Government has announced a number of developmental schemes for the district of Kituu.

The schemes include the construction of a new road, the improvement of the water supply, and the provision of agricultural machinery.

OF NYANZA SOIL H.Q.

Minister may slow closure

DURING his visit to Kenya, Mr. Hannington, the Minister for Lands and Survey, there was any talk of the closure of the Nyanza Soil Headquarters.

Mr. Hannington said during his visit to the Nyanza Soil Headquarters, that the closure of the Nyanza Soil Headquarters is not a matter of Government policy.

He said that the closure of the Nyanza Soil Headquarters is a matter of Government policy, and that the Government is not in a hurry to close it.

THRILLER STAGED AT ARUSHA

"Banders" Conspired.

PH their 21 years existence, Philip Mackay's thriller, "The Windy Tree," has been considered one of the best of more than 40 productions by the Arusha Arts Society.

The play is in the hands of a group of amateur actors, who are working hard to produce a play of this quality in the hands of the Nyanza Soil Headquarters.

The play is a thriller, and it is a play that is well worth seeing.

UNINVITED GUEST AT SAFARI CAMP GETS A DUCKING

"Banders" Conspired.

AN adult wilderness, an uninvited visitor to the camp of the Game Park, Warren in West Sengwe, when he was not asked, with his wife recently on the Upper Duma. One evening at about nine o'clock the animal refused to withdraw the fence of their dinner table. The warden shouted at it, and it retreated into the darkness.

The warden then, however, was another chance of seeing a wild animal, and he called out to the warden to catch it. The warden then called out to the warden to catch it. The warden then called out to the warden to catch it.

SELF-HELP SPREADS IN NANDI

"Banders" Conspired.

AFTER hearing of the success of self-help in other parts of Kenya, and with community development workers in Nandi, a small self-help group of 10 men has been formed.

The group is now working on a project to improve the living conditions of the people in the area.

The group is now working on a project to improve the living conditions of the people in the area.

Woman's role

"Banders" Conspired.

Natal women also joined the fight against the spread of malaria, by the use of different methods to destroy the mosquito.

The women are now working on a project to improve the living conditions of the people in the area.

ROTHMANS CIGARETTES: GREAT INTERNATIONAL ENTERPRISE

By tradition the cigarette industry was always regarded as one of the most conservative and unchanging, but the enterprise of one of the greatest industrial groups in the Commonwealth, has changed the smoking habits of millions of people throughout the world.

The growth first

Over 700 years ago when London was a small town, the first King Size Filter cigarette was made. This was the first King Size Filter cigarette in 1885 and since the King Size had swept through America, New Zealand, South Africa and Canada.

In Australia

Early in 1937 Rothmans of Pall Mall first introduced their King Size Filter cigarette to the Australian market. Today, just two years later, they see one of the major cigarette manufacturers in the country with one of the two largest factories and which will over 25 per cent of the main cigarette market.

Longest sticks

This is believed to be a greater distinction than which any other cigarette manufacturer has ever distinguished.

4th type of machinery by all

The method of expert machinery of Great Britain for America, with not unknown to the British cigarette manufacturer, but last year they used 4th type of smoking machinery, together with accessories, to the same destination. It was this latter machinery which had enabled Rothmans to launch King Size Filters in time for the tobacco season in Australia.

Due to the efficient utilization of long Australian and the introduction of up-to-date machinery, the rate of production rose to more than 2,000,000 a year since 1937.

The rising export from other cigarette to King Size Filters has been limited and increased only one year ago 3 per cent of Australian manufactured cigarettes were King Size, today this figure has increased to over 10 per cent.

Rothmans' share in the market has been the leading factor in the rising to King Size

Filter cigarette. Production of

Rothmans cigarettes is double that of a year ago and Rothmans' original target figure has been achieved by using the present.

Round the clock

In Canada a similar story is to be heard. Late in 1937 Rothmans launched their first King Size Filters on that market. While plans for the King Size factory in Ontario were made, other cigarette were produced from England to the Canadian public to know an extra week the best of the world.

The new factory which was opened recently is already operating on an 11-hourly basis and is covering a demand for 2,000,000 cigarettes a day.

9 out of 10

This figure is increasing by an extra 10,000,000 every year between October, 1937.

and Ontario, 1938, some of

Rothmans King Size Filters are sold in 1938.

In SOUTH AFRICA, where Rothmans' King Size Filter cigarette, Rothmans' Company has been successful in more than half the total sales of cigarettes.

In BRITAIN Rothmans King Size Filter cigarette, 1937, have secured high sales the last year and continue to show a steady increase in sales and a rise in King Size, suggesting a growing market.

Exported to

Rothmans King Size Filter cigarette is exported to many countries in the world, including the United States, Canada, New Zealand, Australia, and South Africa.

They gave America a new word

What long-proved research has done for the cigarette industry filter cigarette are a tribute to the tobacco filter.

Further, the 1000 Rothmans Filter cigarette Group were first in the filter with King Size cigarette. They also made the first King Size Filter cigarette in the world.

They have now also recently introduced to the United States an extra long filter with King Size cigarette.

Old-fashioned "Famous" "Old" of this world, and "Old-fashioned" new type of the cigarette industry are a tribute to the tobacco filter.

Everything is King Size. There is no other cigarette in the world.

EK END STANDARD

SEVEN MEN IN 'A CUTTER SAIL AWAY TO PEMBA

JOHN BRYER reports on the "Outward Bound" type of training adopted by the Royal East African Navy to make its sailors resourceful and self-reliant. The programme is by **DUNCAN WHITFIELD**.

THE British Royal Navy runs the Royal East African Navy because it teaches their 200 African sailors to be resourceful, to fend for themselves and to be ready for any emergency.

They have sent their own 400 open boats to nearby unpopulated creeks and bays across strange channels, and told them to find their way by back. The sailors have returned safely and proved they can cope with out-of-routine reactions.

Recently this "Outward Bound" type of training has exceeded by far in much more ambitious and difficult conditions.

The following account of a 70-mile cruise, voyage from Mombasa to Pemba, led by the "Outward Bound" type of training was given to me by the officers of the "Outward Bound" type of training. They have had the same experience as the others.

PROBING START

Out into the isolated Kilindini Channel of Mombasa we went and a "Outward Bound" type of training was given to me by the officers of the "Outward Bound" type of training. They have had the same experience as the others.

MORAL ISSUE EXPLORED IN SEA DRAMA

THE new selection of films in Nairobi offers somewhat limited entertainment. Most promising of these appears to be *Abandon Ship*, America's second in the widely acclaimed British film of the sinking of the Titanic, which comes to the Capital.

The film explores the moral problem faced by a ship's officer, played by the late Tyrone Power, after a heavy loss made in night-operations. He is in command of a lifeboat carrying 20 survivors although only 11 will fit. The moral dilemma who will die as the others may live. Power can determine who the survivors of the boat will be.

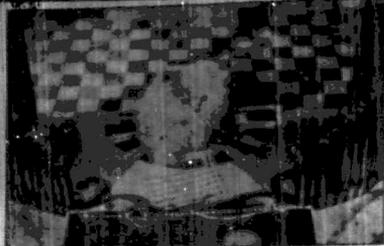

MAI ZETTELING in the picture in "Abandon Ship".

The setting of *Abandon Ship* is the sinking of the Titanic on the night of the 15th of April 1912. The film is based on the actual events of the disaster.

AT LAST! YOU CAN SAVE YOUR CHILD'S TEETH FROM DECAY

Scientific Proves Regular Use Of This Remunerated Toothbrush Relieves Decay By More Than Half

Following intensive research by American Dentists, the health of teeth of 100 of Britain's youngest children was carefully examined and found 40% decayed. The risk of tooth decay was shown to be reduced by more than half—over 50%—by using a toothbrush with a special toothbrush called "Ammident". And this result, surely, why more and more parents are turning to AMMIDENT for their own and their children's oral hygiene.

AMMIDENT, delightfully smooth, refreshing lavender taste, has a tendency to help reduce the spaces that are the chief cause of tooth decay. It makes the bristles softening them, keeps the whole mouth healthy and prevents spreading white spots—those evil which have the habit of being set on foot by the toothbrush. For no other toothbrush can take its place.

WEDDING PAGE

St. Andrew's Church, Nairobi. were the scene of the marriage of Mr. and Mrs. Richard Blomberg. The bridegroom is the son of Mr. and Mrs. Richard Blomberg of Kampala who have lived in East Africa since 1920. His bride was formerly Miss Young, Mary Frazier, only daughter of Mr. and Mrs. W. A. Frazier of West Kilburn, London.

The bride wore a beautiful, diamond-encrusted gown of white lace. (Photo: Francis Studios.)

Mr. and Mrs. Hilda Blomberg (right) were married at St. Mark's Church, Parklands.

Mr. Blomberg, who lives at Mombasa, is the younger son of Mrs. Hilda Blomberg of Hellenberg, Denmark, and his bride, the Hon. Miss Dorothy Allport, is the only daughter of Mr. A. G. Allport (the late Mrs. Allport, of Johannesburg). White broadcast, cut in the Empire line, was the bride's choice for a full-length gown, and she carried a bouquet of white flowers. (Photo: Pottier Artistic.)

Mr. and Mrs. Annette Thendore were married at St. Francis Xavier's Church, Parklands.

The bridegroom is the son of Mr. and Mrs. Thendore of Nairobi, and his bride, Miss Thendore, is the only daughter of Mr. and Mrs. George Thendore, of the City of London, Parklands.

The ceremony was held at 11.30 a.m. at St. Francis Xavier's Church, Parklands. The bride wore a white gown with a full-length train and carried a bouquet of white flowers. (Photo: Pottier Artistic.)

Mr. and Mrs. M. Carrington were married at St. Andrew's Church, Parklands, after their wedding at St. Andrew's Church, Parklands.

HERE IS A PLAN

RUGBY is the sport that has attracted the greatest number of spectators in this country. It is a game that is played all over the country and is particularly popular in the South Island.

The game is played on a field of grass and is a contest between two teams of 15 players each. The players are divided into forwards and backs. The forwards are responsible for moving the ball and the backs are responsible for kicking and passing the ball.

The game is played in a variety of ways and is a very exciting sport. It is a game that is played all over the world and is a very popular sport.

IN 1958

E.A.R.&H.

carried 2,000,000 tons of your goods over the railway, inland marine and road services — 50,000 tons more than in 1957. The ton mileage — that is to say the number of miles every ton was carried — amounted to 1,517 million. This is an all-time record. The Central Line in Tanganyika set the previous percentage increase.

carried 8,218,000 passengers. Although this was 200,000 fewer than in 1957 this number of passenger journeys has only been exceeded three times previously — in 1951, 1952 and 1957.

E.A.R.&H.

brought in this country 2,560,000 tons of your cargo. This was 100,000 tons less than in 1957, chiefly because of credit restrictions, smaller imports of capital goods and the development of local industries such as cement. In addition, oil imports amounted by 100,000 tons to a total of 1,215,000.

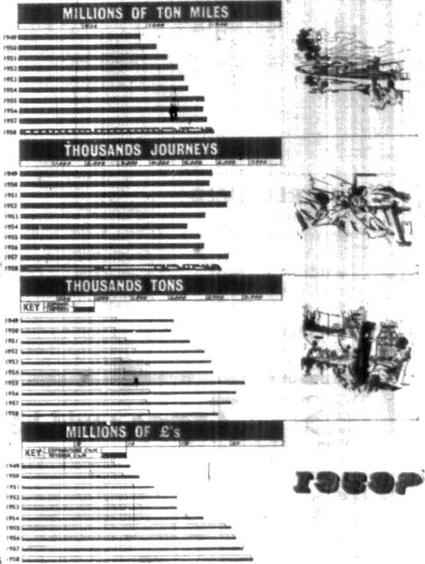

helped to export 1,750,000 tons of your products — 50,000 tons more than in 1957. Mombasa handled 1,042,000 tons of these products — greater than in any previous year.

E.A.R.&H.

in providing these services paid out £25,100,000 — this included £9,500,000 in wages, £8,900,000 for fuel and stores, £3,700,000 on interest and loan charges, £2,500,000 for depreciation of assets, £1,180,000 for maintenance and £1,420,000 on miscellaneous items. Overall costs were some £164,000 less than for the previous year. In addition, £27,097,000 was spent on new equipment, new works and terminals — a substantial investment in keeping your transport system in efficient condition.

received for these services £23,400,000 — only £300,000 more than they cost to provide. A balanced financial balance by any reckoning, and one which made it possible to pay any sums due to the Government, the Reserve Bank and the Reserve, nor make any special contributions to the Reserve.

like any other transport organization, if it is to meet the changing needs of its users, it must function effectively unless it can carry a significant surplus to finance improvements. The carrying out of differential tariff structure and other steps to make the railways more competitive together with the introduction of a buy-out plan for African companies, should provide the necessary conditions for the improvement of the financial position of your railways and harbours organisation will show improvements in this year.

At the service of East Africa . . .

East African Railways & Harbours

E.A.R.&H.

Incorporated in the interest of the peoples of East Africa by the East African Railways and Harbours Corporation. Further information is available in the Annual Report — price Shs. 5/- — obtainable from the General Manager's Office, P.O. Box 3012, Nairobi, Kenya.
