NEW TRADE FOR UGANDA

Campaign comment

There was a possibility of establishing trade links with Mombasa business houses, the chairman of the Uganda Trade Association, Mr. Lamesh Kimbi, believes.

Income tax for all

INCOME tax payable by persons irrespective of their status as salaried or un-salaried is a successful method of financing Uganda's development and expansion of social services. Speaking in Kampala, the Chief Secretary, Mr. G. P. Mariani, said he believed this step would be essential in the future. Of the present system of exempt taxes on agriculture, he said this was the most convenient way of raising the national income because the greater part of the national income derived on production by a very large number of peasant cultivators.

U.S. PREPARES FOR SMALL-CAR WAR

As the market of the Ford Motor Co. in the U.S. is expected to be the largest in the world, the U.S. Government is preparing for a small-car war. The U.S. Government is expected to announce a new tax on small cars, which will be levied on the basis of the car's weight. This tax is expected to be levied on cars weighing less than 2,500 lbs. The U.S. Government is also expected to announce a new tax on cars weighing more than 2,500 lbs. This tax is expected to be levied on cars weighing more than 2,500 lbs. The U.S. Government is also expected to announce a new tax on cars weighing more than 2,500 lbs. This tax is expected to be levied on cars weighing more than 2,500 lbs.

WHY A METROPOLITAN ELECTRIC RAILWAY NEEDED FOR NAIROBI

Letters to the Editor

CAT'S EYES' SIGNS AT LEVEL CROSSINGS

ROYAL EAST AFRICAN AUTOMOBILE ASSOCIATION

ANNOUNCEMENT

Rehabilitation

It is a well-known fact that the rehabilitation of the Metropolitan Electric Railway is a task of the highest importance. The Government has shown its interest in this matter by the appointment of a committee to investigate the possibilities of a new system. The committee has reported that a new system is not only possible but also desirable. It is suggested that a new system be based on the use of electric power. This system would be more efficient and more economical than the present system. It would also be more modern and more attractive. The Government should take prompt action on this report. It should not allow the opportunity to pass. A new system should be put in operation as soon as possible. This will be for the benefit of the people of Nairobi and for the credit of the Government.

AMBITIOUS LEADERS' KENYA'S FOE

VILLAGES UNDER CURFEW AGAIN

Propaganda still harmful warns Housing Minister

LEADERS who are ambitious to gain power and glory are Kenya's biggest enemy, the Minister for Housing, Mr. Amulamba, said yesterday at the Baringo Social Club in Nyeri District. They did not care what happened to anybody else so long as they themselves benefit.
