# IRREGULAR BUSINESS ON EXCHANGE

## Aluminium lead sought by Ghana

Accra, Sept. 14.—The Ghana Aluminium Corporation is seeking to purchase lead ore from the United States and Canada, according to a statement issued here today.

The statement said that the corporation, which is a subsidiary of the Ghana State Corporation, is currently in the process of developing a large-scale aluminium smelting plant in the country.

The lead ore is required for the production of aluminium, which is a key industry for the country. The corporation is currently in negotiations with several international suppliers to secure a steady supply of lead ore.

# CANADIAN AND U.S. MOVES CRITICISED

London, Sept. 14.—The Canadian and American moves to restrict the export of lead ore to the United Kingdom have been criticised here today.

The criticism is based on the fact that such moves would significantly reduce the supply of lead ore available to the UK, which is a major producer of aluminium. This would have a detrimental effect on the UK's aluminium industry.

## DEVELOPMENT OF INDUSTRY RESTS ON CO-OPERATION

A WARNING that if the East African territories sought economic isolation from each other they would achieve no large-scale industrial development for a long time was given in Uganda Legislative Council by the Minister of Commerce and Industry, Sir Amar Mearns.

The Minister said that the East African territories must co-operate if they were to develop their industries. He said that the territories must not be isolated from each other, and that they must work together to develop their economies.

# PRISONS ATHLETES SET RECORDS

## Ali Yusuf in form

Ali Yusuf, the Kenyan Prisoner, set a new record in the 100-yard dash at the Kenya Prisoners' Sports and was equalled in the 200-yard dash. Yusuf, who is a member of the Kenya Prisoners' Sports Association, was in excellent form throughout the day. He won the 100-yard dash in 17.2 seconds and the 200-yard dash in 34.5 seconds. Yusuf's performance was a surprise to many of the spectators who were gathered at the sports ground. He is a well-known athlete and has won many other titles in the past.

Cleaner and Whiter

You can see stains disappear

Impossible! Not with Jik. Ask if you put Jik to the test and you will see that white becomes whiter, yellow turns to silver, red and green, all will vanish. Stains disappear, even those that "creak" with age. For the good care of your linen, always use Jik.

GIANT

Jik has many other uses too: Excellent for cleaning dishes and baby bottles; better use, Jik will do so many jobs around the house that only Jik can do. Jik - The World's Whitest Washer.

# GUARANTEED FOR 18 MONTHS

Exide

Silver Exide offers you the solid guarantee of 18 months of guaranteed life from the date of purchase. If your Silver Exide vehicle battery is not with a proven guarantee attached to the battery during those terms, should it fail in normal or within its warranty, you get a new one absolutely free. Should it fail at any time in the next 18 months, you get a new one at a proportionately-reduced price. For instance, failure in nine months from purchase would be half on guaranteed life -- and you would get a new one at half price. Buy a Silver Exide -- and know you can't get less than 18 months of solid security. In all probability you'll get more -- a great deal more!

# DESTINATION — THE MOON

MODERN progress in plans to send manned space ships to the Moon and other planets is bringing into the realm of everyday knowledge conceptions and drawings hitherto confined to the pages of science fiction.

Shown on these pages are some of the latest plans for launching space ships to the Moon and other planets. The illustrations are the work of the artist who has designed the space ships for the American Rocket Society's conception of a Moon-landing expedition. From the launching of the space ship to the Moon and other planets, the illustrations show the various stages of the expedition.

**MAJOR PROBLEM**

The major problem in the design of the new Stanley Hotel was the need for a warm and comfortable atmosphere. The design team focused on creating a space that was both functional and aesthetically pleasing. The use of wood paneling and high-quality carpets was a key decision to achieve the desired impression of warmth.
