Government changes inevitable but no major shake-up expected

PREMIER'S MILITARY AIRCRAFT HAMPER EFFORTS TO REDUCE AIR FARES

Summit talks featured on agenda

MR. MACMILLAN summoned his Cabinet Ministers to their first post-election meeting yesterday to deal with outstanding Government East-West summit questions — summit meeting.

The Prime Minister is known to be anxious to see a summit meeting agree on a practicable and election victory was to see Mr. Selwyn Lloyd, the Foreign Secretary, for a talk on the situation. It has been widely speculated that Mr. Macmillan might decide to make an early flying visit to Washington to discuss the prospects for President Eisenhower.

Possibility not ruled out

But observers in London, though not entirely ruling out the possibility said yesterday there was little indication that Mr. Macmillan — who recently had been talking with President in Britain — had any such plan in mind.

Following the election result as a national vote of confidence in its present Administration, and with a Government majority of 102, Mr. Macmillan was expected to be contemplating a violent shake-up of the Cabinet. Some Government ministers were expected to be dismissed because the promised agreement, however, was not reached.

LETTERS TO THE EDITOR
THANKS FOR STUDENTS AIRLIFT

We would be very much obliged if you kindly print our letter of thanks.
To all those who have helped us in one way or another in securing visas and our routing into the U.S., our hearty thanks to you.
We will always remember Dr. C. Kimo, Mr. P. Muna, Mr. R. Neri, Mr. W. Nhereng, and all other workers behind the call of duty when we needed their best. May we say "thanks" and that there is still room for more Kenia students in American colleges and universities.
We are very much obliged for the services rendered to us by the U.S.A. and the I.B.C. Consulate in Nairobi.
To our Populare relatives and friends in the U.S. our help made it possible for us to come, we will always be grateful.
Your students: IRENAH S. SWENGA, DANIEL M. NERAL, FRANK H. NAMUTETE, SAMUEL MUTUYA, and KELLISTONE K. MINGOLA. Matika Rep. Sep. 21 1956.

NO SAFETY OR ECONOMIC OBJECTION TO CHEAPER AIR FARES

It is with some reluctance that I write this letter because I feel so much has been written about it. But what has happened? Having read your editorial of Sept. 20, and the letter of Mr. W. T. Travers, of the R.A.A.C. I cannot let the matter go unchallenged.
I was present at the meeting of the Management Committee of the R.A.A.C. held in Kenya in April. At that meeting a proposal was made for a 50 per cent reduction in air fares for students returning to Kenya for 1956 returns. It was pointed out that this would have a lot of effect on the R.A.A.C. and its existing passenger traffic.
The object was to provide a new type of fare and cover the cost of the fare. From conversations I have had with several of the staff, and also with some of the staff, I am sure the R.A.A.C. has done its best to give the present air fares to give Kenya students a great benefit. Some of the staff who have been interviewed have said that the new fare will not cover the cost of the fare and that the R.A.A.C. has not been able to do more.

English: As spoken on the K.B.S.

I MUST endorse Mr. W. J. H. Williams' comments on the K.B.S. programme. The programme has been broadcast with a view to increasing the English language in Kenya. It is a very valuable programme and should be continued. I have always been particularly impressed by the good behaviour of the unaccompanied African passengers who visit the Museum in large numbers. I am sure that the K.B.S. programme will be a great help to the English language in Kenya. I have always been particularly impressed by the good behaviour of the unaccompanied African passengers who visit the Museum in large numbers.

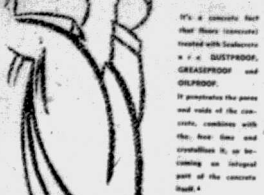

Self-service
We are in complete agreement with Mr. Wang. Farquhar in that he has pointed out that some of the programmes are not prepared to do anything but to increase the English language in Kenya. It is a very valuable programme and should be continued. I have always been particularly impressed by the good behaviour of the unaccompanied African passengers who visit the Museum in large numbers.

THE WHAT AND THE WHEN OF DEMOCRATIC PRINCIPLES

SIR ERNEST VASKY has stated that he intends to take part in the political life of Kenya when he has returned from the Government service in London. It is a matter of interest to many of us that he should have an important part to play.
In his statement of political beliefs he says that he believes in democratic principles, that Africa should be "self-determining" and that the questions to be asked here are:
-What are democratic principles as applied to the African race?
-What are the answers to these questions according to the African continent?
The African continent will not be a free continent unless it is controlled or dominated or ruled in parts or a Bond State.

Proposed by-laws
ATHOUGH the letter of the Kenyan Government with the object of drawing attention to the proposed by-laws, has been received to date, it is not known whether the Government intend to accept or not. It is a matter of interest to many of us that the Government should be asked to accept or not.
The African continent will not be a free continent unless it is controlled or dominated or ruled in parts or a Bond State.

Sir Evelyn's farewell COMMUNITY CAN ACT AS BRIDGE BETWEEN RACES

ASIANS taking part in the public life of Kenya must be in touch with both Africans and Europeans if they were to provide a bridge between these races. The Governor of Kenya, Sir Evelyn Baring, said this yesterday at a garden party given in his honour in Nairobi City Park.

Sir Evelyn was accompanied by Lady Mary Baring and Mr. Baring. He was staying here in the country before he returns to England to his home.

Asian traders and artisans had played a great part in building up the economy of Kenya and it was always meant to be a bridge between the two races. The Government was striving to ensure that the enterprise and financial success of the African community should provide the former with the means for a better life.

As with the White's economy the African had also played a great part in Kenya's political development. It was the African who had led the struggle for independence and it was the African who had provided the leadership which had led the Government to independence.

The President of the African Community, Mr. J. M. Njiru, said that the African community was proud of the part played by the White community in the development of Kenya and that the African community was proud to have the White community as a partner in the development of Kenya.

MIXED WEATHER BUT BUSY HOLIDAY

VISITORS to the annual Sports Day at the Princess of Wales School yesterday were disappointed to find that the weather was not what they needed for the day.

The school was held at 11.15 a.m. and the first race was the 100 yards. The winner was the 1st year boy, J. M. Njiru.

PROBLEM OVER CURRICULUM AT PRINCE OF WALES

MAKING his last annual report before retiring, the headmaster of the Prince of Wales School, Nairobi, Mr. P. Fletcher, identified as "a major problem" the curriculum which was put on the school to prepare boys for examination.

He added that one of the problems facing his successors would be the curriculum for the right curriculum for those who were not academically minded.

Mr. Fletcher who was speaking at the Queen's Day celebrations held at the school yesterday, had been taken ill the previous week and returned to hospital immediately. He had been at the school for the past 18 years work at the school by the guest of honour, Mr. R. S. Alexander (Nairobi West), the first Old Cambridge to become a Member of Legislative Council, and by the Director of Education, Mr. D. S. Miller.

DIFFICULT EXAMINATION

Mr. Alexander suggested that the chairs be pulled forward for the guest of honour should be transferred to Mr. P. Fletcher, and at his request the entire company stood and cheered Mr. Fletcher.

Presenting his report, which he described as "the longest Queen's Day report on record," Mr. Fletcher said that perhaps a greater number of boys than usual would have taken part in their studies for the day.

Mr. Fletcher said that he had been glad to find that the boys had been good in every way, they would have done well from their studies for the day. In some alternative cases, Mr. Fletcher said that the boys had been good in every way, they would have done well from their studies for the day.

REVIVAL OF CHARMING CUSTOM

BY E. GORDON

At intervals of a year or two, attempts are made to bring an extremely ancient, but always charming, accessory back into the fashion scene. In December's list is a useful as well as an attractive evening accessory. It is a woman worn of theatre, and it is the latest fashion to wear the night-vision.

Pleasure to take 'tonic' by the pint

POOR Elizabeth Barrett drowned the pint of porter her stern father made her drink each day. But, though many people regard porter—or stout—as a tonic, they find it an uncommonly pleasant one!

Chances are that you might never find stout that is so good as the one that Mary Magdalen used to drink. She was talking of a stout in the season, when she went to work for the first time, and that makes the drink and shows her a daily routine.

FIVE EVENTS And this season her performance have inspired us to recall that the new starts out as Britain's greatest export after gold medal in the women's athletic events at next year's Olympic Games in Rome.

You're safe and silent on Variable Pitch retreads!

Sick of screeching, feathering tyres? Change now to C.G.G. Guaranteed Retreads incorporating the latest and most important feature of tyre tread design — Variable Pitch.

On the kind of road used on many NEW types, ribs and grooves forming the tread pattern are designed asymmetrically, following the same measurements all the way round the tread. At certain speeds and under certain steering legs, when commencing a frequency of vibrations can be built up which would cause skidding and other upset.

The fundamental difference of Variable Pitch is that the measurements between certain elements are irregular, and are so built up in this way it is impossible to build up the constant frequency of vibrations necessary to create skidding. The type is indeed a much less rhythmic vibration is therefore silent and less noisy.

SEASONAL PAPER ON LAND POLICY

BUILDING AREAS: CONTROL TO BE REMOVED

LEGISLATION is to be introduced by the Kenya Government to prevent the creation of any future restriction against ownership and occupation, on rural lands, of non-agricultural land in urban and peri-urban areas.

Race considerations will not govern occupation in the Highlands

Proposals to encourage good farmers

The Seasonal Paper, the outcome of nine months' work by the Government, suggests that the Highlands Board and the Land Control Board should be replaced by a system of divisional and regional boards to control land transactions.

Proposed new legislation would be designed to permit good farmers of any race to apply for leases of land in the Highlands and divisional boards would be empowered to refuse consent to leases of land to people of different races would be permitted in certain circumstances.

The Government's declared aim is to take the basic and management of agricultural land to be controlled by the State and to develop an understanding of the rights and duties of the owner and the occupant.

Message to Kenya

Courage needed for future

In a message exclusive to the "East African Standard" last night, the Governor of Kenya, Sir Evelyn Baring, said—

ON leaving Kenya after more than seven years as Governor, I gladly send to all the people of Kenya a message of hope for the future and of confidence in the country they are to govern. It is a country with many problems, and many difficulties. Yet it is a country with great resources, and great potentialities. It is not only our people, but also our land, which must carry the burden of the future. The people must be prepared to meet the challenges of the future. They must be prepared to work together in a spirit of unity and co-operation. They must be prepared to face the difficulties of the future with courage and determination. They must be prepared to build a better future for themselves and for their children.

INTERNATIONAL TALKS AFFECT AIR FARES APPLICATION

DISCUSSIONS in cheap air fares now being held by the International Air Transport Association will no doubt have an important bearing on the attitude of the British Government on this matter, the Minister for Commerce and Industry, Mr. Hope-Jones stated in Kenya Legislative Council yesterday.

Replying to a question by Mr. D. T. Moi (North Rift) he said the Kenya Government was aware of the public interest and petitions in favour of cheap air fares. He referred Mr. Moi to a reply he had made earlier on this subject.

Mr. Hope-Jones said a decision by the European Commission on February 24, 1959, which would allow airlines to support the application for the reduction of fares to and from Europe provided that the airlines in question are not operated and the increase of the general public are safeguarded by guaranteed minimum rates of fares throughout the year, has not been accepted. He said that the Kenya Airports Corporation, he granted an equal opportunity to participate in any such cheap fare scheme.

Position defined Mr. Hope-Jones described the advantages of being admitted to the International Air Transport Association as it defined the position of the Government. He said that the Government was not a member of the IATA, but that it was a member of the British Overseas Airways Corporation, which was a member of the IATA. He said that the Government was not a member of the IATA, but that it was a member of the British Overseas Airways Corporation, which was a member of the IATA.

Few applications expected

FEW applications for the transfer of freehold title from European farmers to non-Europeans are expected by the Governor, the Minister for Lands, Mr. Mathison, told the East African Standard.

The policy at present is essentially one of encouraging leases. "I believe there are quite a number of European farmers who would like to transfer the title to their members of other races," he said. "In these circumstances we hope, if proper measures will carry a large measure of support."

Question to Government

THE Minister for Education, Mr. Mathison, asked in Kenya Legislative Council yesterday whether the Government intended to take to the House a Bill to amend the Education Act, 1958, on the grounds of racial discrimination in the Highlands, including the District of Nairobi.

Mr. Mathison told Mr. J. M. Huggins (Western Area) that he had not the question. But he said he was sure that the Government would take to the House a Bill to amend the Education Act, 1958, on the grounds of racial discrimination in the Highlands, including the District of Nairobi.

TERRORISTS ACTIVE

Gen. Maass, the Military and Air Force Commander, said yesterday that the Government was determined to keep calm in face of a possible terrorist activity.

These detailed proposals have been formally recommended by the Cabinet to Mr. Lennon, B.O.C.

In a message sent to the Governor, Sir Evelyn Baring, earlier this month he stated that they would "demonstrate your determination which I feel sure will encourage the growth of agriculture in the Highlands and to the south-western part of the country, and to the most advantageous employment of the land."

Mr. Lennon, B.O.C. added that the Government was determined to keep calm in face of a possible terrorist activity. He said that the Government was determined to keep calm in face of a possible terrorist activity.

Letters to the Editor

EARLY START AT WORK TO AVOID TRAFFIC JAMS

OFTEN I have been told that the people of Kenya are the world's best. I have been told that they refused to believe it until reading the letter of 2 months ago.

TIBET: 'DISMAL AND CRUEL ORDER'

Supporters of debate advocating serfdom, Russian tells U.N.

A VIOLENT attack on proposals to debate the Tibet situation was made by the Soviet representative in the United Nations General Assembly. He said the advocates for inscription of the Tibet item were coming out "in defence of the most backward, dismal and cruel social order in the modern world today. In this case their talk about human rights is nothing but cynical, half-hearted attempts to divert the eyes of the world from the crimes of serfdom."

MARATHON BALLOT FAILS TO FILL SEAT

CEYLON and Ecuador have been elected to two-year terms in the United Nations Security Council by a bitter fight between Poland and Turkey for the third vacancy. After 13 ballots in the General Assembly neither country had obtained the necessary two-thirds majority for election but Poland came out consistently for only 16 votes to obtain the seat which Japan vacated at the end of this year.

In similar circumstances, in 1953, Australia and the Philippines fought it out at the United Nations when they elected the United States to the Security Council. Each serving of the United Nations Security Council members is elected for a two-year term.

There was no contest over Ceylon's candidacy for the Council seat which Canada had vacated at the end of the year or the Latin American seat, currently held by Panama. Canada received 77 votes and Spain 75 in both cases, well ahead of the required two-thirds.

The seat which Poland and Turkey were contesting used to be held regularly by a member of the United Nations from the Middle East or Eastern Europe, but the arrangement broke down in 1953 and the Council's position has since been unoccupied.

The Soviet Union is now the permanent member of the United Nations Security Council. The other permanent members are the United States, France, the United Kingdom, China and the Soviet Union.

Denial of rights

The United Nations Security Council has denied the Chinese Government's charge that the Chinese Government is denying the rights of the Chinese people in Tibet. The Council stated that it has no jurisdiction over the internal affairs of any State.

By refusing to consider the question of Chinese representation in the Assembly, the Council has effectively denied the Chinese Government's demand that the United Nations should take action to bring about a settlement of the Tibetan question.

The Council also stated that it has no jurisdiction over the internal affairs of any State and that it is not concerned with the human rights situation in Tibet.

The Council's decision is seen as a clear indication of its unwillingness to become involved in the Tibetan question, which has been a major issue in the United Nations since 1950.

The Council's decision is also seen as a clear indication of its unwillingness to become involved in the Tibetan question, which has been a major issue in the United Nations since 1950.

C.I.D. squad seeks 'vanishing' cars

Since it first began operations in Nairobi, the Central Intelligence Department (C.I.D.) has set up an investigation squad to look for "vanishing" cars which are never again recognized or recovered. The cars are mostly of the type which are used for hire and are often of the type which are used for hire and are often of the type which are used for hire.

There are getting away with thousands of pounds worth of the cars and spare parts. Most of the cars are of the type which are used for hire and are often of the type which are used for hire.

It is estimated that nearly 100 cars of this type are being used in Nairobi. The cars are mostly of the type which are used for hire and are often of the type which are used for hire.

Immigration rule changes prepared

TRIBUTES IN HOUSE TO SIR ERNEST VASEY

MEMBER ASKS FOR COMMON BASIS ON RE-ENTRY PERMITS

THURSDAY, who retired from the Ministry last year, were paid by Members from both sides of the House in the Kenya Legislative Council yesterday.

The Chief Secretary, Mr. Coates, was asked in Kenya Legislative Council yesterday by Mr. A. M. Nguni (Nairobi) what progress had been made in introducing legislation for a common basis for immigration on a national basis. Mr. Coates replied that the Government was studying the desirability of introducing such a measure.

Mr. Coates said that considerable progress had been made in the study of amendments to the Ordinance and tentative draft amendments had been prepared. He pointed out, however, that the legal and administrative problems involved in such a measure had not been possible, to prepare matters of more subject of the preparation of an amendment Bill.

MIGHT BE IMPRACTICABLE

It was hoped that it would be possible to introduce amendments fairly early in the new session. Mr. Alexander asked if in the review, it had been pointed out, however, that the legal and administrative problems involved in such a measure had not been possible, to prepare matters of more subject of the preparation of an amendment Bill.

It might be almost impractical and disproportionately expensive to apply the Ordinance regulations to everyone but those under the Ordinance. Mr. G. D. Erundi (Central Kenya) asked the Chief Secretary if the Government could state the reasons for the Government's decision to apply the Ordinance regulations for residence of aliens to all persons, including those who are not citizens of Kenya.

Road work delayed by decision to re-route

As a result of the decision to re-route the Makuyu-Kisumu road through the Mt. Kenya National Park, the Government has decided to re-route the road through the Mt. Kenya National Park. The decision was made after a long and costly survey of the area. The new route will be about 10 miles longer than the old route, but it will avoid the difficult terrain of the Mt. Kenya National Park.

Only fair pay

The Minister has decided that the Government should pay a fair wage to the workers on the road. He said that the Government was aware of the difficulties of the workers and was determined to pay them a fair wage. He said that the Government was aware of the difficulties of the workers and was determined to pay them a fair wage.

CHARGE DENIED

Mr. Charles Mathison (Uganda) has denied a charge that he had been involved in a conspiracy to overthrow the Government of Kenya. He said that he had no knowledge of any such conspiracy and that he was a loyal citizen of Kenya.

OPPOSITION TO THIRD READING

There was opposition to the third reading of the Bill in the Kenya Legislative Council. The opposition was based on the grounds that the Bill was too restrictive and that it would be difficult to implement. The Minister replied that the Bill was necessary and that it would be implemented as soon as possible.

Division sought

The Minister sought a division in the Kenya Legislative Council. He said that the Bill was important and that it was necessary to pass it as soon as possible. He said that the Bill was important and that it was necessary to pass it as soon as possible.

Trade campaign incidents

There were several incidents during the trade campaign in Kenya. The incidents were caused by the lack of information and the lack of organization. The Government is aware of the incidents and is taking steps to prevent them from happening again.

DEATH PENALTY UN-APPLIED

The death penalty was not applied in Kenya. The reason for this was that the Government was not ready to apply the death penalty. The Government is aware of the reasons for this and is taking steps to prevent this from happening again.

DOCTOR'S DENIAL OF CHARGES

Woman died in Police Station

THE trial of Dr. Stephen Nicholas Nguni at the Government Hospital at Tigoni, opened in the Supreme Court in Nairobi yesterday.

He pleaded "not guilty" to the charge of manslaughter. The woman who died in the Police Station was Mrs. P. M. Nguni. She was found dead in the Police Station on October 10, 1958.

Anti-disease measures

MALARIA KEPT AT LOW RATE IN NAIROBI

MALARIA is still on the retreat in Nairobi. Last year it was kept at a low level of 0.54 cases per 1,000 people and the number of deaths has been even lower. The Medical Officer of Health, Dr. J. H. Harris, said that the number of cases had been kept at a low level by the use of anti-disease measures.

Health and education experts see Aga Khan

Health and education experts met with the Aga Khan in Nairobi. The experts discussed the health and education problems of Kenya and the role of the Aga Khan in solving these problems. The Aga Khan is a well-known philanthropist and has been instrumental in the development of Kenya.

Woman welcome

The Government has welcomed a woman to the Government. She is a well-known woman and has been instrumental in the development of Kenya. The Government is proud to have her as a member of the Government.

Hospital fee

The Government has decided to charge a fee for hospital services. The fee is to be used to pay for the cost of the services. The Government is aware of the cost of the services and is taking steps to ensure that the fee is used for the purpose intended.

Manorial sale

A manorial sale is to be held in Kenya. The sale is of land and is being held by the Government. The land is being sold to the highest bidder. The Government is aware of the importance of the land and is taking steps to ensure that the sale is conducted in a fair and open manner.

Not intrusion

LADY MARY LOOKS BACK ON YEARS OF PROGRESS

By LESLEY CLAY

AMONG the many impressions that Lady Mary Hastings will carry away with her from Kenya, chief of them will be the tremendous development of the country in every way since she came to the Colony in 1914...

But more than anything else, Lady Mary Hastings has been impressed by the City Parks planning scheme, which has transformed the City from an ordinary African township into a garden of flowers.

It is not that the parks are new, but that they have been developed in a way that is so much more in keeping with the spirit of the times...

INDECISIVE ENDINGS TO BIG CRICKET AT WEEKEND

THE 6th annual meeting of Officials and Settlers about feature in the Colony's cricket calendar, must be put down as a disappointment, on the whole. Once again cricket fans will have to wait for a better declaration by Settlers might have led to a really exciting finish and a conclusively result. With a few exceptions, the cricket was lacking in excitement and attraction.

Edward's century for Settlers was interrupted and his opening partnership of 136, with P. O. Box 1711, MOMBASA P.O. Box 1261, NAIROBI

MEMBERS ALL V. V. SHANDARI POOR FIELDING PROVES COSTLY

NAIROBI Adams have only themselves to blame for not winning their annual cricket match against Mombasa Adams, which ended in a draw on the "Solomon Virgo" Indian Gymkhana ground. When stumps were drawn earlier than usual to enable the Coast players to catch their train, the visitors were still 22 runs short of 420 for four wickets.

Vital catches dropped

At crucial stages in Mombasa Adams' second innings, vital catches were dropped. For example, J. D'Souza, one of the finest batsmen, was dropped by the fielder carrying the bat for 22.

Fast, high scoring

NAIROBI Adams' opening batsmen were drawn with three runs in 15 minutes. The fielding was very poor indeed, and the batsmen were dropped a large likely to prove himself expensive.

AFRICAN NATIONAL PROGRAMME. (Continued in Page 11)

SANDIACRE FOR CESAREWITCH

ENGLAND'S NEW LOOK TEAM FOR CARDIFF

ENGLAND will field their first "new look" team in the first international match of the season against Wales at Cardiff on Saturday.

The selectors have announced that the new team will consist of the following: **Wicket-keepers:** Alan Jones, Ian Botham, and Peter May. **Batsmen:** Brian Stanger, Peter May, Ian Botham, Alan Jones, and Peter May. **Bowlers:** Peter May, Ian Botham, Alan Jones, and Peter May.

Bali Ha'i and Seascape should be placed

SANDIACRE, ridden by Lester Piggott, is selected to move to the top of a recent British ranking in the new special category for this race, writes "Horseman".

In his last two races the Cesarewitch Trial Handicap at Ripon in September and the Goodwood Cup at Goodwood with a stronger gallop, particularly in the Goodwood Cup where it was obliged to make his own pace.

Here it should be a different pace, and with the 1963 season going all in his favour I expect to see him repeat the feat.

The 1963 Cesarewitch is very good. It is a very good horse, and he has the ability to win the Goodwood Cup. He is a very good horse, and he has the ability to win the Goodwood Cup.

GOAN SPORTS SHOCK RESULT

FIRST shock of the 7th annual athletic sports of Railways Goan Institute, at Jua Road was in the 100 yards, when P. D'Almeida beat A. Custania of "Mansha". The former Goan champion, by three yards to win in 9.9 sec. His personal best performance. During the meeting three new records were set up and one existing record equalled.

Erilvina was unexpectedly surprised this season and his time on the cross track was 23.0 sec.

The protestant in the 200 yards was crowned when Custania led from the start to win quite easily in 23.0 sec.

P. D'Almeida also won the 400 yards with the Victor in 1:10.0 sec. In the 800 yards he set the time in 2:28.0 sec. In the 1,600 yards he set the time in 5:00.0 sec. In the 3,200 yards he set the time in 10:00.0 sec. In the 6,400 yards he set the time in 20:00.0 sec. In the 12,800 yards he set the time in 40:00.0 sec. In the 25,600 yards he set the time in 80:00.0 sec. In the 51,200 yards he set the time in 160:00.0 sec.

APPLICATION FOR MORE COSTS DISMISSED BY COURT OF APPEAL

An application for increments resulting from the denial by the Court of Appeal in Eastern Africa of an appeal against the acquittal of Mr. Brian John of executing a security by false pretences was dismissed by the court yesterday.

The J. P. G. Harris, for Mr. John, had asked that costs against Mr. Brian John be awarded. Mr. Harris had sought that the costs of the Attorney-General for the State be awarded to the State. The court was divided 3 to 2 in favour of Mr. John.

Court rules on legal power in N. Rhodesia

THREE appeal judges have ruled in London today to issue writs of power to issue writs of habeas corpus in Northern Rhodesia, although it is a protectorate.

They disagreed with the English courts that the British South Africa Company, which is the administrator of Northern Rhodesia, is not a corporation. The court ruled that the company is a corporation and that it is entitled to issue writs of habeas corpus. The court also ruled that the company is not a corporation and that it is not entitled to issue writs of habeas corpus.

Injunction to prayer in American pamphlet 'blasphemy'

M. LOUW, the South African Minister of External Affairs, said in New York that an injunction to prayer contained in a pamphlet being distributed in the United States in connection with the tour of the Archbishop of Cape Town, Dr. Jozef de Blank, was the nearest thing to blasphemy he had ever seen. "The pamphlet asked United States churches to pray for South Africa and its leaders 'in those suffering from unjust laws'."

Mr. Louw said that since his reference to the Trustship Committee of United Nations is a network of organizations mainly responsible for an anti-South African campaign carried on in the U.S.A. and certain European countries' another link in the network had come to his notice. This was the "American Churchmen of South Africa" with headquarters at Albany, New York.

The organization was also active in connection with the Leftist wing of the Liberal Party of South Africa and was seen organizing the second anti-apartheid propaganda tour of Dr. de Blank.

Distinct bias
Mr. Louw said a pamphlet was being circulated by Dr. de Blank's new organization. It contained statements about the South African Prime Minister, Mr. Hendrik Verwoerd, and a plea for the Prime Minister to resign. Mr. Louw said that the pamphlet was a clear attempt to divide the South African people along racial lines.

'Own responsibility'
"In order to avoid 'this' which we have created the policy of 'own responsibility' for certain areas are for Whites and others are marked out for Blacks. In these areas the Blacks have the absolute freedom to develop along their own lines and to sell their own developing areas."

Day off from school - to speak in U.S.
The first of the late United States citizens to visit South Africa before the Trustship Committee, Mr. J. M. Njiru, will be in Johannesburg for a few days. He will be speaking at a meeting of the committee.

ENJOY THE SOCIAL WHIRL

with cyder's little sister

Fun to drink at any time, a sparkling Cydrax matches the gaiety of the liveliest party. Prepared from Whiteway's real Devonshire Cyder, rich with the tang of ripe juicy apples, you can still drink much as you like, for the alcohol has been gently and firmly bottled.

You'll find this light-hearted Cyder rich with the sort of "grown-up" drink that children clamour for, too!

Government explains Sessional Paper proposals

SAME BASIS FOR ALL LAND

Assurance on functions of boards

BOARDS in African areas will have no power to refuse consent to land transactions on racial grounds, the Kenya Government announced yesterday.

It emphasised that the Sessional Paper on the Highlands departed in no way from its repeatedly declared policy that the basis for tenure and the management of agricultural land would be similar throughout Kenya, regardless of race and tribe, and as far as local economic and agronomic factors would permit.

S.E. ASIA POST FOR EARL OF SELKIRK

The British Government has announced yesterday that it will send the Earl of Selkirk to the East of Africa, to be the first British Governor of the territory.

The Earl of Selkirk is a member of the House of Commons and has been a member of the Government since 1955.

Satisfied with statement

Afterwards, Mr. Alexander said he had seen the statement containing explanations, particularly as to whether boards would be empowered or directed to withhold consent to land transactions on racial grounds. "I am satisfied that the statement makes it clear that the functions of boards will be similar in both the African and European agricultural areas."

It is important that this Government statement should become an integral part of the expression of policy in the Sessional Paper, and the European Elected Members of the New Kenya Group will press inside and outside the Legislative Council for this to be done.

Mr. Alexander, representing the former Governor of the Kenya Group, has represented to the Kenya Government that many misunderstandings and anxieties have arisen from the proposals published in the Sessional Paper on the Highlands and Control under the Native Lands Act.

Other changes

The Government will also be making changes in the way in which the Government will be administering the Highlands and Control under the Native Lands Act.

It seems to have been assumed that the effect of the Sessional Paper, that the Government will be making changes in the way in which the Government will be administering the Highlands and Control under the Native Lands Act.

Not in conflict

The suggestion has been made that the provisions in the Sessional Paper, that the Government will be making changes in the way in which the Government will be administering the Highlands and Control under the Native Lands Act, are in conflict with the provisions in the Sessional Paper on the Highlands and Control under the Native Lands Act.

In introducing the Native Lands Bill, the Minister of Lands, Mr. J. M. Njiru, said that the Government was introducing the Native Lands Bill to provide for the management of agricultural land and to provide for the management of agricultural land.

RESERVE IN GLOWING

THESE are the usual indications for business to slacken below the weekend on the London Stock Exchange here, however, remained good and sentiment was unshaken by the latest Undersecretary of British Industries survey. This showed a steadily widening area of industrial recovery and confidence. A further helpful factor was the overnight rally on Wall Street. Industrialists treated higher while Dollar stocks, Rubber and Oil shares were firm. Kaffers were dull, with the disappointing quarterly development news.

Treaty on Antarctica will 'freeze' claims

MR. HERTER, the U.S. Secretary of State, told the opening session of the 12-nation Antarctic Conference in Washington that the United States was dedicated to the principle that Antarctica should be used for peaceful purposes only. Mr. Herter said the work of explorers and scientists from the countries represented at the conference had made possible the opportunity to formulate and give legal effect to certain principles which would ensure peace and cooperation in a vast area of the world.

During the coming weeks delegates will try to write a treaty assuring the maintenance of peaceful conditions in the continent and banning military weapons.

It is proposed that the treaty shall "freeze" all existing claims on Antarctica, which should be open to all the signatories for scientific exploration and other peaceful purposes.

Sir Ever Dening, the British Secretary of State for the Colonies, said a treaty to device the continent could avoid anything which might unduly limit British supported proposals.

He said that an international commission to ensure that the area from military activities was maintained.

Mr. Victor Swannell, the Soviet delegate and the Soviet Government considered that there should be no restrictions on Antarctica, an international regime that would contribute to the strengthening of peace.

AWARDS FOR DRIVERS

More than 160 drivers employed by Nairobi City Council may participate in a new award-winning competition. Organized by the Road Safety Society of Kenya, Drivers' employ- ment by firms of the city and holding accident-free records will receive periodic awards from the society.

It is to keep a record of right drivers, safety records and also encourage drivers to have their vehicles checked at regular intervals.

The Motor Committee is expected to take part in the Award-giving ceremony.

Proposals to improve care of aged

Leading lawyer engaged UNITED PARTY CHALLENGES LAND ISSUES

NAIROBI CONFERENCE WILL DISCUSS BETTER KENYA FACILITIES

PLANS to improve facilities for the care of old and infirm persons among the European community of Kenya are to be discussed in Nairobi next week. Suggesting that a committee of old people be set up to advise the Government on the matter, the Permanent Secretary to the Ministry of Health, J. A. Walker, said:

The establishment of further institutions without regard for the overall picture might be a greater burden on the community could conceivably carry, if considered. Other means must therefore be sought which would improve the work already being done by existing residential centres. Dr. Walker makes these suggestions:

1. The training of "home helps" who would visit their charges daily or, if necessary, live in — on the premises in Britain.
2. Organising a service of "meals on wheels."
3. Persuading families to turn their homes into day-homes for the aged.

ASKED FOR SUGGESTIONS
The President of the East African Women's League, Mrs. M. D. B. Walker, and the Member for Nyanza, Mrs. A. R. Shaw, asked Dr. Walker to give his views on ways in which the care of the old and infirm in the European Community might be improved.

His report, and the views of other organizations, will be discussed at a conference to be held on the 22nd in Nairobi.

The East African Women's League Holiday Club, Nairobi, will be one of the organizations represented.

Dr. Walker proposed a committee of old people which would advise the Government on the matter.

DAILY CROSSWORD: NEW FEATURE
On Monday the "East African" will feature a daily crossword compiled by Mrs. C. J. Robinson, who will also be responsible for the crossword puzzle on the "East African" from Monday onwards. It is hoped that the crossword puzzle will become a daily feature of the paper.

Answers will be published on following day.

THE COMMERCIAL CASE IN THE PYRETHRUM DISPUTE

FOLLOWING the report of the pyrethrum growers' meeting at Nairobi, when the extreme stop was taken of calling for the resignation of a Minister, may I once again be permitted to explain the reasons, and the only reasons, why the Government has been forced at this stage to intervene?

The 1948 Pyrethrum Cullings was presented by the Kenya Pyrethrum Growers' Association to the Board of Agriculture. It was a very simple matter and was approved by the Board. It was thought it was not worth the trouble of going to the Board for their contract. East African Extract Corporation Ltd., in their Nairobi plant, purchased from the Kenya Government in 1948.

As a man to duty attributes of that Ordinance, the Government with full support of the Board and the Board of Agriculture, undertook to amend the Ordinance to ensure the maintenance of the price of pyrethrum. It was thought it was not worth the trouble of going to the Board for their contract. East African Extract Corporation Ltd., in their Nairobi plant, purchased from the Kenya Government in 1948.

On August 1958, Mitchell Carr, Managing Director, Kenya Pyrethrum Growers' Association, advised the Board of Agriculture that the price of pyrethrum had fallen to a level which was not sufficient to enable the growers to meet their expenses. He requested the Board to consider the possibility of increasing the price of pyrethrum.

The high efficiency of the pyrethrum plant and its management, and the fact that it was a very profitable crop, were the reasons for its inclusion in the list of crops to be grown in Kenya. It was a very simple matter and was approved by the Board. It was thought it was not worth the trouble of going to the Board for their contract. East African Extract Corporation Ltd., in their Nairobi plant, purchased from the Kenya Government in 1948.

The Board of Agriculture, in its report to the Government, stated that the price of pyrethrum had fallen to a level which was not sufficient to enable the growers to meet their expenses. It recommended that the price of pyrethrum should be increased to a level which would enable the growers to meet their expenses.

The Government, in its response to the Board's report, stated that it was unable to increase the price of pyrethrum because of the fact that the price of pyrethrum was determined by the market. It recommended that the growers should be encouraged to diversify their crops.

Drop in Uganda motor sales

UNSURE FUTURE BLAMED

“Readers” Correspondent, Kampala.
C O N F E S S I O N A L Y, uncertainty about the future, was partly to blame for the important fall-off in motor trade sales last month, the Ministry of Commerce and Industry states in its monthly report on trade in Uganda.

It says that in the motor trade sales appeared to have been rather below average for September, particularly in commercial vehicles.

Some dealers had told the Ministry that the increased price resulting from imposition of Customs duty on commercial vehicles might be contributing to “consumer reluctance” to buy new vehicles.

Other above products had been singled out since the introduction of the graded tariff in Uganda reported little if any change in the overall position at the end of the month, the Ministry says.

Renewed wave

There had been some signs of relaxation in Kampala at the beginning of the month but a renewed wave of intimidation, which included the prevention of market supplies being brought in, the Union set back last night.

The Ministry says that retailers and wholesalers in the Kampala Bazaar got away to a good start in September and trade seemed to be carrying over from August. However, after three or four days of no movement, however, African buyers became noticeably fewer and the month ran out at a much reduced level.

15 HOMES FIRED AND RESCUER MURDERED IN UGANDA ATTACK

FIFTEEN houses were set ablaze at night in the Masaka District of Uganda and a man who was running to help fight the flames was severely beaten that he died later in hospital. The Commissioner of Police has imposed a dusk-to-dawn curfew on two ghombolals.

Announcing the curfew, yesterday, police headquarters in Kampala said extra police had been sent to the area and a special team had started investigations.

The 15 houses were at Kasuu Village, Ghombolala Sub-town, Masaka, and official reports say that 12 were razed to the ground and 11 were the remainder badly damaged.

Trade reprisals. The firm were scattered over the area, some indicating that each firm was working for the benefit of the community of the village.

Top of the houses belonged to Europeans, three to Baganda and two to Banyarwanda. The area was under investigation and the owners are reported to have said their main business was trading.

It is likely therefore, that the property belonged to the non-African trade group in Masaka.

In addition to the man who died, another was seriously injured during the night and is presently detained in Masaka hospital.

The Ghombolala in which the houses have been burnt is situated near Masaka and Masaka is in the Victoria Nile valley in the Masaka District.

WITHIN hours of an allegation that a U.S. Embassy official had been abducted in Moscow by Russians in civilian clothes dragged into an alley, accused activities for the Soviet Union, the State Department in Washington announced that the abduction was a strong protest had been received from the Soviet Foreign Ministry.

The American official was described as a 34-year-old man, George Marshall Langley, Chief Security Officer, Embassy of the United States in Moscow. He holds the rank of attache and is a member of the State Department.

Langley is in charge of the Embassy's security and has been in Moscow since his arrival in June, 1958. He is a member of the State Department's Foreign Service Reserve.

Langley was abducted from his car in a quiet street in Moscow. The car was damaged and Langley was taken to a hospital. He is now being treated there.

The State Department is now investigating the abduction. It is believed that the abduction was a protest against the U.S. Embassy's activities in Moscow.

Solidarity call to farmers

WAGES BATTLE LOOMS IN AGRICULTURAL INDUSTRY

CALLING for solidarity among employers, the president of the Kenya Federation of Employers, Mr. R. J. Hilliard, told a crowded meeting at Limuru that the battle now involving the agricultural industry was that of the minimum wage.

'Hit parade' show has polish

Enthusiasts of current successes on the "hit parade" Tony Brent and Frank Cook—well supported by the Wellingtons—after a varied and polished programme at the City Hall, yesterday, presents two engaging personalities who have the reputation of understanding the music which ends with California, champion of the dance, a magnificent and gaily new song well-known to the audience. The well-known producer, none remarkably close.

Ready wit
Tony Brent presents a repertoire which tends to have a certain approach, knows for his pleasant and secure his audience.

Ripe plums

"We are also maintaining that the minimum wage is a question of principle and not only to the settled areas," he said. Emphasizing the need for solidarity, he said that all had heard of the solidarity of labour for far less other of the solidarity of employers.

Agribusiness unions were on the way and the federation was encouraging to achieve the solidarity of employers without which the unions as they grew in strength would split each plantation, industry and each farmer like no party individual the union.

Both solidarity on the employer side was vital to a fair and proper development of relations between employer and employee. There was nothing aggressive about it.

Multi-racial solution is 'dandy' says U.S. official

BRITAIN'S strategy to fit into the pattern of the free world, Mr. R. J. Hilliard, told a crowded meeting at Limuru that the battle now involving the agricultural industry was that of the minimum wage.

Kenya Pig Growers' Denial Industry of Jealousy on Place in Economy

STRONG RESERVES

STEPS towards internal self-government in Tanganyika had been set at a pace, the chairman of the Kenya Small Growers' Association, Mr. G. Lee, said at the annual meeting of the association in Tanga at the weekend.

That pace was enough for everyone to see, but the goal would be reached in five or six years, he said. It was not a matter of waiting for direct dominion and maturity of outlook.

Mr. Lee denied that the association comprised a parcel of reactionary farmers. He said it was a group of progressive farmers who were second- or third-generation Tanganyikans.

MONTHLY OUTPUT RECORD

"Our fortunes and those of our children are inextricably bound up with those of Tanganyika. We shall not genuinely seek to co-operate with the Government of the people of Tanganyika," Mr. Lee said.

It was noted that production of sal powder for the year 1964 was greater even than the record figure of 204 tons greater even than the record figure of 18,766 tons.

DOBBIE SHOCK FOR THE AIRMEN

Impala spurred to victory by Temple

SHOCKS come thick and fast in end-of-the-season Dobbie League games. Following on the first defeat of Cameroonia by a much-improved Gargano side, Impala topped R.A.F. by 5-3. This result was almost entirely due to the presence of Derek Temple in the Impala line who scored a hat-trick and also secured a perfect thrust to the airmen's defence.

The airmen played the most constructive football throughout but had no adequate answer to Temple's free-kicks.

Looking at the centre, captain Impala's fancy when he fastened on to a weak clearance in the 15th minute. But Shaw soon got R.A.F. over-awed.

First of a hat-trick

First Temple collected a long clearance from the middle and scored with a scorching 25-foot shot, leaving four goals to go, made the Impala tally 2-0 from the edge of the penalty box.

R.A.F. however, continued to play the better football and finally reduced their arrears only for Temple, always steady in charge, to move an opportunist goal and give Impala a 2-2 interval lead.

In the second half a similar pattern emerged with McLeaver tipping a fierce direct free kick from 25 yards out over the bar on one occasion. Later the Impala centre was heavily after Temple had got on a better.

An Impala defender nearly lost his own keeper with a pass back rebounded with overmuch vigour and then, they scored the winner's third from a goalmouth scramble.

Right on the Temple collected the ball a few yards from his R.A.F. defence before McLeaver shifted ball into the goal.

Hard work for Gargano

Cameroonia made very hard work of beating Railway 2-0 in a Dublin League game the previous day, although more accurate shooting could easily have done the trick.

There was no football once the Railway defence played well, while a conspicuous display by Yarakaki in goal was one bright feature of a rather dull game.

Cameroonia dominated play for long periods but their finishing was for the most part pathetic. The Railway's only worker in this respect was in an on-again off-again 'setback' and carried his own 'setback' and carried

Police win and lose in Uganda

KENYA POLICE emerged with honours even as the weakened Shauri Moyo cricket team of Uganda lost their last match in a recent sporting tour of Uganda.

They had both a better batting and a better bowling team but were their bowling machine. Uganda's best bowler was the fast bowler, who bowled 10 overs for 10 runs.

It was the first time that the Kenyan Police had lost a match in the tour. The Kenyan Police had won all their matches in the tour.

They were less successful in their Soccer fixtures, being beaten in successive matches by Uganda Lions, K.S. and Uganda Warriors, K.S.

Women's cricket will be included in the tour of Uganda in 1959.

Disappointing finale to six-a-side hockey

A MOST disheartening and disappointing feature of the recently attended Kenya European Hockey Association's six-a-side hockey 'B' hockey tournament was by the Kenyan Institute "A" was the withdrawal of the two European teams still remaining in the quarter-finals.

The tournament was completed at City Park Stadium, Nairobi, on Saturday.

Railway Sweepers gave Coast Institute "A" a walkover, while Kenya (European) Police, who recently a walkover from Kenya Police (Asian) and Railway Training School.

The tournament was thus completed. The Kenyan Institute "A" and Kenya Police (Asian) and Railway Training School were the winners in their respective categories.

Coast Institute turned out winners in a most convincing manner beating the star-studded Kenyan (European) Police 2-0 in a one-sided final.

Coast, with two men injured, completely threw the match and would have won by a bigger margin had they not been kept by Gervais in the Sixth (United Kingdom) goal.

VERY ACTIVE CONDITIONS MARK START TO WEEK ON EXCHANGE

Continent Ruter (E.A.), Ltd.

FIRM and very active conditions prevailed on the London Stock Exchange yesterday morning, though demand was selective. Industrials continued Friday's upward trend and steel shares were active. Dollar stocks reflected Friday's improvement on Wall Street and rose appreciably.

Mining lower were slow in starting, however, being well supported by copper. Gold edged west steadily slow but copper rose firm.

Quotations were—

Refinery is sign of confidence in E. Africa

The latest issue of the Standard Bank Review, which is published in London, comments on the building of an oil refinery at Mombasa.

In the section devoted to economic activities in Kenya it says: "A most encouraging sign of confidence in the future of East Africa is the decision this week to build a refinery which will cost £3,000,000 and which will be owned by the East African and British Petroleum (East Africa) Ltd. having been contracted at Mombasa."

The installation will replace the total oil requirements of East Africa, which at present amount to 1,120,000 tons of petroleum products a year and which were supplied for the 15,000,000 gallons by tankers.

Employment rising

The refinery will take 18 months to build after the surveys have been completed. The Government has agreed to grant a 20 per cent concession on the purchase of machinery and equipment for the refinery.

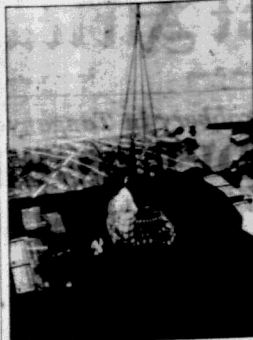

It was not expected that the refinery would provide permanent employment for many thousands of people, but it is expected that large numbers of casual workers will be employed during the construction period.

Timken bearings agency

Timken Bearings Co. (Kenya) Ltd. has been appointed as the sole agents for the East African continent for the Timken bearings.

The company, which is a subsidiary of the Timken Co., U.S.A., has a long history of producing high quality bearings for a wide range of applications.

The new agency will be based in Nairobi and will cover the whole of Kenya, Uganda, and Tanganyika.

A COMPLETELY new type of cargo net made from twisted nylon webbing is now being used (above) in London Docks.

Lights at night, flexible and used to handle even when wet, the nylon net is strong and durable. That use in the picture, being used to unload about 100,000 lbs. of material and weighs only 2000 lbs. per ft. made only using 1000 ft. of second two tons with complete safety.

It is completely flexible under all conditions. It is used in the same way as ordinary netting but is stronger and more durable.

Austin's new luxury car

ANOTHER British luxury car maker has been announced. The Austin Motor Co. has announced the launch of a new luxury car, the Austin 1000. This car is a two-door saloon with a 1000 cc engine, 100 hp, and a top speed of 100 mph. It is priced at £1,800 plus £200 tax.

The Austin 1000 is the first car to be produced by the Austin Motor Co. since the takeover of the British Motor Corporation by the British Leyland group.

THE NEW GOVERNOR High reputation gained in Caribbean posts

CORPORALS AND MR. SECOMBE CAP IT ALL

KEEPING THE PEACE

While the security remains deteriorated into growing lawlessness in Kenya, there are signs of a planned intention to take over in Kenya during the next few weeks.

In two countries, one in the island south of Africa and the other in the north, the British have been successful in maintaining the peace for all the people. These two countries are the only ones in the African continent where the British have been successful in maintaining the peace for all the people.

After the suffering of the past few years, the British have been successful in maintaining the peace for all the people. The British have been successful in maintaining the peace for all the people.

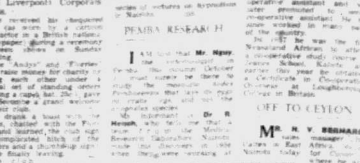

Sir Patrick Bannister, who was appointed Governor of Kenya in 1958, has a high reputation gained in Caribbean posts.

This profile of the new Governor of Kenya is by a special correspondent. One who for some time has been in London representing the "Daily Graphic" of St. Patrick was formerly Governor.

BROADCASTING: KENYA'S WAY OF LIFE CANNOT BE REGIMENTED

MR. HAWTHORNE'S letter is written on the assumption that the Kenya way of life should be regimented to conform with those of other countries. We Kenyans are not of a mentality that will gladly grant and that is the reason why we should not have them.

We are not children who should be made to have what is called a "curriculum" and an undervalued life of the attractions of Kenya and the carrying out of a steady approach of the curriculum and Western systems are not a part of it.

We like the Free Radio Service but it is strictly the property of the Government. We should have no other radio stations where we are concerned, supporting the B.C.A. as we do.

As to Mr. Hawthorne's views that of the other side of the coin is that the Government should not be allowed to have a monopoly of radio stations. We should have no other radio stations where we are concerned, supporting the B.C.A. as we do.

The general clearing of the air is not a problem for local artists is no letter than it is for the Government.

Considering that the B.C.A. is more expensive to equipment and more difficult to operate than the private stations, it is not surprising that the Government should not be allowed to have a monopoly of radio stations. We should have no other radio stations where we are concerned, supporting the B.C.A. as we do.

LETTERS TO THE EDITOR

General Election would result in extremism

MR. BROWN M.C. writes in his letter that Kenya now "presumably" there he would be happy to accept the obvious result of the return of African Ministers, without even now extreme has become a fact.

Mr. Brown points out that the Government would have a majority in the House of Representatives if the Government were to be elected. He also points out that the Government would have a majority in the House of Representatives if the Government were to be elected.

Flag day

THE "Letter" of the Nairobi Standard on the occasion of the flag day is a masterpiece of logic and common sense. It is a masterpiece of logic and common sense.

Land policy

NEVER have I seen a more sensible and practical land policy than that of the Government. It is a masterpiece of logic and common sense.

Level crossings

HAVING been a passenger on a train for many years, I have noticed that the level crossings are a serious danger to the public. It is a masterpiece of logic and common sense.

Officers' pensions

MR. BROWN M.C. writes in his letter that the Government should not be allowed to have a monopoly of radio stations. We should have no other radio stations where we are concerned, supporting the B.C.A. as we do.

Appeals ignored

YET another letter from the public has been received. It is a masterpiece of logic and common sense.

IT MUST BE DIRECTED IN PARTICULAR TO OWNERS OF ROVERS - LAND ROVERS AND HOLDENS

Almost perfect!

Notice the new really perfect! The look of an almost perfect car, built in other words, we can produce almost perfect cars, and we do.

You'll know by now, if you have bought a Rover or Holden from us, that we take service very seriously. Connaught House has been built for service and not for show. The space is there, the machinery is there, the fully trained mechanics of under European supervision and if the job is too big to be done on the spot, there is always our heavy workpieces in Cardiff Road ready to serve you. We know Rovers and Holdens inside out, so if it's lubrication service or any other fault or adjustment you need, call in and see us or telephone 23921, Nairobi.

You'll find the new attitude in all our branches. It's after-sales service that's important.
