SIGNIFICANCE OF THE NEW KENYA LAND POLICY

Letters to the Editor

FORMATION FLYING

It seems clear from letters you have printed and questions put to the Minister, Mr. Mathison, that the significance of the new land policy has not yet registered in the minds of many of our readers at all. This is clearly shown by the worrying questions which are being asked. It is not the Africans who are to be benefited by the new policy. It is the white settlers who are to be benefited. The new policy is a means of enabling the white settlers to acquire more land. It is a means of enabling them to acquire more land. It is a means of enabling them to acquire more land.

WHAT it is to go to the old settlers, who are to be benefited by the new policy. It is the white settlers who are to be benefited. The new policy is a means of enabling the white settlers to acquire more land. It is a means of enabling them to acquire more land. It is a means of enabling them to acquire more land.

...in conflict with the ideas of the Government. The Government is not to be benefited by the new policy. It is the white settlers who are to be benefited. The new policy is a means of enabling the white settlers to acquire more land. It is a means of enabling them to acquire more land. It is a means of enabling them to acquire more land.

Maximum consumption reached NAIROBI PEOPLE ASKED TO USE LESS WATER

INCREASED water consumption in Nairobi, caused by the prolonged dry weather, is rapidly reducing the margin available, and yesterday the chairman of the Works Committee of the City Council, Mr. E. C. Field, appealed to consumers to economize during the hot spell.

MOMBASA ASKS FOR GRANT

COUNCIL, headed by the Hon. Mr. Chagwanwa, is asking the Government to grant Mombasa a special grant to cover the cost of the water supply system.

The Council is asking for a grant of KSh. 100 million to cover the cost of the water supply system.

The maximum amount of water that can be delivered to the city through the existing trunk mains is 12,000,000 gallons a day, and the daily consumption now fluctuates between 8,000,000 and 10,000,000 gallons. At the end of this year the estimated Nairobi population will be 1,500,000 and it is estimated that the city will need 15,000,000 gallons by 1980 when the population will be 2,000,000.

The water supply system in Nairobi is a 100-year-old system and it is estimated that the cost of replacing it will be KSh. 1,000 million.

Investigate midwifery standards, says M.O.H.

STANDARDS of midwifery in Nairobi need to be investigated and satisfactory legislation introduced, the Medical Officer of Health, Dr. A. T. G. Thomas, said in a report for 1968.

Dr. Thomas said that the standards of midwifery in Nairobi are not satisfactory and that there is a need for legislation to regulate the profession.

Disarmament views closer

RUSSIAN MOVE PRAISED

WESTERN and Soviet positions on disarmament had come closer together, the British Minister for State, Mr. Cresswell-Clerke, said at the General Assembly's main political committee in New York.

Mr. Cresswell-Clerke's statement in the Assembly contained "important features," he said. It had opened up to the United Nations the same line Britain's own proposals contained, a program of disarmament which had been the basis of the British proposals. It had also opened up to the general public the same line.

Four-year plan

The Soviet Prime Minister proposed a four-year plan and a complete disarmament plan, eventually before General Assembly next year.

Mr. Cresswell-Clerke said he was sure that the Soviet proposal would be a landmark in the history of disarmament. He said that the Soviet proposal was a complete plan of disarmament which had been the basis of the British proposals. It had also opened up to the general public the same line.

Unified teachers' system will end discrepancies

THE GOVERNMENT has announced that it will introduce a unified system of education for all parts of the country, which will end the discrepancies in the standards of education between the different provinces.

The Minister of Education, Mr. D. S. Miller, said that the new system would be based on a common syllabus for all subjects, and that it would be implemented in the next few years.

PROGRESS IN TANGANYIKA

WHEN Sir Richard Turnbull opened the new session of Tanganyika's Legislative Council, the contents of his speech fell into two parts. First—an economic direction was given to the Government's policy. It was to be a policy of great emphasis on the development of the country's resources. This was to be achieved by the Government's financial assistance to the private sector. The Government's financial assistance to the private sector was to be in the form of loans and grants. TRIO DE BALLT DELIGHTS WITH PURE TECHNIQUE

SUCH delight as I may have had about the vast orchestra and corps de ballet, without doubt and without suspicion of lightning, were dispelled by the performance of the 'Trio de Ballt' at the Kenya National Theatre, Nairobi, on Monday night.

There was a perfection of technique which really approached the limitations of dancing on stage. Here was virtuoso dancing which could be enjoyed and appreciated in the same way as one appreciates an accompaniment alone.

It is a different kind of pleasure from that stimulated by the complete view of the ballet for despite the fact that the spectators' attention was focussed on the dancers, the music was not lost.

The music was not lost. The music was not lost. The music was not lost. The music was not lost. The music was not lost. The music was not lost. The music was not lost. The music was not lost.

MAKE YOUR OWN ELECTRIC ORGAN AND RACING CAR

PROBABLY the "do-it-yourself" craze will never assume the same proportions in Europe as it has in this country. After all we have not had from the pioneering days when you did it yourself or did something country-plumbed and riveted on a "do-it-yourself" basis.

But in Britain on a "do-it-yourself" basis there are people who have a surprising change has come over the neighborhood with these people who want to become electricians, and who will have to be trained for the job.

SPORTING VISITS TO SCHOOLS IN AIROBI

KENYON C.C. began their annual round of visits to the schools in Nairobi when they played on Saturday last, leaving for their winter school in the next three weeks they are due to a basket of York St. Mary's and Delamere High School on 28. On the 29th of November 14-15. The annual school visit is played during the week ending 14-15. The boys' team will play on Saturday 14th and the girls' team on Sunday 15th. Combined with the school visit is a more attractive and more interesting one, the visit of the school to the school. The school is the only one of the kind in Nairobi.

Footballers
It is most unfortunate that the school visit is being held at a time when the school is in the middle of its annual sports. This is particularly true of the school which is in the middle of its annual sports. The school is in the middle of its annual sports. The school is in the middle of its annual sports.

K.N.F. PLANS TO REORGANISE

WESTERN ALLIES SPLIT ON SUMMIT DATE

FRANCE has told the Western Allies that it does not think a summit conference should be held before the April next year.

Gen. de Gaulle's proposal for a summit conference is being studied by the Western Allies, but it is not expected to be held before the April next year.

Paris favoured the proposal for a summit conference to be held in the autumn of 1960.

The Western Allies are expected to meet in London in the autumn of 1960 to discuss the proposal.

Outline for MacGillivray Committee

SPECIFIC recommendations for the reorganisation of the Kenya National Farmers' Union to enable it to fulfil the role of a national committee will be outlined to the MacGillivray Committee by K.N.F.U. representatives today.

This was disclosed yesterday by the vice-president of the union, Mr. P. D. Marrian.

Mr. Marrian was chairman of the working committee on agricultural industry which included in its report, released about a month ago, a recommendation that there should be some national farming organisation in the country.

Variations in details

The attitude of K.N.F.U. to two other major agricultural organisations, the Highlands and the Kenya Agricultural Union, were also reviewed by Mr. Marrian.

He said that the Highlands is similar, superficially, to the other two organisations, but that it is a number of variations in details.

The union feels that the laying of the Seasonal Paper on pyrethrum was untimely. It stands by its opinion that legislation to protect individual commercial enterprise is wrong in principle and would establish a very hazy precedent.

A MATTER OF HISTORY ON LAND POLICY

NOW that the land issue is well and truly on the tape may I remind your readers of a matter of history? When the Labour Government in power passed legislation which gave to those who farmed land in Britain the right to be compensated if the Government decided to dispose of the land by Government decree for an area? They then proceeded to do this. It was not until the Government had taken the land away from the farmer and the Government had disposed of it that the Government decided to compensate the farmer for the land taken away from him.

In the vain hope that the African will not form on them the impression that the Government is to be treated as a party which has no conscience, I suggest that the Government should be prepared to offer compensation to the farmer for the land taken away from him.

The Government should be prepared to offer compensation to the farmer for the land taken away from him. VENUS BLAMED AGAIN

WHY must Venus be blamed for the strange lights seen in the sky?

Your Friday's issue mentions a 'bright light' near the sun. Venus crosses the sun by about 49 degrees of the meridian and is not to be seen as a planet of light if the sun is in the sky. Venus never near the sun (usually) so bright. It may be observed as a very bright object only in the mornings just before sunrise or at about sunset.

UNITY AMONG FARMERS

UNION is the need for unity among Kenya's farmers has been recognized certainly by the Working Party of which Mr. Mariani was chairman and the Kenya National Farmers' Union itself.

The progress from the Working Party was reported last week in the preparation of a document to be submitted to the Government for its consideration. The document, which is being prepared by the Kenya National Farmers' Union, will set out the various proposals for the improvement of farming policy in an advisory capacity and will also recommend the various proposals for the improvement of farming policy in an advisory capacity.

The document seems an eminently sensible arrangement, especially in view of the fact that the Working Party has been set up to advise the Government on the subject of farming policy.

The document is being prepared by the Kenya National Farmers' Union, which is a voluntary organization of farmers in Kenya. It is the only organization of its kind in Kenya.

£200,000 CINEMA OFFERS A NEW EXPERIENCE IN FILM VIEWING

STYLE AND COMFORT FOR NAIROBI PICTUREGOERS

By David Saxby

WHEN visitors to Nairobi's newest cinema—the 20th Century on Queensway—make their way to their seats for the first time tonight, they can hardly fail to be impressed by its sheer size. From the modest white stone exterior punched between high buildings on either side, few would suspect that the city's most curious cinema is also its largest, with seating for more than 1,000 people.

After tonight's formal opening ceremony, the record-breaking film *South Pacific* will use a performance of the new type of curved screen film, which is 100 ft. high. The film has broken all previous records in the major cities of Britain and has not yet been generally released elsewhere. It is shown at the £200,000 cinema include the first of its kind in the world.

The special equipment and large circle—so the cinema seats compared with about 200 in the smaller cinemas.

MESSAGE from the Mayor of Nairobi, Mr. Nathan Clark.
The building of the 20th Century cinema on Queensway marks another important step in the growth of the entertainment industry in East Africa and Twentieth Century-Fox Investments Ltd. It is a worthy contribution to the advanced facilities and equipment.

The new cinema is a landmark in the development of the film industry in East Africa and Twentieth Century-Fox Investments Ltd. It is a worthy contribution to the advanced facilities and equipment.

NOTHING BETTER

The first of this kind in the world, the 20th Century cinema is the only one of its kind in the world. It is a landmark in the development of the film industry in East Africa and Twentieth Century-Fox Investments Ltd. It is a worthy contribution to the advanced facilities and equipment.

Nothing could be more significant to the future of Nairobi and Kenya than the completion of this new cinema. It is a landmark in the development of the film industry in East Africa and Twentieth Century-Fox Investments Ltd. It is a worthy contribution to the advanced facilities and equipment.

THE 20th CENTURY THEATRE

For Sound Absorption and Noise Reduction

On behalf of our manufacturers, Messrs. Gharrett and Associates, Manufacturers of Acoustical tiles, and ourselves we would like to express our grateful thanks to the architect and the contractor, Messrs. Hugh Pearce for the superb finish to our acoustic tiles in the auditorium.

HERAKLITH

In noise reduction problems, we are principally concerned with unwanted sounds, sounds which annoy and interfere in other words, "NOISE", which has been called by "the father of health". The statement of such noise is highly desirable in many types of building construction.

The ultimate in screen presentation

AFRICAN CONSOLIDATED FILMS LTD. Nairobi

SCREEN BUILT IN FIVE SECTIONS TO CHANGE THE CURVATURE

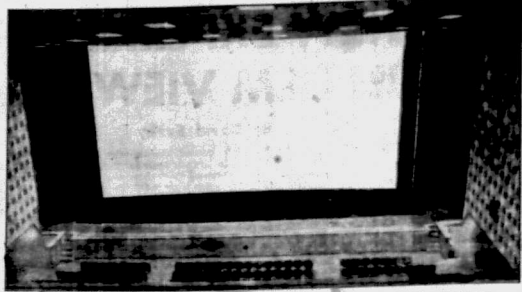

FIVE feet wider than the Kenya Cinema, the 20th Century has seats for almost a hundred more people. There is room for 519 in the circle and 706 in the stalls. The walls of the auditorium are covered in acoustic panels of red logs and white with the red panels raised in a decorative pattern. Overhead is a grey dotted ceiling. The screen which spans the width of the cinema is supported on tubular steel framing and there is no proscenium arch. There is only room for one set of curtains which are of red velvet. The three frames is built up of five sections and looks for all the world like the Mercator creation of an imaginative schoolboy with a table for the abstract. Only the upper section is fixed and the other flanking sections can slide to move in or to widen the curvature of the screen as and when the theatre is used for different purposes.

COMPLEX SYSTEM When the screen is in use for Techni-Aid presentations the curve is all flattened and the extreme upper and lower portions of the line to which the centre section returns. For other times the water section also moves back to restore the distance between feet and feet of the screen as a stage. One mechanical track is used and two vertical ones. Some of the complexity of the equipment involved is indicated by the fact that seven electric motors and a variety of gears and valves are required to operate the making movement of the screen. The screen area then can vary of 100 to 150 ft. in length and 10 to 12 ft. in height. The same width is maintained in both directions. The screen is supported by a system of tubular steel framing which is fixed to the walls of the auditorium. The screen is supported by a system of tubular steel framing which is fixed to the walls of the auditorium.

REVAL SOUNDS If it is at the moment, only one speaker is used. The speaker is used for the effect which is added to the picture. The speaker is used for the effect which is added to the picture. The speaker is used for the effect which is added to the picture.

EXTRA CHANNEL The operation of the screen is controlled by a system of tubular steel framing which is fixed to the walls of the auditorium. The screen is supported by a system of tubular steel framing which is fixed to the walls of the auditorium.

The diagram shows the two screen positions.

Human hair governs conditioning system

Eighty different have been built into the ceiling of the auditorium and from these 30 or 40 of conditioned air per person will be pumped into the auditorium every minute. The horizontal layers of the air-conditioning plant. Through these airless filters which they are packed with fine mesh of human hair. MOORE WINS IN FIRST ROUND

Referee stops uneven contest to save Neill

DAVEY MOORE, of America, the world featherweight champion, took only two minutes and 40 seconds of the first featherweight championship, Bobby Neill, at the Empire Pals, Wembley. The referee stopped the contest before the first round had been completed, because the Scot, who had been down five times, from further punishment.

Neill's champion started slowly but after two minutes had gone he launched a tremendous right which sent the Scotsman to the boards for a brief respite.

Moore was staggered by this devastating punch and postponed his return to the ring unassessably by the American who was dropped by another tremendous right which sent him to the floor for a second time.

Moore's second round was not so successful as the first. Neill was again on his feet and the referee stopped the contest before the first round had been completed, because the Scot, who had been down five times, from further punishment.

Ceremonial visits to City Hall and Parliament Buildings

SIR PATRICK SWORN IN AS GOVERNOR

The new Governor makes the inspection of the grounds of the Court of Kenya, Mr. Justice Bhandari, in the grounds of Parliament Buildings.

PREMIER GIVES C.R.O. THIRD MINISTER

RECOGNITION of the growing importance of the Commonwealth Relations Office is seen in the new Ministerial change engineered by the British Prime Minister, Mr. Harold Wilson, under which the office has been elevated to a Cabinet rank. Mr. C. J. Abbot, former Minister for Overseas, has been appointed to the post.

Mr. Wilson's move is seen as a further step towards the strengthening of Commonwealth ties. It is also a reflection of the growing importance of the Commonwealth in the eyes of the British Government.

Beyan elected deputy leader

Dr. Beyan, a member of the Legislative Council, has been elected as the deputy leader of the Kenya African National Union (KANU). He was elected at a meeting of the party members held in Nairobi on October 22.

Hundreds watch ceremony at Law Courts

SIR Patrick Renison was yesterday sworn in as Governor and Commander-in-Chief of Kenya. The 20-minute ceremony was conducted from a dais, decorated with red, white and blue, in front of the Law Courts. Hundreds of people, including members of the public, were present to witness the ceremony.

Royal Salute

As the Governor took the oath, a 21-gun salute was fired from the Law Courts. The Governor then proceeded to the grounds of the Court of Kenya for an inspection.

The Governor's visit to the grounds of the Court of Kenya was a ceremonial one. He was accompanied by Mr. Justice Bhandari and other officials.

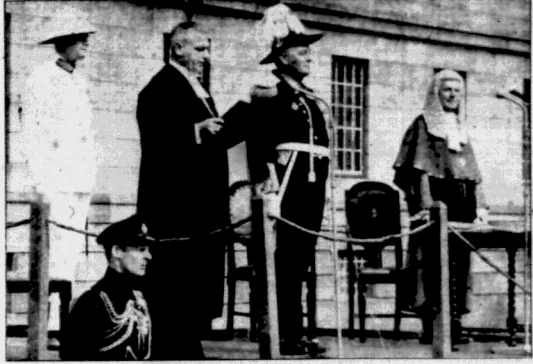

At City Hall

The Governor's visit to the City Hall was also a ceremonial one. He was accompanied by the Mayor and other officials. The Governor then proceeded to the grounds of the Court of Kenya.

State of Emergency

The Governor has declared a state of emergency in Kenya. This was done in response to the activities of the Kenya African National Union (KANU) and its supporters.

The new Governor, Sir Patrick Renison, stands in the dais at the front of the Law Courts, during yesterday's swearing-in ceremony. The Governor is surrounded by members of the Kenya Defence Forces.

No election in Kenya before London talks

THERE is no possibility of a General Election in Kenya before the constitutional talks to be held in London next year, the new Governor, Sir Patrick Renison, said at a Press conference at Government House, Nairobi, before his swearing-in ceremony yesterday.

Colonial Secretary, Mr. Lennox-Boyd, suggested a constitutional conference before the 1960 elections, he said. "If an election was held first the talks would be at a purely different stage and the new constitution to be adopted would have to come from the Colonial Secretary. The present invitation is for talks in advance of the election."

DATE NOT DECIDED

A date had been announced for the constitutional talks. Asked on what basis the representatives of the various parties would be selected for the conference, the Colonial Secretary said: "That is a matter which I shall have to discuss with my Council of Ministers. Our intention is to bring it forward and the Colonial Office has given its approval to the proposal."

The Governor's visit to the grounds of the Court of Kenya was a ceremonial one. He was accompanied by Mr. Justice Bhandari and other officials.

B.O.A.C. LOST £2,000,000 LAST YEAR

Sentiment disturbed on Stock Exchange

Costly strike by engineers

DURING the year ended March 31 last, B.O.A.C. incurred a loss, after paying interest, of £2,000,000 on its operations, compared with £2,200,000 the previous year. But, the corporation's annual report - published yesterday - says the result would have been about £1,200,000 better had not been the engineers' strike during October.

The report says the year was one of considerable achievement, with delivery of the fleet of long-range Britannias completed by the Company's flying service on the World Airways route to the West Indies and the first worldwide airlink to London and Johannesburg. Another success was that traffic revenue increased by 8.5 per cent, compared with the average of 5 per cent the last two years.

But the chief ailment should be introduced as a warning against the company's share price. It is reported that the report and the company's balance sheet would have been better had it not been for the cost of well-ordered competition, which has caused the airline to sell its own fleet at a loss of £170,000 since July 1958.

Chairman's hopes

In an interview on the report, the chairman, Sir Gerard de Gooijer, gave news of how the company had done during the first half of the current financial year from April 1 to September 30.

Passenger revenue had increased by 18 per cent and break-even financial profit, after provision for interest, may be £1,200,000.

But £1,000,000 less of more than £2,000,000, because of the world service. B.O.A.C. had lost £1,200,000 after the cost of the aircraft, which was £1,200,000 better than the same period last year.

TEACHERS WORK LONGER IN KENYA THAN IN U.K.

Letters to the Editor

A 55 year old has been employed teacher in England and Kenya. I feel I must take up the matter on behalf of those who, being Government servants, cannot speak for themselves.

Very recently I was signing the contract for my primary school in Kenya. I was told that the Government would pay me £100 per annum. I was told that I would be paid £100 per annum. I was told that I would be paid £100 per annum. I was told that I would be paid £100 per annum.

The attitude of the teachers, the attitude of the parents and although to be fair to the Government, I think they have been very generous in the way they have treated me. When I mentioned that I was going to leave the K.P.E. my reply was "We are sorry to see you go, but we must have you in the school."

JOHN WILLARD,
Nairobi, Oct. 25, 1958.

Broadcasting

Some of the programmes on the K.P.S. programme which I have listened to in the past have been of a high standard. I have enjoyed them very much and I have enjoyed them very much.

The certain went up and after perhaps five minutes, he judged his neighbour and himself. Each one of them, when the war began.

When the war began, they were in the same way. I know that they were in the same way. I know that they were in the same way.

For your correspondence, I am sorry that I cannot do more for you. I am sorry that I cannot do more for you. I am sorry that I cannot do more for you.

ever had to arrange a balanced programme of their work. It is not that they were able to plan anything. It is not that they were able to plan anything.

Then why do you give the K.P.S. a fair share instead of working out of the other side of the coin?

Too little spent, on agriculture

Reward in Mwanza bank raid now £1,000

TANGANYIKA police are now offering £1,000 reward for information which will lead to the arrest and conviction of the persons who took part in the Mwanza bank robbery. When the robbery was discovered, just three days after the bank was closed, the reward was £500. Since then the reward has been increased. It is expected that the reward will be paid within a few hours after the robbery is solved.

Thicker cover-up

It is thought that the cover-up of the robbery is thicker than ever before. The police are now offering a reward of £1,000 for information which will lead to the arrest and conviction of the persons who took part in the robbery. The reward is now £1,000, up from £500. It is expected that the reward will be paid within a few hours after the robbery is solved.

Articles recovered

A batch of 100 articles of clothing and other goods were recovered from the Mwanza bank robbery. The articles were found in a house in Mwanza. The police are now offering a reward of £1,000 for information which will lead to the arrest and conviction of the persons who took part in the robbery.

WITCHCRAFT AT NIKA ALLEGED

The chief of police in Mwanza has alleged that witchcraft is being used to hinder the investigation of the Mwanza bank robbery. He said that some of the persons who took part in the robbery were using witchcraft to hinder the police.

INDIA ANXIOUS OVER LADAKH 17 killed in clash with Chinese

INDIA is moving troop reinforcements to an outpost in Eastern Ladakh near the scene of last week's clash with Chinese troops. This announcement from New Delhi yesterday followed a statement by Mr. Nehru, the Indian Prime Minister, that the border dispute with China gave "a lot of anxiety."

Seventeen Indian border police were killed in the clash. Three more were seriously injured and several captured. India has demanded the return of the prisoners, as well as for the withdrawal of Chinese forces from Ladakh and reserved the right to claim "adequate compensation."

Mr. Nehru said he did not think there would be war with China. "We have to act with restraint and prudence and not be swept away by emotion," he added. He warned against "hate talk" by people who vociferously alleged that China "is not to be trusted."

Threat to relationships. He told a Congress workers' meeting that the clash in Ladakh had further spoiled the relationship between India and China and it was bound to have adverse effects on other parts of the world.

He said that the Government was not taking any steps to improve relations with China at present. "I am sorry about this, because it is clear that if one tries to adjust, it will lead to that intended."

It is quite clear that our country is not one which will go down before anyone in the world because of threats or because of any fear.

India claims the area is 10, 50 miles inside the Indian frontier as marked by the 1954 agreement. But the Chinese who claim 4,000 square miles of Ladakh in their territory, and have recently built a road to the area within their frontier.

The Chinese are believed to have a large military base with an airport, located in western Ladakh, about 60 miles south-east from the area in dispute.

Mule trains. Further reinforcements will be flown to the area in mule trains. The Chinese are believed to have a large military base with an airport, located in western Ladakh, about 60 miles south-east from the area in dispute.

Measures to be reported in the Indian press. The Chinese are believed to have a large military base with an airport, located in western Ladakh, about 60 miles south-east from the area in dispute.

Mr. Nehru said that the Government was not taking any steps to improve relations with China at present. "I am sorry about this, because it is clear that if one tries to adjust, it will lead to that intended."

United Party's policy on land defended

UNITED Party members had agreed with the statement by the European Elected Members Organisation last February that control of land should be on the same basis for all areas, the leader of the party, Group Capt. L. R. Briggs, confirmed yesterday.

He pointed out, however, that at that time all Members were agreed that control should rest in the hands of the landowners and should not be subject to the power of the Government or central boards, except that he should have powers in certain circumstances.

The United Party's policy on land was defended by Group Capt. L. R. Briggs, leader of the party, at a meeting of the party's Executive Committee in London yesterday.

Mr. Briggs said that the party's policy was to have control of land in the hands of the landowners, and that the Government should not have the power to take land away from them.

Warning against spread of Uganda trade ban. The Foreign Office has issued a warning against the spread of a trade ban on Uganda, which has been imposed by some countries.

PEOPLE of BUNDA in Uganda's Eastern Province have been warned against the need to resist any attempt to extend the trade ban from Buganda to that district.

The warning came as a letter signed jointly by the Uganda Minister of Home Affairs and the District Commissioner of BunDA.

It referred to recent "disturbances" in the district, and stated that the Government was determined to maintain law and order in the area.

It urged the people of BunDA to remain calm and to avoid any actions which might lead to further disturbances.

REVENUE LOSS OFFSET BY SALARY CUT. The Government has announced that it will cut the salaries of its officials to offset the revenue loss caused by the abolition of the Income Tax.

Mr. George S. Stanger, Minister of Finance, said that the Government was determined to maintain the stability of the economy.

He said that the Government was determined to maintain the stability of the economy, and that it would take all necessary steps to do so.

Practical measures. The Government has announced that it will take practical measures to reduce the cost of living, including the abolition of the Income Tax.

IRRITATED LISTENERS

WE have heard various complaints against the K.R.S. programmes. A couple of your correspondents have also tried, not without success, to defend the commercial programme.

This is all very well, but it is not the quality of the programme which is the issue. It is the manner in which it is presented that is the problem. Flick-knife complaint: School head to act

PARENTS of pupils at the Delamere High School for Boys, Nairobi, are to be urged by the headmaster, Mr. I. G. Mackay, not to permit their sons to possess flick knives. The plea follows a complaint made to the police and to the school by one mother whose son and another boy had used their pocket money to buy such knives from a Nairobi shop.

Mr. Mackay himself had obtained the school allowed to sell the knives to young children. She said she would like to see the law against the sale of flick knives.

Chamber says present trend 'way to economic chaos'

One basis for whole area proposed

COMMITTEE TO STUDY LAND PAPER

Nairobi, October 26.—The Chamber of Commerce passed last night a resolution which urged the Government to intensify its efforts to promote cooperation between the territories for the formulation of a plan for the development of industry on an "East African basis".

The resolution added that unless the present trend of territorial industrial development was reversed, "economic chaos" would result.

Mr. G. S. L. Adhemar moved the resolution on behalf of the management committee. He urged the Government to intensify its efforts to promote cooperation between the territories for the formulation of a plan for the development of industry on an "East African basis".

Frank Price asks:
Have you been to an Allsopp's beer-tasting?

At 10 o'clock, toasting health and good cheer, the first of the evening's festivities began. The first toast was to the health of the guests. Then, after a few minutes' rest, a new and interesting feature was introduced. The guests were invited to taste the famous 'Allsopp's' beer. The choice of the 'Allsopp's' beer was made by the guests themselves. The first to taste the beer was the author of the article. He found it to be a most interesting and refreshing beverage. He then invited the other guests to taste it. They all found it to be a most interesting and refreshing beverage. The evening's festivities continued until 11 o'clock. The guests then retired to their rooms. The author of the article was most pleased with the success of the evening's festivities. He hopes to repeat the experience in the future.

New steel furniture brightens offices

By JOHN DEED

ALL over Nairobi tall modern buildings are rising with their upper floors of carefully designed and decorated offices calling out for brand-new furniture and equipment.

So the designers in office furniture are busy today in a room rather than in a workshop. The furniture of the past few years, wadded behind a yard fence or discarded in some remote corner.

Decorated offices are even painted in new of the handling of the furniture.

For though we may have heard of the new furniture, it is not so much the furniture that is new as the furniture that is new.

OLD-FASHIONED

I remember a roll-top desk at which my father used to sit. He looked very impressive. It was probably the effect he desired. But sometimes I feel that the roll-top desk is a bit old-fashioned. It is a bit old-fashioned. It is a bit old-fashioned. It is a bit old-fashioned.

What is very different today is the new furniture that is being designed. It is a bit different. It is a bit different. It is a bit different. It is a bit different.

Here are some desks in a top meeting. They are new. They are new. They are new. They are new.

They are new. They are new. They are new. They are new. They are new. They are new.

They are new. They are new. They are new. They are new. They are new. They are new.

INSECURE AGE SEEKS FUTURE IN THE STARS

By CHARLES CURRAN

Few of us can resist reading those magazine corners where our fortune for the coming week is foretold. In the vaguest possible terms according to our date of birth, or our stars, assessed according to the sign of the zodiac under which one was born.

Most of us, however, do not take these seriously, and, having compared our plans with the forecast, promptly forget the whole thing.

But having this sort of interest in the stars, a few friends have asked me to write a series of articles for them on the subject of astrology.

A friend will ask: Does my horoscope say that I shall be successful in business? A girl who cannot make up her mind which of two suitors to marry asks for horoscopes and says: "Then the other fellow is a better prospect than I am."

Half Believing
The fact is, however, that astrology is a very ancient science. It is a very ancient science. It is a very ancient science. It is a very ancient science.

Queen's Speech opens new session of Parliament WEALTH VALUES UPHELD

Government resolved to foster ties

THE Queen told Parliament yesterday that Britain's new Conservative Government would foster "the spiritual values which formed the common heritage of the peoples of the Commonwealth."

Opening the new Legislature in a speech delivered for her in her absence by the Lord Chancellor, Viscount Kilmer, the Queen added that the Government would also seek to develop the material resources on which the standard of living of Commonwealth countries must depend.

The Queen continued: "The Commonwealth Education Conference which met last July made a number of recommendations designed to forward the benefits of improvement of conditions of life in the less developed countries of the world would remain an urgent concern of the Government. It would promote economic co-operation between the nations and support plans for financial and technical assistance."

U.S. TRADE BALANCE IN THE RED

The United States is appearing before the contracting parties to the General Agreement on Tariffs and Trade as a "deficit" nation.

The U.S. Under-Secretary of State, Mr. Douglas Dillon, attended the 11th session of the conference in Geneva on Monday. He is expected to leave for London on Tuesday for something like a week. He is expected to say that all discriminatory trade restrictions should be abolished "during the next few months".

Mr. Dillon's remarks were generally regarded as a sign of a "deficit" nation. He said the United States was "running a deficit" in trade of goods and services at a rate of about \$1,000,000,000 a year.

But the surplus has not been completely covered. American payments to the rest of the world are still in excess of what the rest of the world pays to America. The deficit is expected to be about \$1,000,000,000 a year.

Steady recovery

It is hoped the contract would mean a steady recovery in prices and a steady recovery in the economy.

Dollar imports

The dollar imports are expected to be about \$1,000,000,000 a year.

ONLY THE FORD FAIRLANE GOT THROUGH!

* THE WINNING FAIRLANE IS NOW ON VIEW

THE FORD FAIRLANE FITTED WITH Firestone... Firestone Tires and Country tires - fitted all round - proved their outstanding reliability in this toughest-over-hilly - hugging The Ford Fairlane to victory against the worst that the weather could offer and able living up to the toughest slopes - PROVED BY PERFORMANCE

Twenty-two cars of all makes, both large and small, left Mau Narok at the start of the Rift Valley Motor Sports Club Annual Rally. Conditions were the worst ever - heavy rain had turned most of the 600-mile route into a quagmire.

The Ford Fairlane finished completely undamaged and won the overall prize, the class prize AND the Concours d'Elegance trophy. Vic Preston said afterwards: 'I've never known conditions so bad in a rally of this type.' This latest victory, following the success of the Fairlane at the Nakuru Races, proves yet again that for sheer brilliance of performance there's nothing to touch the Ford Fairlane - with new Interceptor 300 engine and dual range automatic transmission.

NEW ERA IN SPACE FLIGHT

Russian tells of science feats

UNPRECEDENTED achievements of Soviet science and engineering gave every ground to regard the carrying out in the beginning of a new era in man's conquest of outer space. Soviet Parliamentary deputies were told in Moscow yesterday.

The statement was made by a Deputy Prime Minister, Mr. Alexei Kosygin, who is also Chairman of the State Planning Commission.

Mr. Kosygin, addressing both Houses of the Supreme Soviet, the House of the Union and the House of Nationalities, went on to claim that Mr. Khrushchev's American satellite was not participating in any outstanding event of our time.

He stressed particularly that through peaceful policy and diplomatic progress, we are meeting the weakness of our Soviet Union was once again strengthening every day.

Mr. Kosygin said that he gave a standing ovation by applause when he entered the Chamber for the opening session of the Soviet Parliament.

Settlement for £3,570 accepted by widow

A WIDOW whose husband was killed in an accident in 1955, by a car driven by Mr. Michael Hunsford's chauffeur had reached the compensation of £3,570. It was stated yesterday.

The settlement was announced by the Public Health Committee in a meeting held at 10 a.m. on June 13, 1959, on the Nairona Building, 111, Upper Street, London.

The widow, Mrs. Catherine Hunsford, received the settlement arising from the death of her husband, Mr. Michael Hunsford, who was killed in an accident on June 13, 1955, at the corner of Nairona Way and the Victoria Road.
