

STUDENTS ELECT NEW BODY

By **NATION** Reporter

UNIVERSITY of Nairobi students have formed a new students' representative body following a week of hotly-contested elections.

Polling for the newly-formed Nairobi University Students Organisation took place on Friday and brought an end to three years of students being unrepresented at the University.

Hundreds of students yesterday converged at "the box" — women's halls of residence — for the swearing-in of the new NUSO chairman, Mr. Oluoch Obura, a third year literature student who beat three rivals. Gichuki Tuesday, Aura wa Amboye and Gatheru Muthee.

The new office bearers were introduced to the students according to students' halls and faculties they represent. These new representatives are from the main Nairobi University campus, Kabete, and Kenyatta National Hospital medical students. The Uganda and Tanzania students' representatives were also introduced at the function.
