

# Students report in

By **NJOROGE wa KARURI**

MORE than 200 students from the University of Nairobi who live in Nairobi yesterday morning reported at Kibera chief's centre.

Some students interviewed by the *Nation* said they were asked where they were on the night of July 31-August 1, their room numbers at the university halls of residence and their movements on August 1.

After being questioned they were asked to sign a form and then told to go home.

The university was closed immediately after the abortive coup on August 1. The students were then ordered to report to their respective chiefs.
