

Department of Sociology and Social Work Revamps its Library

The Department of Sociology and Social Work's library has been revamped into a library for its graduate students. With funds from the DSP allocation from the tuition fees paid to the University of Nairobi by Kalamazoo College Students, the Department installed new reading space with computer compartments with a capacity of 13. The Department also purchased 13 chairs and in addition had the floor sandpapered and polished. The Department plans to purchase 13 computers three of which will be installed with special software for the visually impaired. Soft copies of thesis and project papers from the Department will be uploaded in all the computers thereby making literature review more efficient. Ms. Narda McClendon Assistant Director, Center for International Programs, Kalamazoo College visited the Department in December 2013.
