

The Master Of Medicine Surgery year 2 students recently completed a two day Basic Surgical Skills Course at the Nairobi Surgical Skills Centre, Chiromo from the 8th and 9th of April 2015.

This is a regular raining course the department offers to this group of students every year. The course is fairly similar to that offered in other courses and included gowning and gloving, instruments handling, knot-tying , suture technique, gut anastomose and tendon repair . This year there were 24 participants and two faculty from the department, namely Dr Daniel Ojuka and Dr Wambugu Peter
