Project grantees hail from various countries of Africa:

Cameroon	2 participants
Ethiopia	3 participants
Kenya	5 participants
Mozambique	1 participants
South Africa	2 participants
Uganda	1 participants

The project team organizing the workshop consist of

- [Professor Timothy Waema](#)
- [Dr Laban MacOpiyo](#)
- [Mrs Anuradha Khoda](#)

The workshop was officially launched on Monday by the acting Vice chancellor University of Nairobi, Prof. Peter Mbithi.

The overall aim of the training workshop is to enhance research and publishing capacity of grantees under the [ICTWCC](#) programme.

The courses are expected to enable participants competently achieve the following specific objectives:

For Climate Change and Scientific Data Management Course

1. Understand concepts of Climate variability and change modelling at various time and space scales
2. Understand the approaches to regional and local climate studies based on existing climate analysis methods
3. Plan either an experiment or a survey efficiently
4. Understand the various biometrical components pertaining to data collection, design and analysis of experiments/surveys
5. Apply correctly various statistical techniques at all stages of research and effectively report the results

For Effective Scientific Communication and Publishing Course

1. Undertake Scientific writing and publishing
2. Perform Graphical methods for data analysis
3. Oral Communication and presentation
4. Proposal writing and grant management
5. Web 2.0 Applications

Similar workshops will take place in Asia and Latin America regions.

Asia workshop will be held from the 28th March to 4th April in Hanoi, Vietnam at the Asian Management and Development Institute ([AMDI](#)).

Latin America workshop will take place on the 22nd April to 2nd May in Costa Rica at the Tropical Agricultural Research and Higher Education Centre ([CATIE](#)).
