

The Department of Surgery recently received a donation of various Audiological equipment for teaching purposes. This donation was made by Dr. Cherilee Rutherford, (Lecturer and Director of the Msc. Advanced Audiology and Audiology Short Courses at the University College London Ear Institute).

The Department has collaborated with UCL for some time and been able to benchmark our teaching with them. During this time one of our lecturers, [Serah Ndegwa](#) (Audiology Course Director) visited the UCL in November 2013 to familiarise herself with their training methods.

The purpose of Dr Rutherford's visit was to collaborate with us in the revision of our diploma in clinical audiology curriculum.

Before she left on 14th February 2014, she presented a donation of nine Oscopes and a Diagnostic Audiometer from Sound Seekers (UK) and an Auricle equipment from the University College of London, Ear Institute. Each of the five students in the current academic class was presented with an Oscope. The donation was received on behalf of the University by the acting College Principal [Prof. S.M Bhatt](#).
