

Dr. Dennis Garrity giving a seminar on 24th October, 2014.

Dr. Dennis Garrity delivered a Seminar on Creating an Ever Green Agriculture in Africa for Food Security and Environmental Resilience at the Wangari Maathai Institute for Peace and Environmental Studies on 24th October, 2014.

Dr. Garrity is the Drylands Ambassador, UN Convention to Combat Desertification and Distinguished Senior Research Fellow, World Agroforestry Centre, Nairobi. He is a systems agronomist and research leader whose career has been focused on development of small-scale farming systems in the tropics. He was formerly Director General of the World Agroforestry Centre. Dr. Garrity is currently leading an effort to reinvent agriculture in the 21st Century by deploying unconventional ways to build more productive and environmentally sound farming systems through a global Partnership to Create an Evergreen Agriculture. He also chairs the Steering Committee for Landcare International, a world wide effort to support grassroots community-based natural resource management.
