

EIE staff, Mr. Tom Oloo, Mr. Bonface Munyole and Ms Celestine Kavindu visited Elettronica Veneta Company, Italy to assess and sample test the equipment being purchased through MOEST/ADB projects.

Elettronica Veneta won the tender to supply the department with equipments for education and research. The process is at packaging stage and is expected to be here by end of July, 2014.

During the visit, the team managed to visit the 2nd oldest University in the world, University of Padova founded in 1290. The team visited in particularly the department of Industrial Engineering. They are doing a lot of research, most of which are sponsored by various companies.

The team also managed to visit University of Venice and the tourist town of Venice.
