

**2013 Tunza International Youth Conference
(February 2013)**

Students from the Department of Geography and Environmental Studies participated in the 2013 Tunza International Youth Conference held in UNEP, Nairobi, Kenya. The 2013 Tunza International Youth Conference (10th to 14th February) provided a platform for over 300 youth from 100 countries across the globe. The youth came together to exchange information on best practices for sustainable development. The conference provided a forum in which several issues were discussed: the role of youths in entrepreneurship; sustainable development in consumption and production; forest conservation; waste management; water resources management; state of environment; and youth governance. The coordination of participation in this event was made possible by the University of Nairobi Geography Students Society (UNGSS).
