

DoPPP participates in the curriculum review process

The Department of Pharmaceutics and Pharmacy Practice recently participated in the curriculum review process at a week long meeting held at Maanzoni Lodge in Machakos County.

The DoPPP was led by the chair, Dr Shital Maru and all thematic units within the department were ably represented. The meeting looked at both undergraduate and postgraduate curriculums in a bid to enrich the learning experience and to keep the School of Pharmacy as the leader of the pack in pharmacy training within the country and the East African region at large.
