

CEES Fresher Registration Exercise Continues

The University of Nairobi first year's registration exercise for 2015/2016 student is ongoing. This continuous three-day-exercise will see over 3500 students, both regular and module two admissions, getting registered in various colleges.

CEES has registered more than 600 freshers so far.

The registration exercise runs across University colleges such as College of Agriculture and Veterinary Sciences (CAVS), College of Health Sciences (CHS), College of Architecture and Engineering (CAE) and College of Education and External Studies (CEES); with exemption of College of Humanities and Social Sciences (CHSS). CHSS will officially admit its new entry students early next year.
