

## **New weekly Hand Surgery List**

The Department of Surgery wishes to announce the commencement of a weekly hand surgery list at the Kenyatta National Hospital.

This list will be held every Friday, with the first having been held on 06/02/2014. This list will be a great step forward in the further specialisation of surgical services in this hospital and a bonus to the large number of patients with hand injuries.

The list will be run by Prof. S. Khainga, Dr. F. Nangole, Dr. L. Kahoro and Dr. A. Tanga.

The list will enhance training of senior house officers rotating in in plastic and reconstructive surgery and orthopaedic surgery.

Our congratulations go out to the plastic surgery team for this achievement.
