

ITM Colloquium 2014

Dr. Salome Bukachi attends the ITM Colloquium 2014

Dr. Salome Bukachi (left) and a friend posing besides their posters at ITM, Antwerp

Dr. Salome Bukachi made a poster presentation *“Linkage between livelihoods, wealth categories and vulnerability to zoonotic diseases in arid and semi-arid lands of Kenya”*, at the Institute of Tropical Medicine (ITM) Colloquium 2014 held from 24-27th November 2014 in Antwerp, Belgium. The Colloquium’s theme was, *“The Human Factor: Social sciences in global health research”* and its objective was to show how the collaboration of the social sciences with other health sciences can improve global health research.
