

UoN-KNH SPINE SURGERY PROJECT FEBRUARY 2015

Nuvasive spine surgeons visit the orthopedic department

Dr. Ombachi , Dr. Gakuya , Dr. Museve with the assistance of registrars and The NuVasive Spine Foundation (NSF)-surgeons completed a successful spine Surgery project from 23rd to 27th February 2015 at Kenyatta National Hospital (KNH) in Nairobi, Kenya

The mission trip focused on surgeon training and deformity correction. These surgeries were made possible by an extraordinary surgeon team that included:

To further develop a sustainable spine program at KNH, the U.S. surgical team also led a multi-course training for local surgeons and nurses. Surgeon training ensures that quality spine care continues to advance in communities around the globe.
