

## **ATLS Promulgation**

In the efforts to ensure outcomes in Trauma surgery, the surgical society of Kenya in partnership with the Kenyan Red Cross Society invited the American College of Surgeons Committee on Trauma to promulgate the advanced trauma life support in Kenya. This will ensure that all the training in Kenya on advanced trauma life support are standardized wherever and whenever they are given.

The Department of surgery have been involved in the planning and the implementation of that process through the thematic unit head for general surgery, Dr Githaiga as the member of the stakeholder committee and Dr Ojuka who is the Country Course Director designate.

The site visit took place between 2<sup>nd</sup> and 3<sup>rd</sup>, while a demonstration course directed by Prof Gomez from Indiana University was carried between 3<sup>rd</sup> and 4<sup>th</sup> of March 2015.
