

On March 7<sup>th</sup> 2015, in Eldoret at the Noble Hotel, the Wound Care Society of Kenya under the auspices of Kenya Society of Plastic Reconstructive and Aesthetics Surgery and University of Nairobi Department of PRA, the 3<sup>rd</sup> annual care conference was held in conjunction with the doctors at Moi Teaching and Referral Hospital.

One of the aims of the meeting was to address improper wound management often leading to wounds converting to chronic wounds, an enigma to treat. This is in line with the objective of the Wound Care Society of improving care for patients with wounds.

Department was represented by Prof. S. Khainga, Dr. F. Nangoe and Dr. Wanjiru Karanja. Our students who made presentations included Dr. Biribwa amongst others. Also in attendance were doctors and nurses from different hospitals in the country Include the hosts from Eldoret .

The conference was sponsored by [GSK \(Glaxo Smith Klein\)](#) and Haileys Kenya

The conference was resoundingly successful and the participants expressed gratitude and gave feed back to that effect .
