

October 2014- Environmental tree planting

In the month of October, NØASA teamed up with Jambopay, Macha New Year festival executive organizers, Beryll foundation and popular media personalities in a tree planting campaign in Chiromo campus.

The students had a field day mingling with the celebrities who included Nonny Gathoni, Mejja and DJ madtraxx as they planted 60 seedlings donated by the Beryll foundation.

Representing the school of Mathematics was the Director, Professor Weke, who joined the students and guests in giving back to Mother Nature and helping propagate the trademark flora around the campus.
