

## Actuarial opportunities

**N**ASA held the first actuarial professional talk of the year dubbed “**Actuarial opportunities in investment**”.

The event brought together guest students from **JKUAT, Maseno, Daystar and Jaramogi Oginga Odinga Universities** in an effort to seek insight from industry players on non-traditional markets for graduate actuaries.

The speakers, who included Ms Gauri Shah (FIA, PWC London), Ms Lucy Muthoni (capital markets authority) and Ms Hope Gitangu (Consultant), gave a wide and rich array of insight and advice on alternative markets in oil and gas, telecommunications and government healthcare. The talk also involved a dissection of the upcoming derivatives market and the role of actuarial graduates in growing the capital markets. Ms Shah also delved into soft skills and HR dynamics required of job applicants in a multinational firm.

The talk was in line with the NøASA objective of holistic development in a dynamic industry.
