

## ACES Joint Master Degree Programme in Scotland

New Erasmus Plus Joint Master Degree in AquaCulture, Environment and Society (ACES) is due to start in September 2015.

Students will get the opportunity to be taught by a team of international experts, the chance to study **in three fantastic locations** throughout Europe and to gain the skills required to address issues of:

- ✓ global importance
- ✓ food security through sustainable aquaculture production

**Over 10 full Erasmus Plus Scholarships will be awarded each year to the top applicants.** These scholarships will cover tuition fees, living and travel expenses.

Deadline for applications for Scholarships - **20 February, 2015**

UNU-INWEH is a partner with the Scottish Association of Marine Sciences (SAMS) in implementation of this programme.
