

## Summary of the two notes of this year, that are on some forms of corruption and madness; and about false Christians.

**Caution1:** The contents of this note, even the number of pages, are not a hint and / or proxy of any kind.

**Caution2:** New notes that suddenly circulate in the electronic devices unofficially are usually the stolen ones. That is usually so, because of electronic surveillance.

**Caution3:** Colours in the photo, except the black one, are that way because of the technology.

THE NOTE OF CORRUPTION HAS SOME FORMS OF THAT EVIL THING, AS APPLIES TO MANY PEOPLE OF THE WORLD. Here is the summary of it.

- a) Corruption, even, of hints can never yield any good to the culprit and to the environment. There should be no “deals” in any legal thing of personal nature and for that same person. The same should apply to anything between two people, in a legal mutual agreement on anything, in any organisation, or outside it. The same should apply to details of relatives. This is even in a case where laws of countries require such details. In this note, “deals” is used in a bad way to mean any hidden agreement, not supported by laws of any ruler-ship, between two parties. Deals, even of hints, increase uncertainty in the world and corruption. They also bring overheads, in the number of people to seek consent from, for anything;
- b) There are patterns of hints and / or proxies by people of the world to others, even to Christians. There is no need to obey such corrupt people of the world. It only makes the world worse, than it is now;
- c) **There have been wrong hints against me and my personal details. Such have been used by leaders of one “country.” Those leaders have destroyed their “nation”, because of their lies and the lookalikes of them.**  
The current “leader” even confuses my personal details with those of others. Further, one of his official security people also called me a terrorist leader, over a phone conversation. The “leader” supposedly killed that terrorist of pink colour, from the Middle East, in the month of April / May of the year 2011 C.E. It is now open that this “leader” knew of hint to me. He does nothing when I complain about it.

They claim that it is because I do not support this “leader.” However, I am a person of a minority group. Thus, there is no political help can I offer a person of a majority group, in any country. It means that person of a majority group, in that country is using my identity for his political survival.

Later, I heard that the same “leader” is looking for me.

So, which is which? Is that one, a leader, or a leader of a terror organisation?

These two even think that I should marry any one of the “popular” lookalike prostitutes, just for them to stay in power. This is the wrong way of acquiring power in the world. It is human trafficking.

There is also another “leader” who was there in that country, in the nineties. He also, wrongly, used my identity as a hint, by using women-prostitutes, even of my age, as if it was me. I was only recently, informed of it. He also used sex as hint, to wrongly, suggest that one use it to gain power in the world. This is also a mental illness: confusing identities of men and women. His so-called family must be very careless and wicked people, for supporting such a “man”, without giving him medical attention. They are also, not good for leading anyone. They are just liars, impostors, and gangsters. The same man also has lookalike actors. Therefore, he is an impostor by all standards. He therefore destroyed his nation completely, by using sex as a hint. This way, he encouraged “deals.”

Now those thieves, through violence, are after destroying my small tribe and me.

These “leaders” of that country are mentally ill, and cannot really lead anyone.

**This thing should never be there for a nation, which says that they trust in God;**

- d) There have been mysterious deaths to many people. In the county of my birth, which is in this country, it is genocide. Nobody has given explanation to such a thing. This means that there are many incurable liars in ruler-ships. Those leaders are then responsible for such;
- e) There is love of only money by some rich country in the world is a wrong thing. There are bigger things than money, such as godliness, justice, truth, and honesty, as God defines them. Such bring peace of God, to anyone and to the whole world;
- f) There is mixing meanings of words and letters, in that “richest country,” even in languages of other countries. This is madness;
- g) **Everything must have a unique, hidden identity for it to exist on its own. Otherwise, it just makes the universe not possible to be there. Therefore, I cannot be a certain dead old man. He died and went with his identity.**

**Further, my identification documents are still with me. That dead old man and his “family” have never checked my origins. Any claims now are lies;**

- h) This is on using lookalikes and / or personal details, as hints and deals, to elect leaders. The victims are from any part of the earth and are people of little financial resources. It has happened to my maternal grandfather, and my father, and me, in that richest country. It has happened to my mother, in other countries, just because of the name of the word “mother” in my small tribe. It has happened to some other relatives of mine. All such leaders were impostors, liars, and human traffickers, in the world. The same applies to businesses of the world that have also used the details of the same relatives of mine, for advertising;

- i) There is a caution on sharing names and that such a trait is not enough to treat such people as the same, in this world. Every person must show goodness on their own;
- j) There is a caution on leaders of strategic levels in ruler-ships and businesses, in the world. This is that two people cannot be giving strategic direction to an organisation, on the same unique issue, at the same time. Therefore, having godfathers and referees from “deals”, for strategic jobs, is not the right thing. A strategic leader must work on his or her own, to provide unique strategies for the organisation. There is need to re-think the nature of such jobs, for those human traffickers and thieves of identities;

**k) There is a caution on the fact there is no formula for sharing money with those who have stolen identities of others.**

**It is because of the corruption and lies, by those thieves of identities. They, for example, follow me around and my small tribe, over monies, which is not in our possession. They should just check our lives.**

**I mean, you cannot have tonnes of money and refuse to spend it, or refuse to use it to defend yourself against your enemies.**

**Therefore, the excuse of killing my relatives and my tribe for money is just not part of any truth. It is because they have stolen our identities. They fear being caught by others in the world. They therefore, want me to join them;**

**l) Money cannot therefore, pay for everything;**

**m) There is a caution on nature of leaderships. There cannot be general leadership in any organisation in the world. Every leader must have deep skills for the organisation function, in a major sub-function- which they head, in their jobs;**

**n) There is a caution on electronic surveillance. It is being misused by the richest countries. They can use it, the right way to control businesses, which steal electronic details of others. However, they ignore such things, or do it deliberately, to destroy certain people, such as me.**

**This technique is also being used by those who get access to such electronic resources of others, to wrongly, market themselves in the world. For example, I write on unique topics for the whole world, as God leads me. Yet, the same documents are always appearing as though they are written by members of large tribes of this country. It is because they have access to electronic notes and books of others. Yet, they forget, that because of their love of money, they cannot serve God, in any level of the Spiritual ranks.**

**This technique should not be used without rules from God. Their workers are mostly corrupt and could use wrong settings. Further, the tiny particles are also in use by the invisible, spiritual ruler-ships. It is not a correct thing to use anyhow;**

**o) There is a caution on my books. They are illegally accessed by many people, using the wireless electronic surveillance systems in electronic notebooks. I have not had any support from anyone on such work. This is from August 2012, C.E. There are five main books, on unique topics of godliness. This includes evidence of God. This includes the issue of spirits and souls, and how lack of such knowledge is being used for human trafficking, of even confusing dead and living people.**

This also includes the issue of Christ-led leadership. There are also other unique topics. These are all unique topics for all humankind. They are supposed to be written by very few top workers of Spiritual matters, for all humankind. However, in my case, these books are shared to the world, without my consent;

- p) There is a caution on fulltime workers of Spiritual matters and how most of them, misuse those titles and jobs. They do so, because they are not appointed by God. They just appointed themselves. They should work in private and not advertise themselves to the world, such as in those communication organisations of the corrupt world. Their work is also, NOT by using hints of details of other Christians, and preaching notes that they have stolen from others, even on television stations. They also, always, want to be connected to the dirty world;
- q) There is a caution on many other dirty hints to me. It is for those corrupt leaders in the world. All those, corrupt and using such hints are mentally ill people. This is whether on the roads, on television stations or elsewhere;
- r) I am not a “godfather” to anyone in business, or in politics. Such a thing is not possible, anywhere. It is not possible at strategic levels of any organisation. Nobody can manage affairs of any ruler-ship or organisation on his or her own. Therefore, a “godfather” cannot be of any use to anyone.

THE NOTE ON FALSE CHRISTIANS IS ALSO SUMMARISED HEREAFTER.

- a) This is for those forsaking God for big monies of the world. This is especially, by those who used to say that they are Christians, and now they are otherwise. Christians only invest in the world at their own risk. This is even if they are closely related to the world, because of the hints and / or proxies of the corrupt people;
- b) This is about belonging to groups, more than to God. They should also not do so, because of human traffickers.  
There are also great people of the world threatening me. They said that they are Christians, yet they love the world more than they love God. They also, have wrongly, used my identity. I have talked about them, under the part of corruption. Taking oaths is usually for purposes of belonging to groups.  
Nobody should make group decisions based on support from immature Christians, of minority groups. Immature Christians do not fully know the voice of Jesus Christ. They are also having many personal hidden sins, most of the time. A mature Christian should avoid “political parties” and “elections.” They should also avoid useless groups, such as congresses, with no true Christ-like leadership.  
Thus, I have put my life on earth, at risk, by not working with those who just dream about money. It is for the sake of other humankind all over the world;
- c) This is about those confusing others over the issue of “Christian nations.” There is really no model Christian nation on earth. Here are a few traits of any such. There should never be “elections” for Christian nations. There are no “elections” to any office for Christians, even for them, to the world.

If any such one is forced to such a job, then, they had better consider giving up their lives. Such positions are not worth it for Christians. They only increase corruption. Christians should be examples of goodness from God to the others, on their own. In any case, no Christian should compete with any other person for a job in the world. Such a scenario only increases wars that God does not want for any humankind. His words tell us that God is a God of peace. A Christian nation, can however, also have security workers for internal uses and for external wars. God provides talents for people of a god-fearing nation. This is if all or most, such people agree to follow God.

Thus, there is a Christian nation is built on love of God, by each one and for each other, and talents on each one, from God. It is not capitalism, nor socialism, nor communism.

Christians should be people of no sins. Such are as God defines them. This is for groups or for personal, open sins. They should strive to be people of no sins in their minds and hearts. These are the first building blocks of a Christian nation;

d) This is on organisations of LEVEL ELEVEN to THIRTEEN of service.

There are no model Christian organisations, in these times.

I was to start an institute to manage the unique book on “The Evidence of the God of the Christian Bible.” It is the only book, ever to be done by only one humankind, even, from Adam of the Christian Bible. That one humankind is me. It is rightly so, because of how God does such things.

I was even willing to work with some very few (maybe less than ten) ruler-ships, with them as junior partners. Such have the right traits before God, for this work. They do not fully rely on elections for their top leaderships. Such are not part of some of the richest nations. Thus, it is not because of money. I have already explained the reasons for some of it, in this note.

Further, there can be financial models for sharing the words of God, without involving big monies. This is why I wanted the institute, first, not the money. However, all those corrupt people of the world have put the love of money, even above their own souls, which are the hidden identities.

They have also done so, to the future of godliness in the world, and the future of those few whom God wants for eternity.

They have even done so, to their own eternal destinies before God.

With such people and leaders in the world, who needs the devil on around? They are clones of Satan, the evil one, in the Christian Bible.

For example, I finished the critical parts of this book in the month of June, in the year 2013. I know that the people of the world accessed this book from my electronic notebooks, using the electronic surveillance techniques. Further, people always enter the house that I rent, in east of Nairobi, whether I am in there asleep, or outside it. Then, they access my electronic notebooks. I only knew of this second thing, in recent times. Then, they claim that they do not know where I stay in this city.

Further, I advertised this book on my personal website in this university, in the month of October, in the year 2013. Yet, nobody has come forward to help me in any way. They have just assumed that I wanted the money from this unique work.

They have done so, because they love money, above their souls and God.

Otherwise, they would have made sure that those corrupt people, even of that richest nation, would NOT have been threatening me. This is what people who love God would do, for godliness.

However, they have all run after seeking to be friends with that richest nation. Why? They have also wrongly, judged me on my so called sinful past life. They have done so, without proper facts about my life. They have done so, without knowledge from God. They do not know about their own bigger sins, including the ones they suspect of me.

Many other evils, such as genocide in my small tribe, have continued even after that time. Why? What are Taitas being judged of? This is just plain madness.

Why are the ruler-ships of the world, not able to catch any of these murderers? This is even with all the riches and financial resources, in those ruler-ships.

Therefore, because of such things, the institute on godliness cannot start, in the world. It is just because many people are after money, the by wrong means.

They do not even care about themselves, their souls, and others;

e) “Sole proprietorship” is also an organisation, but of one person.

Greatness of an organisation for the word of God is in the fact that because of the quality of its products, it judges billions of liars. It is not about the financially, richest countries on earth, and the “fully democratic” countries, or money.

You cannot serve God and serve money. This is a law by God and Christ, in the New Testament.

Therefore, anyone can write and offer the word of God. Such one, though, looking like a “Small and Medium Enterprise”, is still a large organisation.

Thus, those few, free, notes that I had put on my personal website in this university, and this summary, are more than enough to judge the billions of incurable liars;

f) Christians do not go forcing other Christians to be slaves for them. This is to say that Christians do not even kill relatives of anyone for any office or just for love of money. Therefore, all those people of the world, and false Christians, forcing me into anything in the world, you are on your own, in those lies. I also have a high rank for God’s work. Anyone who has any godliness should understand this thing;

g) There are also no “godfathers” in any business for Christians, just as in the world;

h) There are no “deals” of any kind, by Christians, to any other Christian, or to the world. This is in each of their personal details, such as looks, names, tribe, age, contact details. This is also in events involving themselves and one other, or a few of friends, work-mates or relatives, among, many such personal things. This is now binding to all humankind. It is because of the book from me, that is “The Evidence of the God of the Christian Bible.” False Christians are not good for anything.

This is the end of the summary of the two notes.
