

# AXA RESEARCH FUND POST DOCTORAL FELLOWSHIPS 2015 CALL FOR PROJECTS RESULTS

**The AXA Research Fund is pleased to announce the results of the 2015 Post-Doctoral Fellowships Campaign.**

We thank all the applicants for taking part in this campaign. We received a very high number of applications and were very impressed with their excellent quality. The selection process for this campaign was therefore highly competitive.

If your name is not on the list below, we regret to inform you that after very careful consideration, and despite the high quality of your application, our Scientific Board has decided not to select it for funding this year. We do wish you all the best for your future academic endeavor.

2015 Fellow	Host Institution	Project name
Dr. Albertazzi	Institute for Bioengineering of Catalonia - ES	Novel Approaches For Pandemic Virus Targeting Using Adaptive Polymers
Dr. Alexander	Fondation Maison des Sciences de l'homme - FR	The Globalisation Of 'Active Play' To Prevent The Risk Of Childhood Obesity: Is Physical Health All That Is At Risk
Dr. Baggio	Max-Planck-Institute for Biology of Ageing - DE	Identification Of Novel Genes Modulating Age-Associated Mitochondrial Dysfunction
Dr. Barrio	University of Iceland IS	The Influence Of Herbivore Communities In Tundra Ecosystems Following Anthropogenic Changes In Soil And Climate
Dr. Biondi	National Research Council - Institute for Atmospheric Science and Climate - IT	Enhanced Monsoon Predictability: Role Of Aerosols In The Troposphere
Dr. Boyer-Kassem	Tilburg University NL	Collective Decisions: how To Aggregate Risk Assessment And Risk Acceptability
Dr. Chanzu	University of Cape Town ZA	Identification Of Immunological Risk Factors Associated With Adverse Birth Outcomes In A Setting Of In Utero Hiv And Antiretroviral Drug Exposure
Dr. Corendea	United Nations University Germany - DE	Hybrid Legal Approaches Towards Climate Change
Dr. Day	University of Reading UK	How Will Arctic Meteorological Hazards Change In The Coming Decades
Dr. Dellicour	Université libre de Bruxelles BE	Development And Applications Of An Analytical Framework To Use Viral Genetic Information And Environmental Landscape Data In The Study Of Emerging Infectious Diseases
Dr. Drigo	Nanyang Technological University - SG	Apoc3 Mediates Ageing Of The Vasculature Of The Islet Of Langerhans

# POST DOCTORAL FELLOWSHIPS

## 2015 CALL FOR PROJECTS RESULTS

Dr. Duchez	National Oceanography Centre - UK	Dynamics Of European Extreme Weather: A Climate Model Intercomparison
Dr. Eisenhauer	Universität Bonn -DE	Robust Dynamic Discrete Choices
Dr. Festjens	Katholieke Universiteit Leuven - BE	Tempting Marketing Cues And Risk Behavior
Dr. Freeman	London School of Economics and Political Science - UK	The Future Of Long Term Care For Vulnerable Older Adults In Sub-Saharan Africa
Dr. Garnier	University of Cambridge UK	Dynamics Of Antibodies Against Zoonotic Infections In African Fruit Bats
Dr. Girault	Ecole Normale Supérieure FR	Impact Assessment Of Graphitic Carbons During Earthquake Processes
Dr. Heimbürger	Université d'Aix Marseille FR	Levering Knowledge Gaps To Understand And Anticipate Risk From Methylmercury Exposure
Dr. Howells	New York University in Abu Dhabi - AE	The Importance Of Life Experiences In Shaping The Thermal Tolerance Of Reef Corals
Dr. Jenny	Max Planck Institute for Biogeochemistry - DE	Reconstructing Rates Of Changes In Global Soil Erosion And Effects On Carbon Cycle
Dr. Leusch	Reiss-Engelhorn-Museen DE	All That Glitters Is Not Antique Gold: Scientific Investigation On Ancient Gold And Modern Forgeries
Dr. Mengel	Potsdam-Institut für Klimafolgenforschung DE	Will The Entire West Antarctic Ice Sheet Destabilize And Contribute To The Global Sea - Level - Rise
Dr. Pandey	The University of York UK	What Level Of Risk Will Ground Level Ozone Pose To Soil Carbon Sequestration Over Coming Decades
Dr. Pérez-Blanco	Centro Euro-Mediterraneo sui Cambiamenti Climatici IT	Booster Blue – Economic Instruments For Sustainable Water Management And Resilient Growth In Water Stressed Areas
Dr. Roussel	Neurosciences, Cognitive Science, Neurology, and Psychiatry Institute (Inserm) FR	Neuroserpin And The Er Stress Pathway: Two Ways To Investigate The Effects Of Tpa In Cerebral Ischaemia.
Dr. Steffen	Uppsala University - SE	Glacially Induced Earthquakes In Greenland
Dr. Tagliazucchi	Netherlands Institute for Neuroscience - NL	The Neurophysiology And Epidemiology Underlying Health Risks In Populations Suffering From Sleep Disturbances
Dr. Thibeaux	Institut Pasteur in New Caledonia FR	Leptospire Bacterial Biofilm: An Unexplored Reservoir For Environmental Survival And Persistence Of Infectious Bacteria
Dr. Vakkari	Finnish Meteorological Institute - FI	Atmospheric Evolution Of Biomass Burning Emissions
Dr. Wawrzyniak	National Centre for Nuclear Research PL	Development Of Methodology Assessing The Risk Of Remedial Actions In Transmission Systems And Optimizing Them.
