Location / Venue:

Transport Section

Prof. Bernard N. K. Njoroge commissioned a van at the college today, Wednesday, June, 10, 2015.

He said that the van will enable students and staff at the College of architecture and Engineering to move about with ease, he also added that the students will have a better access to field trips.

As former Principal of the College, The Deputy Vice Chancellor was glad that he had left a legacy worth emulating. He encouraged Prof. Peter Ngau, the current acting principal and the Deans to work hard and in unison at acquiring a bus; which will be able to serve the college better.

Prof. Njoroge together with the staff took a ride and a brief tour of the college after commissioning it.

Prof. Ngau thanked the University Management for buying the vehicle for the college. He reiterated Prof. Njoroge's remarks, that the vehicle will go a long way in helping the students with their field work.

The University has been on a fleet modernization program of its motor vehicles in the last few years, and the van commissioned today is part of the effort
