

The 3rd International Scientific Conference kicked off on Wednesday at the University of Nairobi's Kenyatta National Hospital Campus.

The three-day event is being hosted by the University in conjunction with Kenyatta National Hospital under the theme: Research as a driver for Science, Technology and Innovation for Health.

Both seasoned and upcoming scientists and healthcare practitioners from both private and public sectors will get a chance to share knowledge and experiences that influence and shape health care delivery through their presentations at the Conference that runs from 10th to 12th June, 2015.

The main objective of the Conference is to achieve evidence based quality healthcare to the people around the world.

Below are the sub themes of the Conference:

- Reproductive Health
- Diagnostic Science
- Quality Control and Assurance
- Medico-Legal Issues in Health
- Research to policy
- Grants Administration and Management
- Communication and Documentation
- Non Communicable Diseases Health Support Systems (Health Insurance and Social Works)
- Oral Health
- Sports Medicine
- Infectious Diseases
