University Students Community Organization is a student's based organization that seeks to unite, empower and inspire students in all territory institutions in Kenya. Their main goal is to make students aware of the various programs in the organization from which they , and the society at large can benefit. These include but are not limited to:

- The Green Initiative
- The Health Initiative
- UNISCOO Media Initiative
- The Community Service Initiative
- Affirmative Action Initiative etc

Through these initiatives, students stand to gain a lot by acquiring mentorship, Scholarship, exchange programs, attachments and placements.

UNISCOO would therefore like to officially introduce UNISCOO to School of Business and we believe it will be a great addition to the UNISCOO community.
