

BLOOD DONATION DRIVE AT SCHOOL OF BUSINESS

Date and time:

Wed, 2013-07-17 08:41

Location / Venue:

Lower Kabete

School of Business students Donating Blood at the Tent.

The School of Business successfully held a two days blood donation drive at Lower Kabete Campus. The event was organized by Kenya Model United Nations Lower Kabete Campus Chapter.

KenyaMUN is a simulation of the United Nations and therefore a manifestation of the Model United Nations in Kenya, entirely run and organized by university students. The members work together to find solutions to national, regional and international challenges, acquire new knowledge and skills, and build relationships that cross borders of background, culture and nationality. While we support various enabling endeavors, a world-class Model United Nations simulation at the UN headquarters in Nairobi is the heart of our organization.

Our members are passionate about leadership, current international affairs and want to learn about other nations, societies and cultures. Through research, conferences, panels, special sessions and beneficial team building, our members develop intellectually and discover the impact they can make in society.
