

2nd Year Masters in Particle Physics Fellowship opportunity in Marseille, France

Date and time:

Thu, 2015-03-19 09:41

Location / Venue:

Aix-Marseille University, France

The [Aix-Marseille University second year Master Program \(P3TMA\)](#) on Particle Physics, Astroparticles, and Cosmology in Marseille, France, might be of interest to students you know. In particular, they offer interesting fellowships to the best students [10,000 euros/student]. All their classes are given in English. We kindly ask you to forward this information to potentially interested Master 1 level students you know.

The program aims at providing high level training in fundamental physics for students pursuing a career in research or in applied fields. The courses offered are intended to provide a solid and diversified knowledge. They cover a wide range of topics in theoretical physics, mathematical physics, particle physics, astrophysics and cosmology. Students have the possibility of choosing among the list of proposed courses and thus decide to follow a specialized training among 4 orientations. After 6 months of teaching, the program is designed to provide students with direct contact with actual research work through a four-month research project in the field of their choice and under the direction of one of our faculty members.

Do not hesitate to contact us for any complementary information.
