

CEBIB Journal Club 2015/2016

The [Centre for Biotechnology and Bioinformatics](#)' weekly series of scientific journal and/or seminar presentations by postgraduate students and guest speakers is set to begin its interactive sessions for the academic year 2015/2016 starting this week.

On Wednesday, September 23, 2015 at 1.00 – 2.00 pm, the Club will hold opener presentations for the academic year 2015/2016 coupled with Masters Project progress presentations by finalist student(s).

Subsequently, on Thursday, September 24, 2015 at 10.00 – 11.00am, the Centre will host Ms. Priscillah Ngotho, who will give a seminar based on her PhD research entitled "The *Plasmodium* interspersed repeat (PIR) protein family: potential antigenic and pathogenic determinants." For more information about the seminar and the presenter follow the link <http://cebib.uonbi.ac.ke/node/4269>
