Population Studies and Research institute (PSRI) is currently undertaking data dissemination in Homabay County. The Institute completed Round 22 data collection on March 2015 in Rusinga Island which is the Demographic surveillance area. In addition to DSS data dissemination the report also include a survey on maternal mortality, contraception family planning use and access by the residents. The Director of the Institute Professor Murungaru Kimani , four PSRI staff members, Homabay County top officials, Rusinga Island representatives and partners were present.
