

## Master Training workshop on use of Kiwi cup vacuum delivery device

Date and time:

Thu, 2015-11-19 08:30

Location / Venue:

DOG

Prof Qureshi attended a one day Master Training workshop on use of Kiwi cup vacuum delivery device for assisted vaginal delivery.

This workshop was organized by Clinical Innovations a US based company that manufactures the KIWI device. This workshop was a part of the XXI FIGO congress held in Vancouver 3-9<sup>th</sup> October 2015. She will utilize the skills acquired to train post-graduate and undergraduate students of the Department of obs/gyn on the same. The workshop was conducted by Dr Charles Ameh of the Liverpool school of tropical medicine and Dr Ross McQuivey of clinical innovations.
