

ELDORET UNIVERSITY STUDENTS VISIT THE DEPARTMENT

The Department of EBE received students from Eldoret University, Department of Agricultural and Biosystem Engineering and Mechanical Engineering on 8th September, 2015. The purpose of the academic trip was to give the students a wide exposure to complement theory and practicals done during their studies.

The students were taken through the following laboratories:

- Power and machinery (power measurement using dynamometer)
- Soil and Water Laboratory (pF; water release water retention, soil strength determination using triaxial machine)
