

**First World Congress of Ear and Hearing Care 12th to 14th February 2015,
New Delhi**

Prof Isaac Macharia attended the first World Congress of Ear and Hearing Care between 12th and 14th February 2015. His attendance was as a result of special interest in this field and consequently was invited as a member of faculty for this important congress. Prof Macharia made a plenary presentation on %Barriers to Ear and Hearing care in Low and Middle Income Countries (LMIC) %

Additionally Prof. Macharia also made another presentation and presented two free papers entitled %Mass fitting of Hearing Aids: Kenyan Experience with the Starkey 3 phase community based hearing health care model+ and %ADVOCACY for hearing health in a changing world -CBM\$ perspective+

The Conference provided a valuable avenue for network with world leaders in Ear and Hearing Care. As a result of these interactions, the organizers proposed that Kenya form a chapter of the highly successful Sound 2030 to spearhead ear and Hearing care in Africa.
